City Executive Asks Business Men to Send Committee to Press Adoption of Programme.

Fear that the legislature will adopt a few small, petty measures and fall to agree upon a reconstruction programme large enough to meet the present needs was expressed by Mayor Bayer yesterday at a meeting of the council to a committee of representative business men who called on the council to urge speed in all necessary public work.

After assuring the committee that the city was ready to do its utmost to create necessary work to releve the pres-ent unemployment problem. Mayor Baker suggested that the committee appear before the legislature to urge an adequate reconstruction programme

Hesitancy Is Noted. "The returning soldier must be pro-vided for and the only successful plan in to provide him with work," said Mayor Baker. "The men who were en-gaged in war industries must be em-ployed and a failure to create work presents a danger of revolutionary tac-tics by the agitators. Every man is en-titled to work and during the present

titled to work and during the present era of reconstruction governmental bodies must provide this work.

"I have been at Salem and I fear that the members of the legislature will fail to enact a programme of sufficient size to handle the situation. They will likely decide on a \$4,000,000 or \$5,000.000 programme when a \$30,000,000 plan is needed. They hesitate to call a special session of the legislature or a special election. Action is necessary and I hope this committee will go to Salem and present its views to the members

which will help in providing more employment.

Members of the council were requested to make a careful check of their respective departments and report to Mayor Baker any necessary work which can be performed at this time. It is highly probable that the various members of the council will find it necessary to readjust their budgets in accessary to readjust their budgets in accessary to readjust their pungets or any order to secure funds to pay for any favoring Senator Huston's only ing for the appointment of a state marketing commission and marketing

WOODBURN, Or., Feb. 13 .- (Special.) -An old landmark went with the fell-ing Wednesday of an old yellow pine tree on the Henry Layman farm, it this vicinity. It required the combined efforts of J. A. Ganow and J. Kilgore a long time before the giant 200\feet in height crashed to the ground. The sound of its felling was heard in Woodburn, a mile distant, and the concussion rattled windows in nearby houses. It was the largest tree in this section

being 25 fet in circumference and 8 fet in diameter. According to the rings it was 205 years old and was sound all the way through, having started growth in 1714. On the north side the tree was a foot wider thau on the south side. The last 20 rings indicated a growth of an inch and a quarter in the last 20 years, and the last 100 rings, or 100 years, showed that the tree had gained in growth just one-fourth of the

HEAD_SALESMAN SPENT HUNDREDS

Burton Suffered Twenty Years Before Finding the Right Medicine.

In speaking of the marvelous way in which Tanke has relieved him of a long-standing case of rheumatism, B. E.

Burton, head salesman in the whole-sale fruit and vegetable department at Lutey Bros., Butte, Mont., living at 662
South Montana street, recently said:
"It is simply astonishing that just a
few bottles of Tanlac should fix me up
in almost no time, after I had spent
almost every dollar I carned in the last twenty years trying to get relief from that awful rheumatism." Before coming to Butte Mr. Burton lived for ten years in Spokane, Wash, where he was salesman for the Imperial Trading company of that city.
"I tell you what," he continued, "have gone through all steges of rheu have gone through all stages of rheumatism and the agenies I have had to
endure simply cannot be described.
The trouble first came on me about
twenty years ago. My shoulders, knees
and ankles gave me the most worry
and ached so at times that I hardly
had any use for myself. About three
years ago it got so bad that I was laid
up in bed for six long months, and
when I got up again I had to go about
on crutches for three months, and till
recently I never did get it out of my
system, although I have spent hundreds
of dollars in trying to get straightened out. I went to Hot Springs.
Arkansas, but without result and then
I tried the mud baths tearer home, but
got no benefit from that treatment got no benefit from that treatment either. A little while ago I felt it coming on pretty bad again. My apcoming on pretty bad again. My appetite left me, nothing tasted right, I was constipated and suffered from awful headaches every few days. The pain in my shoulders and knees was so agonizing that I could hardly sleep and I would wake up six or seven times during the night racked with pain. Why, at the time I started taking Tanlac I couldn't raise my arms as

Tanlac I couldn't raise my arms as high as my shoulders to save my life and was unable to put on my coat without somebody helping me, and my knees were so silff and hurt so bad I could hardly walk.

"After reading so much about Tanlac, I decided to try it and I hadn't finished my first bottle before the stiffness began to leave my joints, and now I never suffer a bit of pain or innow I never suffer a bit of pain or in-convenience. My second bottle gave me a whacking big appetite, that constipation is relieved and I never have a headache. I sleep like a log all night and am lucky if I wake up in time for breakfast before going to work. Certainly am glad to indorse Tank and only hope my experience with this wonderful medicine will help someone else who may be going through what
