

WORKMENS COUNCIL MUST GIVE UP HALLS

Arion Owner Hints at Suit to Force Vacation.

LEASE EXPIRES IN 30 DAYS

Paul Weisinger Assures Major Baker Co-operation in Complying With Syndicalism Law.

The soldiers, sailors and workmen's council will be ejected from Arion hall, its present headquarters, as quickly as the present lease on the premises expires, which is within 30 days, according to Paul Weisinger, manager of the Weinhart estate, owner of the building. Should it become necessary, because of violations of the recently enacted criminal syndicalism bill, suit will be instituted to cancel the present lease and force vacation of the premises.

Decision to force out this radical body, formed in imitation of the Russian soviet government, came upon delivery of a letter of objection from Baker and District Attorney Evans calling attention to the clause in the new bill, making owners of buildings responsible for violations of the law. Another letter of the same import was also sent to A. J. Parkhurst, owner of the Hotel Northern building, in which the L. W. W. headquarters are located. Attention in this letter was called to the frequent requests made by both state and federal officials for the location of the L. W. W. organization, requests which had been unheeded.

Owners Held Liable. The owner, lessee, agent, superintendent or person in charge or occupation of any place, building, room or rooms, or structure, who knowingly permits therein any assembly or resort of persons prohibited by the provisions of section 3 of this act, or who after notification by authorized public peace officers that the place or premises, or any part thereof, is or so used, permits such use to be continued, is guilty of a misdemeanor and punishable upon conviction thereof by imprisonment in the county jail for not less than 60 days or for not more than one year or a fine of not less than \$100 or more than \$500, or by both such imprisonment and fine.

Co-operation Promised to Mayor. Mayor Baker was assured yesterday by Mr. Weisinger that full co-operation of the officials of the Weinhart estate will be given to the officials in connection with enforcement of the syndicalism act.

cent, and New England now imports milk from Canada. Connecticut is as fertile as the sand dunes of Denmark, and the Nutmeg state is as thickly peopled. In the last 50 years 800,000 acres of Connecticut land have gone out of cultivation, while in the same time 1,000,000 acres have been added to the cultivated area of Denmark.

As evidence of California's strides in meeting agricultural needs, Dr. Mead declares that this state is the only one in the world which has adopted a land settlement plan, pointing to the Durham colony as a stride far in advance of the remainder of the nation. "The Durham settlement is more than a self-supporting addition to the state's population and productive wealth," he says. "It is significant patriotic achievement. Settlements of this kind are an antidote to tenantry; the best way to stop the drift of young people to the cities."

The policy which Secretary Lane has presented to the nation, if adopted, will both add new productive areas and help to reduce the number of unemployed men. It will start this nation on a new and better kind of development, a policy which will be felt for many decades to come.

LONG-LOST WIFE FOUND CAPTAIN SEARCHES FOR MATE FOR HALF CENTURY.

Separation Takes Place When Man Is Thought to Have Perished in Fire at Rockland, Me. OMAHA, Neb.—After a search lasting nearly half a century, Captain Frederick A. Williams, of Boston, recently located in Omaha the wife from whom he became separated in 1874. It was thought to have been killed in a hotel fire in Rockland, Me., in 1874, and they are now living together in this city. Captain Williams is 83 years old, and his wife is only a few years his junior. They were married in 1873, separated in 1874, and reunited in 1918. Captain Casey and several men from the homicide bureau immediately set to work to unravel the mystery. There was every evidence that the murdered man had fought desperately for his life. Two lamps were overturned, pictures were awry on the wall, rugs had hung from a doorway were torn down.

Police Have Theory. The police believe Philhower knew the assassin. They are of the opinion that he had no desire to have who ever was in his apartment known to outsiders in no other way than through the fact that no one heard an outcry. As they have reconstructed the crime in their efforts to solve it, they believe the person guilty was admitted by Philhower and that a quarrel started afterward. Philhower's manner of living was such that he must have been in good physical condition, despite his age, and the police think it likely he was having the better of the struggle when his assailant in desperation seized the blackjack first and the sabre afterward.

500 LETTERS BACK DAILY Duluth Postoffice Reports All Sorts of Troubles.

DULUTH, Feb. 13.—When a letter is dropped into that "sanctuary of human speech," the corner mailbox, it is trusted to seeing that the mislabeled letter reaches its destination. Of the 500 letters returned daily through the Duluth postoffice to the senders, however, indicates a slip-up somewhere along the route. That every month 1,000 letters do not reach their writers but are sent to the dead letter office at Chicago is evidence of something else wrong somewhere. Among the thousands of letters that shuttles their way in and out of the local office every day there is the inevitable percentage that cannot be "put through" to the intended recipient. The main difficulty experienced by the clerks says Acting Postmaster W. F. Henry is found in letters only partly addressed. Hundreds of letters are received every day, moreover, that are incorrectly directed. These letters are gone over by the oldest clerks in the office. They are carefully checked with a special government directory maintained up to the minute at the office. Every effort is made to locate the recipient in Duluth or in other nearby towns. If the effort is unsuccessful, back to the sender go the letters, 500 of them every day. And if there is no return address, they must be forwarded to the local letter office at Chicago, where they are opened and their destination determined by the contents.

CURIO COLLECTOR IS EASTERN SABRE AND BLACKJACK USED BY MURDERER.

FIGHT IS MADE FOR LIFE Many Pictures of Women Are Found on Walls of Apartment and Police Seek to Solve Mystery.

NEW YORK.—The police have another murder mystery on their hands for solution. Winfield Scott Philhower, a skilled electrical machinist, 56 years old, and a bachelor, was killed in his apartment on the first floor of 145 East Thirty-ninth street. The crime had been committed with a blackjack and an Oriental sabre, both of which were part of a collection of curios on which Philhower had spent much care and money.

cleanest animals known and they yield a white and delicate meat. About 150 exhibitors of domestic-raised, standard type Belgian hares, New Zealand, Flemish giants and other breeds will be shown in connection with the Minnesota Poultry association's show at the Army January 16 to 21, Mr. Sprague said.

Chocolate Shipment Wrecked. TRIER, Prussia.—A carload of chocolate billed to the American army of occupation was wrecked near Trier recently, and several German children of families living nearby ate such quantities of the sweets that doctors had to be called in to treat them. Many of the children had never tasted chocolate before, the form of candy being among the luxuries which Germany was virtually unable to supply during the war, and before the American salvage crews got to work the youngsters consumed their fill and then started homeward with all they could carry.
