JEWES HELD ANTI-BOLSHEVIK

HEAD OF AMERICAN COMMITTEE REFUTES TESTIMONY. Mr. Marshall Declares Jewish People More Free From Menace Than Average U. S. District.

NEW YORK, Feb. 20.—Louis Marshall, president of the American Jewish committee, has given out a statement taking issue with the testimony of Dr. George S. Simons before the subcommittee on judiciary of the senate, which is investigating bolshevism. Dr. Simons testified regarding the activity of Jews in the bolshevik movement in Russia and said that the present chaotic conditions there are due in large part to the activities of Yiddish agitators from the east side of New York City who went to Russia immediately following the overthrow of the czar. Mr. Marshall's statement reads:

"Everything that real bolshevism stands for is to the Jew detestable. His traditions led him to law and order, make of him a legalist. The bolsheviks are the enemies of law and order. The Jew makes the very center of his life and of his existence the home and the family. The bolsheviks destroy marriage and the family. The Jew is justly noted for being thrifty and economical and with recognizing as necessary the institution of property. The bolshevik is seeking the destruction of the very concept of property. The great mass of the Jews are faithful to their ancient religion and are ever ready to help their brother in distress. The club of the bolshevik knows no brother and he despises religion."

"The innuendo is also thrown out that the Jews are not patriotic. Let their record during this war speak for them. They constitute but 3 per cent of the population of this country, yet more than 5 per cent of their number entered our army and navy and a larger proportion of the number as volunteers. I expect shortly to supply an authentic list of all the men who served under the colors, so as to be able to present to our maligners irrefragable proof that the Jews have furnished in proportion to their numbers a larger quota to our military and naval forces than any other part of our population."

"Let me also refer to the casualty lists to establish the fact that the Jews of this country not only served, but that they were brave and heroic and were prepared to make the supreme sacrifice for America because they love it. Let me also refer to the list of citations for exceptional heroism, to the men who fought in the Argonne forest, to those who constituted a part of the Lost Battalion, and who participated in every movement of our troops. You will find among them east side Jews in large numbers."

"It is difficult to understand the motive behind this attempt to arouse unworthy passions. Attack bolshevism as much as you please and the Jews of America are with you. But what justification is there for charging the Jews with bolshevism when in reality there is a smaller percentage of them who can truthfully be so denominated than there is in any other section of the American people? I might illustrate this point by referring to the recently published list of J. W. W. who are awaiting deportation, the vast majority of whom are non-Jews."

"In the German army, as in the American, garden patches supplemented the food ration."

"He says that Jews from the east side went to Russia immediately after the revolution and are now active bolsheviks. It is well known that when the news of the revolution came there were quite a number of Russians, both Jews and non-Jews, who returned to their native land. Some of them placed themselves at the disposal of Milukov and Kerensky. Others doubtless joined the bolsheviks. Their return was encouraged by the Russian government, which supplied them with the means of transportation. The suggestion which any financial or other assistance came from the east side is a ridiculous fabrication."

"There is an intimation that there are Jewish bolsheviks in this country. The term 'bolshevik' as now used, means anything or everything to which the speaker may desire to refer. I am not a Jew, and I am not in any way concerned with what becomes of the Jews."

"The fact that Dr. Simons has happened to be a Jew, whatever you will, as usual, be charged against the Jews as a whole." To this Poliakoff replied: "Altho' I was born a Jew I have no interest whatever in the Jews or in any other religious body. I am an internationalist, and I am not in any way concerned with what becomes of the Jews."

"At about the same time there had been an outbreak, which resulted in the loss of many Jewish lives, and a committee called on Trotsky to urge upon him the necessity of taking steps for the protecting of their lives. He very coolly answered that he was not interested in the Jews or in what might happen to them, and that he did not regard himself as a Jew in any sense."

"The fact that Dr. Simons may be able to prepare a list of Jews who are bolsheviks means nothing. I could go to Osnating tomorrow and prepare from the records there a list of criminals who may be of English, French, Italian or Slavonic parentage or who may belong to the Episcopal, Methodist, Baptist or Catholic churches, and seek to deduce from such lists conclusions derogatory of the nationality or of the church to which they belong with as much accuracy as he can deduce from his list the conclusions which he is apparently seeking to inculcate. In fact, Lenine, who heads the list, is not a Jew, and Martoff, who appears upon it, is strongly opposed to bolshevism."
