

CAPTAIN WINS MEDAL FOR BRAVERY AT FIRE

James S. Michael Averts Destruction of Bordeaux.

FRANCE CONFERS HONORS

Portland Man and Two Fellow-Officers Board Burning Ship Which Bears Explosives.

With seven miles of warehouses filled with munitions belonging to the United States and her allies threatened with destruction through the burning of a French ship, filled with the high explosive known as T. N. T., Captain James S. Michael impounded two fellow officers to join him in going aboard the ship and making a fight against the fire, which was fast eating its way into the portion of the ship which was filled with the explosive.

taken down through voluntary action of property owners. Mr. Barbur states that 11 of the remaining signs are so seriously objectionable that the council should take immediate action to have them removed. These signs are listed in a report to be submitted to the council by Commissioner Barbur as follows: Boston Painless Dentists, 236 Washington street; Alba Bros., 243 1/2 Morrison street (two signs); Painless Dentists, 125 1/2 Sixth street; Marks Shoe company, 213 Washington street; Union dentists, 231 Morrison street; Lidage & Sons, 225 Morrison street; Hotel, 101 Sixth street; Gately Clothing company, 428 Washington street; Arlington hotel, 23 North Third street; A. Miller, 111...

council view them before taking any action. It is probable that the city council will refer the entire matter to City Attorney LaRoche for a report on the most feasible method whereby the signs found objectionable may be removed.

FRENCH WARRIOR IS HOME

Lewiston Man Leaves Family to Join Former Countrymen.

LEWISTON, Idaho, March 20.—(Special.)—Alfred Arnold, known as "Frenchie" to his Lewiston acquaintances for the past 15 years, has just returned from service with the French army. After enduring for three years the horrors of the devastation of his native land, Mr. Arnold secured passports, obtained promise of a place in the French army, said good-bye to his family of five, and sailed to aid his former countrymen in their desperate stand against the advancing German armies. He saw just 55 days of actual service before the armistice was signed. He was at various points on the line from Ghent to Verdun, the latter place being near the town of his birth.

Mr. Arnold, who is 50 years of age, was made a corporal and was given charge of the training of young men in the class of 1919. He has an interesting collection of trophies.

Three Americans Win Medals

The five on the St. Jane occurred about 2 o'clock on the morning of March 21, 1918, just one year ago. The Portland captain and his two fellow officers succeeded in extinguishing the fire after several hours' work. Captain Michael made the first descent into the hatch which was afire. The men covered their faces with wet cloths and were placed around their bodies so they might be pulled out in the event they became overcome by the dense smoke which was rolling out of the burning hatch.

Following the incident the French government made an investigation, issued a reprimand to the officers and crew of the ship because of their hasty retreat, and designated medals to be issued to the three American officers, who prevented what seemed almost certain destruction of Bordeaux, one of the principal ports used to receive war supplies from the United States.

French Generals Attend. The medal was presented to the Portland man on May 30, 1918, by Major-General Scott, then in charge of the American forces stationed in the Bordeaux territory. Four French generals and the mayor of the city, together with a large number of allied troops, were present at the ceremonies incident to the presentation of the medals.

Captain Michael is a veteran of the Spanish-American war, having served three years in the quartermaster's corps in Cuba and the Philippines. After America entered war against Germany he was offered a commission as captain to take charge of the German docks at Hoboken, where he served for six months. He was then sent to France, spending the entire portion of his time in Bordeaux. He was in charge of the unloading of the ship which brought the first American troops to France and during his entire stay in the French port held a responsible position with the quartermaster's department which handled the supplies for base No. 2 of the American expeditionary forces and sent supplies to the front almost daily.

UNSIGLTY SIGNS DOOMED

PLAN TO BE OBTAINED BEFORE CITY COUNCIL WEDNESDAY.

List of 64 Grotesque Electric Advertisements Prepared for Consideration.

Grotesque and unsightly electric signs in Portland must be eliminated and action will be outlined to the city council next Wednesday by City Commissioner Barbur which will serve as the beginning of a campaign against such signs.

Recently a petition signed by a large number of business men was presented asking for steps to remove 64 electric signs in the downtown district. Since this petition was filed with the city council 20 of these signs have been

'DRY' QUESTION SUBMITTED

Attorney-General to Give Opinion on Prohibition Referendum.

SALEM, Or., March 19.—Attorney-General Brown is expected to have an opinion by Saturday night relative to whether the referendum can be invoked on the joint resolution of the last legislature by which Oregon ratified the national prohibition amendment. The question was submitted to the attorney-general today by the secretary of state.

A test case doubtless will be instituted in the supreme court regarding the ruling of the attorney-general. Masonic Head Visits Albany. ALBANY, Or., March 19.—(Special.)—Frank W. Stettinmer of Woodburn, grand master of the Masonic lodge of Oregon, made an official visit last evening to St. John's lodge, No. 17, of this city.

A TONIC IN THE SPRING INCREASES YOUR EFFICIENCY

Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves.

The good old fashion of taking a tonic in the springtime, like most of the customs of our grandfathers, is based upon sound common sense and good medical practice. No matter how mild the winter it is a trying time, even in the most favored climate, for those who are not in the most rugged physical health. Many men, women and children go through the winter upon the reserve strength that they have stored up during the sunny, summer months, and grow increasingly thin and pale as the spring days approach. A tonic for the blood and nerves at this time will do much for such people by putting color in cheeks and lips and banishing the tired feeling that made "spring fever" in the old days another name for lassitude.

You cannot be energetic if your blood is thin and weak. You cannot compete with others in business if you are nervous, if you do not get refreshing sleep at night or if you are losing in weight. You need a tonic at this time to add to your efficiency as well as to save you from suffering later on. A non-alcoholic tonic is best suited for most cases of debility, for stimulants aggravate many forms of nervousness. That such a remedy is available, with complete directions for home use that makes building up your strength a comparatively simple matter, is shown by the following well-authenticated cases.

Gained Several Pounds. "Some time ago," says Mrs. C. J. Cleveland, of No. 4304 Snelling avenue, Minneapolis, Minn., "I began to lose flesh, strength and color and it seemed as though nothing could restore my health. I was so badly run-down that my nerves seemed to be on the verge of giving out completely. I was tired all the time and could not sleep at night or if I did sleep I was so restless that I didn't feel refreshed in the morning. The crying of my children upon me, I had no appetite and my face was colorless. Frequent headaches also caused me great distress and my digestion was disturbed."

"I read of Dr. Williams' Pink Pills in a newspaper and was so impressed by what they had done for others that I decided to give the remedy a trial. After I had taken half a box I could see that they were helping me. My appetite was better and I began to pick up strength at once. I continued the treatment until my nerves were restored to strength. I no longer become excited or distraught. My color is good and I have gained several pounds in weight and feel fine. I have recommended Dr. Williams' Pink Pills to my friends."

No Longer Has Indigestion. Indigestion is one of the commonest symptoms of general debility and what is frequently called that "run-down condition." During the process of

digestion there is a rush of blood to the stomach. If the blood is deficient in quantity and quality, digestion is hindered, food ferments and distress follows. Mr. Charles Ruffey of No. 117 North Sixth street, Lafayette, Ind., says: "I began to feel poorly last winter due to the close confinement to my work. I got little exercise and became so weakened that my nerves were upset. I was troubled with indigestion following a meal and the distress continued into the night and I couldn't sleep. I suffered from occasional spells of faintness and shortness of breath. I had a pain across my back and as the weakness continued I lost flesh."

I saw a newspaper announcement of Dr. Williams' Pink Pills and began the treatment. I began to feel better in two weeks and continued taking the remedy for five weeks. My improvement is so marked that my friends have spoken of the change in my appearance. I have regained all my lost weight, my nervousness has disappeared and I can eat heartily without experiencing any indigestion or dizziness. It has given me great pleasure to recommend Dr. Williams' Pink Pills to my friends."

Improve Your Appetite. Those who take Dr. Williams' Pink Pills for Pale People as a tonic invariably say that their improvement began with a noticeable increase in the appetite. When you are sick and your vitality is low your appetite fails. Nothing tastes good. You take no pleasure in your meals. Under such circumstances good digestion is impossible. Dr. Williams' Pink Pills tone up the entire system. The blood is enriched with a good red blood is essential to normal digestion. The glands that secrete the digestive fluids are strengthened, not merely stimulated, and you once more enjoy a good appetite. Looking forward pleasantly to meal-time is the first sign of returning health, strength and vitality.

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are for this reason an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after-effects of the grip and fever. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate systems.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by Dr. Williams' Medicine Co., Schenectady, N. Y. The booklets, "Building Up the Blood," and "What to Eat and How to Eat," will be mailed free to any address upon request.—Adv.
