

PAST CONGRESS ONE WITHOUT PARALLEL

Records of All Kinds Broken by Sixty-Fifth.

HUGE TOTAL APPROPRIATED

Public Laws Passed Number 349. Total of 22,594 Bills and Resolutions Are Introduced.

WASHINGTON, March 23.—Accomplishments of the sixty-fifth or was congress, are officially reviewed in the final number of the monthly compendium of the house of representatives appearing today. It has been decided of the congress, which necessarily must be considered in the legislative programme of the new congress, soon to convene also contained in the publication, which was edited by W. Ray Loomis, an official of the house.

Appropriations Total Huge. The 65th congress is shown to have appropriated approximately \$7,000,000,000, passed 249 public laws, 48 public resolutions, 48 private laws and conducted 22 congressional investigations.

President Wilson's part in congressional matters is set out by a list of notable dates, including his approval of the history-making laws and his numerous addresses. It is shown that for the first time laws were signed in a foreign country; that for the first time a revenue bill, was signed on a railroad train; that for the first time a president had addressed the senate in favor of woman suffrage and had signed a bill to "move the sun forward and then backward" and had gone on the floor of the house to shake hands with members of foreign war missions.

Another unprecedented feature was that practically one-fourth of all the laws of the three sessions were approved during the last nine days of the congress. Fifteen representatives and 10 senators and 29 ex-members died during the congress. Two former presiding officers of the senate, Theodore Roosevelt and Charles W. Fairbanks, also were included in the death roll.
