Conference Prepares Plans. With Hungary irretrievably lost and Roumania almost certain to go with the Ukraine and other Russian border-lands awakening and thinly concealed lands awakening and thinly concealed symptoms of bolshevism appearing in countries so much nearer Paris, the conference yesterday began to plan to discuss methods of preparing a programme whereby the subject would be referred to a sub-committee to suggest steps leading to the consideration of action at some unnamed time.

peace making. Others join in the view, but say the speed process should show first on the league of nations.

However they may differ as to where improvement should be made, all are for the moment agreed that something should be done and that something may eventuate from the two main lines of action that were analyzed last night.

Plans Are Considered. The first is the outright recognition of bolshevism, combined with efforts to control and direct it, converting to general use such virtues as the move-

evils.

The second is to assume that the bol"When th The second is to assume that the bolshevists have committed an act of war in leaguing themselves with the entente's enemy (Hungary) and that a declaration of war is justifiable. Which of the two courses will be followed nobody can say, but the odds just now favor the former. Germany may be leading toward the same end, for the dispatches from Berlin indicate that Radraw is talking of an alliance with Moscow and that there may be a new front by those two elements.

"When the situation is so disquieting at a moment when the allied governments who, having left no blunder unmade, are more than ever in need of the support of public opinion, they raise a regular Chinese wall between the public and themselves."

finance corporation, since the law provides that the corporation may make loans direct to exporters only if loans cannot be obtained through regular banking channels at reasonable terms. Foreign exporters doing business in the United States also have undertaken informal negotiations with the corporation to ascertain whether they may share in the government's credit arrangements. They have been told that means probably can be worked out by which they can obtain advances from an American bank, which in turn can iransfer the loan to the corporation. The corporation cannot lead directly to a loreign business interest, however.

The rate of interest to be charged is determined largely by the legal provision that it must be at least 1 per cent more than the prevailing discount rate on 20-day commercial paper, at present 4% per cent. This would make the minimum rate of the corporation 5% per cent. Fifty million dollars is the maximum which the corporation may advance to any single business organization.

State Governments Are Expected to Buy Sites for National Guard Training Camps.

WASHINGTON, March 25.—Thirteen rmy camps to be abandoned by the var department, including buildings. railroad tracks, sewage systems and other facilities, are to be sold to the highest bidders, and April 15 has been fixed as the date for receiving bids. The plan is to sell entire camps for

lump sums.

In some cases, state governments are expected to bid for the camps for use as national guard training centers. Such

bids will be given preference. Division storehouses and th serving the storehouse area are except-ed from sale, and for the present the government will retain the right to withhold from sale the base hospital and the remount station at each camp. Bidders are advised, therefore, to sub-mit alternate bids taking into consideration the possibility of these excep-tions. Construction placed by chari-table organizations also is withdrawn from the sale.

Bidders will be required to assume

all land and property damage claims and must give the government satis-factory proof within one year that these claims have been met. Substantial bond will be required for perform-ance of contracts. The government will continue all leases for five months after date of sale in order that the purchaser may have this time to remove buildings and debris.
