

# WILSON KEEPS WATCH ON U. S. PUBLIC PULSE

Call for Transport Due to Home Situation, it is Hinted.

## LEGISLATION NEED NOTED

Probabilities Increase That Congress Will Be Summoned to Complete Organization by June 1.

PARIS, April 10.—(By the Associated Press)—While the sessions of the council of four occupy the chief attention of President Wilson, yet those close to the president who have seen him in recent days, say he is giving serious consideration to the conditions of public affairs in the United States, particularly the situation created by the failure of appropriation bills and the necessity for calling an extra session of congress.

It is known that some of the president's advisers are of the opinion that a call should be issued at a very early date, so as to permit the new congress to assemble in perfect organization by June 1 and complete the appropriation bills before the end of the fiscal year. Should this prevail, it would require an early call in order to permit the usual period for assembling, but it is not known that it will prevail. For while the president is listening to these counsels, he has given no intimation of the course he intends to pursue.

**New Factors Arise.**  
Several new factors have recently entered into the consideration of this subject here. One is the departure of the military committee of the new congress for Europe, and it is foreseen that the committee, which is now in the United States, will be unable to make the visit and get back much before June.

Another phase is the conclusion that the usual method of extending appropriations beyond June 30 by concurrent resolution of congress would not suffice in the present case as conditions are so entirely changed from a war to a peace basis that the former appropriations are not applicable to present conditions. This, it is said, will make necessary entirely new appropriation bills, requiring considerable time for their detailed elaboration.

**Wilson May Return Soon.**  
The fact that the United States transport George Washington has been ordered to proceed to Brest has given rise to the suggestion that it was the situation at home, rather than in Europe, which might require the early return of President Wilson to America. But, according to the view of those in the confidence of the president, his physical presence in Washington is not essential to the meeting of congress or until the end of June, when the appropriation bills will be ready for his signature. It is contended that the call for an extra session can be issued here and the work of the new congress can proceed without the president's attendance.

It is pointed out that no president had personally appeared before congress until President Wilson created the new departure, and it is held that he could revert to the custom of his predecessors in issuing calls and transmitting messages without his personal presence.

The final decision depends largely on the progress of the peace conference, as the situation at Washington and Paris are so linked together that they are more or less dependent on each other.

President Wilson attended the morning and afternoon sessions of the council today. The council had under consideration the remaining details of the Saar settlement and the Rhine frontier. There were reports that the Italians were disposed to accept the plan for the Adriatic settlement, which had not previously been satisfactory to them. Should this compromise be effected it would remove one of the last large obstacles to the consummation of the treaty, though many lesser subjects still remain open.

**Papers Delivered by Airplane.**  
CHICAGO.—What is said to be the first airplane newspaper delivery service in America has been started by the great lakes naval training station. A hydro airplane with a supply of Bulletins, the official paper of the station, makes the 25-mile trip to Chicago each morning.

use nothing but the finest all-wool fabrics; that means longer wear, better fit, style that stays stylish.

You'll pay more for such clothes but they'll cost you less than others, day in and day out; because they wear longer; you get more days of service for every dollar you spend; that's the only way you can really determine whether a price is low or high.

Our prices are the lowest you'll find considering what you get; we don't just say that; we guarantee it; your money back if you don't think so too.

### Liberty.

STRANGE and unusual customs of the natives of the far-distant Pacific Isles are shown in Martin Johnson's "Captures by Cannibals," the final installment of his unusually popular pictures, "Cannibals of the South Seas." This last series of pictures, on exhibition at the Liberty theater, is in many respects more engrossing than the first installment.

The selection of brides for marriage—parading painted "beauties" before the warriors and then knocking out their front teeth as final preparation, the burying of old people alive, the 60-day death watch and other customs are depicted in "Captures by Cannibals."

Mr. Johnson and his pretty wife were captured by King Nagapat, a ferocious king and ruler of a harem of 60 wives. They were saved by the timely arrival of a British gunboat and their exciting adventures on this island form one of the principal features of the new series.

"Romance and Rings," a delightful two-reel comedy featuring Mr. and Mrs. Sidney Drew, and Paramount Pictures complete the new three-day programme.

**Screen Gossip.**  
Billie Burke, who for the past few months, has been enjoying a vacation at Palm Beach with her daughter, Patricia Florence, has just signed a new contract with Famous Players-Lasky. Billie returns to the stage next fall, but it won't interfere with her picture work. Two Broadway successes will be used by Billie when she starts work at the Universal studio, Fort Lee, N. J.

Bill Farnum is to do another Zane Grey story, "The Lone Hunter," which will be the third on the list, following "Riders of the Purple Sage" and "The Rainbow Trail." "Dusty," his brother, made "Light of Western Stars."

Maria Walscamp and "Curley" Stecker, Universal animal trainer, have founded a home for friendless, homeless dogs. Already there are 15 inmates leading a perfect dog's life, rambling along the green lawn and bathing in the sunshine and clear-running brooks on the grounds of the Maria Walscamp home for stray dogs.

Mary Chapbank says: "I'm writin' a book on the movies—a big book. There's too many little books on the market now that are no good in proppin' up a chair when the leg is broken."

Harry Carey, havin' collided with five

automobiles in one week, thinks he's qualified to be called an "ace."

Tom Santachi is always busy. He's workin' now with Anita Stewart and just the minute he finishes, Fox wants him back again to do some more human actin'.

They say Dustin Farnum's slogans are "fresh air" and "sunshine." When not workin' at the studio he is either duck huntin' or motor boatin'. He never eats a noonday meal, never drinks and smokes but sparingly. I suppose all this accounts for that manly grace we admire.

Mary Anderson just doesn't know what to do—whether to support a masculine star or be featured in comedy dramas with an interest in the pictures.

Famous Players have secured "Too Much Johnson" for Bryant Washburn; "The Black Bag" by Louis Joseph Vance for "Wally" Reid and "Hawthorne of the U. S. A."

Anita King, who has been spending the winter in Chicago, has left for France to become the bride of Major James McKnight of California.

Charles Ray, the Thomas H. Ince wonder boy of the movies, attracted a great deal of attention as a newboy recently in the lobby of Grauman's theater in Los Angeles. He was selling newspapers for the benefit of the Salvation Army.

The Famous Players-Lasky studio to be built in Long Island City will cost in the neighborhood of \$2,000,000. The studio will be 200 by 600 feet, half glass, and will be four stories. The laboratory across the street will be 90 by 120 feet and will be three stories.

Elinor Fair made her first screen appearance with William Farnum in "The End of the Trail" and now after three years of schooling and voice culture she's back again wearin' the Fox colors.

### COUNTY FAIR BOARD MEETS

CITY AND COUNTRY SCHOOL CLUBS CONSOLIDATE EXHIBITS.

Community Displays to Take Place of Those Usually Made by Grange. Dairy Show to Be Feature.

GRESHAM, Or., April 10.—(Special.)—A feature of the county fair board meeting held here today was the consolidation of the city and country school clubs for making exhibits at this year's fair. All clubs will make entries on the same basis. This feature of the fair will be under the direction of Professor Kirkpatrick, Professor Seymour and Miss Ethel Calkins. A building 40x100 feet will be erected for accommodation of exhibits.

Mrs. E. T. Weathered was placed in charge of the community exhibits, which this year will take the place of the usual grange displays, although the granges will be depended on to represent the communities.

Rhodore Bruggen, dairyman, was placed in charge of the livestock and dairying departments. The Oregon dairy show, held annually in the city of Portland heretofore, will be consolidated with the county fair. This will make a merger of three organizations, the land products show already having been consolidated with the county fair.

Admission rates for the coming fair were fixed by the board. Season tickets will be \$2; day tickets, 50 cents; evening tickets, 25 cents; grandstand, 25 cents.

The fair will open September 15 and continue six days.

A contract was authorized with the Boucher French Carnival company, one of the largest traveling companies, on the coast. Other details of attractions were announced, principal of which will be horse and automobile racing every day.

A budget system of financing the fair was adopted. The premium list will be issued about June 20.
