Dressed Pork Is Used by Canning Outfits-New York Stops Sale of Horse Meat.

Approximately 150 feeder hogs were ship-ped from Portland recently to Alaska, Local dealers estimate that approximately 1009 hogs will be sent to Alaska from the Columblia river and Puget Sound ports this iumbila river and Puget Sound ports this season. These hogs are bought by salmon canners and are fed on garbage and table waste from the camp kitchen. The dressed pork is used by the canning outfits, but if there is any surplus it finds a ready market among the permanent inhabitants of that country. The highest price paid this year for fat shorn goats was reached at Wort Worth, Texas, when 130 mixed Angora goats averaging TS pounds were sold to packers for \$8.50 per cwt. Effective May 1, the slaughtering of

horses for human consumption under the inspection of the New York city department impection of the New fork city department of health will be discontinued. It is felt that the experiment has not been successful and among the reasons assigned for its failure le the fact that the class of horses offered for slaughter has been decidedly below the average work horse. In most cases, old, worn-out animals which had outlived their use-fulness and injured horses which could not be cored were being slaughtered. The class of meat obtained was in many instances not fit for human consumption, so that it was found that a very large proportion of the product was going to the Bronx zoo to feed the animals. Another reason assigned was the animais. Another reason assigned was the fact that the general public did not take readily to the idea of eating horse-fiesh and practically all of the sales were made to people coming from countries where horseflesh is more commonly used. In all, there were about six markets located in Greater New York engaged in selling horse meat. The average number of animals slaughtered each week has been between

COAST AND EASTERN DAIBY PRODUCE Butter Market Conditions at Leading Dis

cisco, Chicago and New York, as wired yesterday to Portland office of bureau of markets:

Chicago.—Considerable activity developed fate yesterday affernoon and buying orders both local and shipping continue to come in teday, causing this market to take on a very firm tone. There is quite a good deal more support to this feeling than has been evidenced on other similar markets of late, as butter seems to be short at many points outside of the city. Centralized is firm at the moment, the few available cars offered being hold for 62c but we hear of no sales having been made above 42 cc.

New York.—Trading was light today. Demand was somewhat inactive and the supply of all grades was slight, in fact some stores were completely sold out. On the basis of 65 to n 22 score, the market today was barely sleady and inclined towards weakening. A few transactions were made on the basis of tomorraw's quotations. While there is considerable meeritainty at the present time, dealers are making every effort to have their supply at a minimum. Receipts yesterday amounted to 6330 tubs. Storage holdings were reduced about 1000 tubs, while the street stocks were practically unchanged.

San Francisco.—More than the ordinary amount of trading took place today and late yesterday evening for shipment to eastern markets. Prices are one-half cent higher on 94-score and unchanged although some dealers seem to be expecting lower prices rather than higher and some are reported to be shaving prices slightly to dispose of this week's receipts. 23-score, 55 %c.

DEMAND IS FOR FINE WOOLS Lower Grades Slightly Weaker in Boston

BOSTON, April 11—The Commercial Bulletin tomorrow will say:
Fine staple wools have strengthened a bit during the week, where mills were determined to secure a selection of the best grades. Medium wools have remained fairly steady, except that quarter bloods and below are slightly lower. The demand is still chiefly for fine wools. The London sales have held firm and for fine wools have ruled a very little dearer. Trading has been resumed at Buenos Aires. Prices are firm at the cape.

Liquidation of Market Leaders DISTRIBUTIVE TRADE IS ACTIVE Chicago Prices at Close Are Unset-Buying From Wholesalers for Fall De-livery Is on Larger Scale.

NEW YORK, April 11.—A more general readjustment of prices on a declining scale marked today's session of the stock market teade and industrial reports to Bradstreet's Journal. Ordinary distributive trade, stimulated today's session of the stock market, leaders, particularly investment rails and United States Steel, denoting further liquidation, attributed in part to conservative interests.

In its hesitant course the market frequently indicated an overextension and consequent weakening of the sustained buil account, which has controlled movements for almost two months past.

United States Steel was under incessant pressure, breaking to 87th, its low price of the week, but closing unchanged at 95%. Steel's heaviness was the more conspicuous because of the strength of related shares, notably Bethishem.

Atlantic & Guif led the shippings at a gross gain of 3 points, but American International added aimost 4 points to the decline which followed yesterday's annexament of the coming 140 payment in stock.

Reversals among rails mostly affected t. Paul common and preferred, Union actific and Norfeth.

meuncement of the coming 440 payment on stock.

Reversals among rails mostly affected St. Paul common and preferred, Union Pacific and Norfolk & Western at recessions of 1 to 2 points. Equipments, metals and tobaccos were unsteady, but secondary mining issues made variable gains. Sales amounted to 1,300,000 shares.

Irregularity in the bond market was chiefly due to reactions in high-grade rails. Liberty bonds also yielded, but foreign issues were steady. Total sales, par value, aggregated \$10,900,000. Old United States coupon 4s gained 1/2 on sales.

CHICAGO, April 11.—Fresh strength developed in the corn market today, chiefly as a result of word that the United States shipping board would not assign any more vessels to the Argentine trade. Prices closed unsettled, 5 g15c net higher, with May \$1.57\cdot 0.188\cdot and July \$1.40\cdot 91.50. Oats finished at \$\cdot c\$ cettle to a like advance. In provisions there was a rice of

Oats finished at 5c decline to a like advance. In provisions there was a rice of 32 to 52 cents.

Oats followed corn, advancing early and weakening inter.

Jumps in provisions were ascribed in the main to an improved outlook for export business. Big shipments from here continued.

Interior 10 Per Cent.

New through traffic rates on many articles shipped from the interior for export through Pacific coast ports will be inaugurated by the railroad administration as soon as the revised tariffs can be prepared and filed. Information to this effect was received yesterday by the Portland Chamber of Commerce

from Senator McNary. Examination of the rates tentatively announced shows that the average reduction amounts to about 10 per cent, it was said at the Chamber of Commerce. San Francisco business men, according to report, are not satisfied with the proposed reductions and have launched efforts to obtain still lower

ates.

The new rates will apply to ship-nents originating in territory of the ments originating in territory of the Missouri river valley and eastward. Typical of the proposed rates per 109 pounds, are: Agricultural implements. \$1; machinery, \$1; automobiles and parts, \$3.75; trucks, \$2. Iron, wire, glass, soap, paper and about 30 other items are embraced on the list of re-

riding was wrecked in a washout in
the Yakima river near Union gap, yesthe Yakima river near Union gap, yesterday filed suit in superior court against Yakima county asking \$20,350 damages. She asserts the county was negligent in failing to erect barriers. The county's defense, it is understood, will be that the washout occurred only a short time before the accident and that the party of which Johnson was a member did not exercise ordinary prudence in driving into a place evidently dangerous.
