HAVB you ever stopped to consider why there is such a great interest shown at this time in Montana lands? Many people realize that the day is fast approaching when desirable lands at a low figure will be a thing of the past. There are several sections in Montana where land values are such that any man looking for a stock, grain or alfalfa ranch, should take time to investigate these lands before making a final selection. If you will call at our office we can give you full details regarding Montana lands and are in a position to show them to any interested party. We submit herewith an average ranch, 320 acres, 300 acres tillable, 135 acres broke, 80 acres in alfalfa; all fenced and cross-teneed; four-room house, good harn, drilled well, good dark checolate loam soil. Price \$14 per acre.
