

COMMUNIST RULE IN LINDAU OVERTHROWN

Reverse in Important Bavarian Town Reported.

PEOPLE GREATLY PLEASED

Government Troops at Dachau Defeated in Clash With Red Guards, Says Berlin.

BERNE, April 21.—After a short siege by Bavarian and Württemberg troops, the communists in Lindau, on Lake Constance, have been defeated completely according to messages received here from the Bavarian frontier. The government which had been set up by the communists has been overthrown. Lindau was the most important communist stronghold in Bavaria with the exception of Munich. The peasants in the surrounding country, the messages say, evidence great satisfaction over the downfall of the communists.

BERLIN, April 19.—(By the Associated Press.)—A clash between communist red guards and government troops at Dachau, 10 miles northwest of Munich, resulted in the defeat of the government detachments, because the spartanists broke the temporary armistice which had been arranged for the purpose of allowing a limited amount of supplies through the lines, and fell upon and overpowered the white guards and occupied Dachau.

According to advices received here, the communists attempted to withstand the government troops with machine guns, but were overpowered. The communist leader, however, was shot down by the single machine gun in the hands of the peasants. Several of the communist leaders were killed. The communists then looted the houses.

The executive council of the soviet in Munich has ordered that there are plenty of good homes belonging to well-to-do people and that those who wish may simply appropriate them. The newspapers may no longer appear, since they are considered unnecessary. Whoever wishes information is invited to visit the communists' gathering in Wittelsbach garden. All the higher institutions of learning in Bavaria have been closed and students are at liberty to enlist in the "people's militia."

The communists are said to be arming several thousand Russian war prisoners, released by order of the soviet government.

BERLIN, April 19.—(By the Associated Press.)—The general strike in Berlin was ended today after negotiations lasting 48 hours between representatives of the strikers and employers and the minister of labor. The settlement is tantamount to recognition of the demand of the strikers that they be given a voice in determining conditions of learning, in salaries and promotions of employees in all work except in executive and directorate positions.

Victor Relations Involved. A law giving force to the new regulation will be incorporated shortly in the government's socialization legislation. It will give the workers the joint right to determine the relations between the employer and employee and will protect the employee to the extent that his dismissal or promotion will be passed upon by his fellow workers. The workers also must be consulted when new help is to be engaged.

The preliminary settlement now awaits only formal confirmation by the facts and officers' councils, who are expected to ratify it Sunday. The factories and banks, it is expected, will resume full operation Tuesday.

NEW YORK, April 21.—German troops have attacked the American Red Cross mission at Kovno, Lithuania, according to a cablegram received here today by the Lithuanian national council's Paris representative.

Lithuanian Defender Killed. The message gave neither the date nor result of the attack. A Lithuanian soldier was killed in defending the Americans, it was said.

The cablegram read: "The American Red Cross mission at Kovno, Lithuania, has been attacked by German soldiers. While defending the Americans one Lithuanian soldier was killed. This aroused the greatest indignation in Kovno and the funeral of the hero developed into a great demonstration against the Germans. No advices of an attack on the mission have been received by Red Cross authorities, it was said tonight. Officials said that the Kovno unit was a

branch of the American Red Cross mission to Poland. Its personnel is unknown here, it was said, as the work in Poland and Lithuania was organized in Paris.

VIENNA, April 19.—(By the Associated Press.)—The communist government in Budapest, according to reports received here, is making desperate efforts to coerce the Ukrainian government into giving free passage for Hungarian agents to and from Moscow by way of Ukraine. To this end the Hungarian government is closing to the Ukrainians the passageway through Northern Hungary to Vienna by way of Budapest until the Ukrainian government yields to its demand.

Premier Holubowicz of West Ukraine, it is believed, will make arrangements with the Czech-Slovak government for the passage of his agents through Slovakia to Vienna. He is reluctant, however, to force a break with the Hungarians, as the Ukrainians get munitions from Hungary.

BOLSHEVIK ADVANCE IN CRIMEA SLACKENS

Sebastopol Not Yet Occupied by Soviet Troops.

FIGHT IN NORTH REPORTED

Bolshevism Must Be Destroyed to Save Civilization, Says American Red Cross Worker.

PARIS, April 21.—(Havas.)—The naval port of Sebastopol, in the Crimea, has not been occupied by Russian soviet troops, according to a dispatch to the Journal des Debats dated Sunday at Salonika.

The dispatch says that fighting appears to have stopped for the time being in the southern Crimea. The bolsheviks are said to be slackening their advance in the face of the allied artillery fire.

LONDON, April 21.—Twenty-eight bolsheviks, including one officer, were captured by allied troops in the raid at Sebastopol on the Kadim front southeast of Archangel, on April 12, as official statement from the British war office today says.

Many Killed and Wounded. Many of the enemy were killed and several others, loaded with wounded, were seen moving away from the scene of the fight.

ST. LOUIS, April 21.—Declaration that the allies must support Russia or the world will lose the fruits of the war is made in a cablegram received here today from Major George W. Simmons of St. Louis, head of a special American Red Cross mission to Russia and Siberia, which has completed a 10 weeks' investigation of the country, dated April 19, sent via Harbin, Manchuria, follows:

"With the Red Cross commission, I have completed a 10 weeks' investigation penetrating far into European Russia, the last six days in eldiga.

Bolshevism Is Unrestrained. True bolshevism is unrestrained, with murder, robbery and terrorism. It endeavors to exterminate the church, education and private ownership of property. No instance of constructive action has been observed.

The new Russian provisional government, led by Kolchak, is strongly ascendant in western Siberia. Eastern Russian people are accepting mobilization, heartily determined to destroy bolshevism.

The retreating bolsheviks have pillaged hospitals, killing and deporting doctors and nurses. The Russian army is destitute of drugs, instruments or dressings, except what the Red Cross has been able to provide. The American Red Cross has obtained magnificent results and merits sympathetic support on an enlarged scale.

Support of Allies Urged. "It is inconceivable that the allied nations should treat with the irresponsible bolsheviks. The Russian army, destroyed here to save civilization, unless the allies support Russia, the world will lose the fruits of the war. With German efficiency and Russia's natural resources, Germany could soon recoup her losses and again menace the world."

LONDON, April 21.—(By the Associated Press.)—The whole of the Ukraine has been cleared of the troops of General Petura, the Russian leader, according to a Russian wireless message received here. The soviet forces have occupied Kamenez-Podolsky, about seventy miles southeast of Tarnopol, and control the region at the mouth of the Dniester river.

COURT-MARTIAL PROBE HIT (Continued From First Page.)

The officer said the fact that the committee did not call him sooner in order that he might have better prepared the case he desired to present.

"Military justice," Colonel Ansell said, "is not being best served by the method of investigation pursued by this committee, but, on the contrary, stands in a fair way to suffer at your hands."

SHASTA LIMITED WANTED

Seattle People Interview Hines as to Getting Old Run Back.

SEATTLE, Wash., April 21.—(Special.)—While no definite promise was made to restore the Shasta Limited, it was apparent that railroad administration officials here believe that the train should be operated out of Seattle if possible. The suggestion was made by railroad operating officials that the train be made to arrive in San Francisco in the morning so that travelers would not be compelled to lose a day's time.

Objection to this arrangement has been raised by southern California travelers, but Director of Traffic Chambers believes that the bulk of the travel between Seattle and California is confined to business men and that those going to southern California as tourists can better afford to lose time than can business men.

While no definite pledge was made by either Director-General Hines or Traffic Director Chambers, it was believed at the close of his conference here that the director-general is inclined to grant the request if possible.

International Situation

(By the Associated Press.)

WHEN apparently the council of four was ready to take decisive action on the Italian claims in the Adriatic, including the coast islands and Fiume, the Italian delegates, Premier Orlando and Foreign Minister Sonnino, failed to appear at Monday's session.

It was brought out that former secretaries of war have been invited to submit their views to the committee and that Senator Chamberlain, leading advocate-general to recommend recreation of the military justice system, also had been asked to make such presentation as he saw fit.

Colonel Ansell charged that the opinion of "officers out of uniform" were the only ones that could be sought with reliance, as the military machine prevented men in the service from speaking frankly either through fear of discipline or because the machine had "induced compliance with its views."

It was then expected that the question, which was the subject of discussion almost insurmountable, would be decided, but owing to the absence of the Italian delegates, discussion of the Italian claims was dropped. It is announced that the council will take no further action on the question pending information as to the future course of the Italian government.

That there is no immediate prospect that the impasse is to be breached without further argument possibly is indicated by an official announcement that the convening of the Italian parliament which was to have taken place Wednesday and before which Premier Orlando and Foreign Minister Sonnino hoped to place the facts accomplished, has been postponed for two weeks—from next Wednesday until May 8.

Germany has accepted all the conditions of the allies with respect to the Versailles conference. A delay of three days in prospect for the meeting at Versailles between the representatives of the allied and associated powers and the German delegates for the delivery to the Germans of the allied peace terms. The German delegation, Marshal Poch has been informed, cannot reach Versailles until April 25. Originally they were invited to be there April 25.

The three days' delay possibly may be beneficial up to the time of completing the draft of the lengthy peace document, which is said to approximate 100,000 words. Some doubt has been expressed that the allies would be able to give the Germans more than a summary of their peace conditions at the first meeting at Versailles owing to the length of the documents.

Talking of the German government sending merely "messengers" at Versailles to receive the peace treaty is discounted by official information received by Marshal Poch that the German delegation will consist of six high personages, headed by Count von Brockdorff-Rantzau, the foreign minister.

A new provision of the peace treaty intending to make impossible any attempt of the Germans to utilize outside forces to re-establish their military machine has been approved by the council of foreign ministers. This is a prohibition of the sending by Germany of military instructors to foreign countries.
