WASHINGTON, April 27 .- The revised covenant of the league of nations, as it will be presented at Paris tomorrow to the peace conference in plenary session was made public tonight by the state department. Its essential features already had been disclosed through an official summary issued two weeks ago.

Attached to the text, however, is the hitherto unpublished "annex" referred to in the covenant, in which are named the 31 states, including the self-governing British dominions, which are to be the original members of the league of nations, and 13 states to be invited to accede to the covenant.

The original members are all the nations which declared war on Germany, and in addition the new states of Czecho-Slovakia and Poland.

Many Nations Invited. *

Those invited to become members acceding to the covenant are the three Scandinavian countries, The Netherlands, Switzerland, Spain and Persis and the American republics of Argentina, Chile, Colombia, Paraguay, Salvador and Venezuela.
