HOW MY HEAD BUZZES!

When the head feels thick or aches, when one feels all out - of - sorts - perhaps a coated tongue - it is the signal poisons are accumulating in the system, and he cleaned out once. When the system is on what is often called "a low tone"-when toxins (poisons) cause headache, bad taste in the mouth, poor appetite, it is time to "clean house."

Auto-intoxication can be best ascribed to our own neglect or carelessness. When the organs falter or fail in the discharge of their duties, the putrefactive germs set in and generate toxins - actual poisons, which fill one's own body. It is then that the more serious consequences begin. Sleepiness after meals,

flushing of the face, extreme lassitude, biliousness, dizziness, sick headache, acidity of the stomach, heartburn, offensive breath, anemia, loss of weight and muscular power, decrease of vitality or lowering of resistance to infectious diseases, disturbance of the eye, dyspepsia,
