back to \$2.10@2.15. The advance was made so cautiously at 5c to 10c per day that some began to figure a spring advance had set in definitely, but the slump wiped out all the gain. Prices are strong at all western shipping points, with Idaho growers getting \$1.90 for Russetts and Colorado farmers getting \$1.90 for Russetts and Colorado farmers getting \$1.50. Oregon and Washington growers are holding generally, but a little stock is moving at \$1.50@1.60 cash to the growers. Carlots in Los Angeles are bringing \$2.25@ 2.35 per cwt. There are widespread rumors of large purchases of potatoes made and contemplated for export to Russis. The war trade board states positively that the recent order of approximately 100 cars for seed purposes is the only order of its kind placed or contemplated for Russis.
