

### REDUCTION IN WHEAT PRICES IS ANNOUNCED

Drop to Reach From Producer to Baker and Consumer.

### BUMPER YIELD IN PROSPECT

Wheat Director Confers With Growers, Grain Handlers, Millers, Jobbers and Bakers.

NEW YORK, May 14.—An immediate reduction in the price of wheat, reaching all down the line from the producer to the baker, is believed assured, according to a statement issued today by Julius Barnes, wheat director, following a prolonged conference yesterday between Mr. Barnes and representatives of the grain industry, including grain handlers, millers, jobbers and bakers.

The statement issued by Mr. Barnes says: "There was a general agreement that in order that all the wheat producers of the country should secure equal benefits, the various trades should be bound by contracts to see that wheat trading should be only on the guaranteed price and at a lower basis than justified with the developments of world factors as the season advanced, this lower basis should be made to reach the consumer by trade agreements with millers and manufacturing facilities, the wheat director making the readjusting basis effective by the payment of the difference as allowed under act of congress.

### Contracts Work Two Ways

"In return for protection against a fall in price, after the guaranteed price had been made for the benefit of the wheat director would require from the various trades contract obligations by which their trade practices and margins of profit would be subject to review and control by the wheat director.

"The jobbers expressed a willingness also to contract that their handling margins should not exceed the price fixed on an agreed basis, thus making immediately effective a lower retail price on flour when made by the mills on a readjusted wheat basis.

"The bakers were willing to enter into a contract by which they would refund at once on their products the lower price of flour made effective by the mills. In this way, down to the retail trade, there is thought to be an assurance that reduced price of wheat should be effective immediately all down the line.

**Big Wheat Yield Looms.**  
"No wheat will be moved in Texas in 30 days and from the present outlook in six weeks more they will commence a very large movement of new winter wheat into the market, and interior markets should not be choked by congesting blockades, the general opinion was that the grain corporation should continue the co-operative control with the railroad administration of the movement of cereals and cereal products into all the markets by the permit system of car shipments.

**Catch of Fish Continues Good.**  
ASTORIA, Or., May 14.—(Special.)—The catch of fish is continuing fairly good, especially with the gill-netters in the lower harbor and the trollers outside the harbor. The trollers are forced to run well off shore on account of the large amount of fresh water. Takes of from 300 to 600 pounds to the boat are common, and the season thus far has been much more encouraging than during the corresponding period a year ago. The fish average small.

**Wife of City Employee Gives Medicine Credit for Restoring Husband's Health.**

"I would have walked ten miles rather than let my husband be without Tanlac," said Mrs. Mabel Brown, wife of Calvin Brown, who has been a city employe for the past 15 years, and who lives at 330 Union avenue, North Portland, while in the Owl Drug Co.'s store the other day.

"Just a few days before my husband commenced taking Tanlac," continued Mrs. Brown, "he told me that unless something was done for him pretty soon that he could not possibly hold out much longer. In fact, we had given up all hope of his ever getting well again, for he had suffered for 15 years, and all the treatment he had made had never broken a particle from it. He had tried had failed to do him any good. Everything he ate disagreed with him, and would sour on his stomach, and he could not get any sleep. He would hardly get up for hours after meals. Sometimes he would just choke up from this gas, and his heart would palpitate something awful. We have known my husband to walk the floor for hours at night and just fight for breath. He suffered from severe headaches, too, and sometimes his back would hurt him so much that he could hardly stand it. He was very nervous, too, and hardly ever got a good night's sleep. Sometimes he would have such awful nervous spells that his entire body would break out in a cold perspiration.

"My husband's sister came to see him one day, and she told him about Tanlac, and advised him to commence taking it right away. He took her advice, and the very first bottle of Tanlac made a big change in his condition. By the time he had finished his second bottle he was feeling like a different man altogether, and since finishing his third bottle of Tanlac he has a fine appetite, and eats just anything he wants, and never suffers a particle from it afterwards. My husband's improvement since he began taking Tanlac is the most wonderful thing I ever witnessed in my life. Why he sleeps just like a child every night, and he gets up every morning feeling fine and eats a hearty breakfast, any gets off to work just as if he had never been sick a day in his life. His stomach seems to be in perfect condition, and he is never bothered with gas forming after meals, and he hasn't had a headache since he finished his first bottle of Tanlac. That nervousness has left him, and he never has those awful pains in his back like he did. He has gained a lot in weight, and, in fact, he says that it just feels fine all the time. It is certainly good to see him hale and hearty again, and we will praise Tanlac as long as we live.

Tanlac sold in Portland by the Owl Drug Co.—Adv.
