The second annual meeting of the Oregon Home Economics Association will be held today at the Multnomah hotel. Dean Ava B. Milam of the Oregon Agricultural college economics department will preside.  
The following programme has been announced:  
"How to Make Home Economics Function," Miss Helen Lee Davis, Oregon Agricultural college, Corvallis, Or.  
"Smith-Hughes Home Economics,"

Dr. Louise Stanley, federal board for vocational education.  
"The Washington Home Economics Association," Miss Agnes Craig, Washington state college.  
Luncheon.  
"Continuation Schools," Miss Maud Murchie, supervisor, Sacramento, Cal.  
"Opportunities for Women in Home Economics Extension," Miss Florence Ward, state relation services, Washington, D. C.  
Miss Milam has been in Portland since Tuesday evening, when she brought to the city 40 seniors of the home economics department of the state college. Today under her supervision the students will visit the A. L. Mills open air school, Glenwood and Stevens grade schools, Meler & Frank grocery department, Olds, Wortman & King crockery department, and Portland Woolen mills. On Wednesday the following places were inspected: Log Cabin bakery, stockyards and Constantine market, while yesterday the following places were visited: St. Vincent's hospital, Pacific Coast Biscuit

company, Girls' Polytechnical school and a demonstration by Henry Thiele, chef of the Benson hotel.  
The girls were guests at the home of Mr. and Mrs. O. M. Clark on Wednesday evening. Mr. Clark was in charge of the Oregon building at the San Francisco fair at which Oregon Agricultural college seniors managed the team. During the evening music was furnished by Dr. Emil Enna. Other guests present were: Mr. and Mrs. John F. Logan, who with Mr. and Mrs. Clark were the hosts at a theater party given the college girls last evening.

Mysterious Call Stops Service.  
ABERDEEN Wash., May 16.—A mysterious telephone message, "For God's sake shut off the current," to the Grays Harbor Railway & Light company this morning, caused the suspension of electric light and power service throughout the city. The company did not dare to turn on the current again for an hour, or until after all linemen working throughout the city had reported. The origin of the call or the cause for it is still undetermined.

## C. H. HAMILTON PROMOTED

STANDARD OIL SALES MANAGER TO GO SOUTH.

Appointment to Charge of Los Angeles District Announced—J. E. Balsey Successor.

C. H. Hamilton, district sales manager for the Standard Oil company, has been promoted from the Portland territory to that of Los Angeles, the company's biggest western field. Mr. Hamilton will be succeeded here by J. E. Balsey, formerly assistant sales manager in Portland, and more recently of Phoenix, Ariz.  
Mr. Hamilton, who leaves tomorrow night with his family for Los Angeles, is one of the most popular officials in

Portland territory—comprising Oregon and a part of Washington—has ever had. Employees of the district presented their departing chief with a handsome watch.  
For 19 years Mr. Hamilton has been associated with Standard Oil, working up to his present position from the ranks. He was in Detroit for five years, then a salesman in Portland for three years, next assistant manager at Seattle for eight years, and from there returned to Portland.  
The new Los Angeles executive is an enthusiastic golfer and a member of the Waverley club. He holds memberships in Multnomah club, Automobile club and the Chamber of Commerce.  
J. E. Balsey, new Portland manager, is no stranger to the city. He has been with the company 14 years.  
Own-Your-Home Campaign Speeds.  
Paul C. Murphy, president of the Portland Realty board, returned yesterday from San Francisco, where he attended a conference as representative

of the United States housing corporation. Mr. Murphy has been spreading the gospel of the "Own your home" campaign and reports that Oakland is in the midst of a movement in which the Portland plan is being vigorously pushed. Efforts are being made in the bay cities to overcome the shortage of houses that exists and which is experienced in all cities of the Pacific coast.
