is not in this class, but it deals in a useless and expensive article. It is just now beginning to promote it among the very young. It has organ-ized itself into one of the most pow-erful trusts this nation ever saw. In a time of patriotic thanksgiving for the heroic self-sacrifice of American men and women it impudently adver-tises on billboards and magazine pages, 'Cigarettes won the war." PATH TO HAPPINESS

"If the tobacco trust continues to put the nonse around its own neck and it is pulled by the American people, there will be an autopsy over it some day. 'Whom the gods would destroy they first make mad." "The board of temperance has an auti-tobacco programme. Measwhile

anti-tobacco programme. Meanwhile it will publish millions of educational leafflets on the nicotine poison and the doped clgarettes, hoping to prevent boys from taking up the practice or parents from allowing their children to fall victims to the clgarette evil, and it will set forth appalling facts on the matter from the battle front, how young men, trained at great expense by the government to fight its battles, Morrison and Yambili

had to be led out of the fighting ranks to have eigarettes stuffed in their mouths before they could stand up and hold a gun. The attempt to call this shaking 'ahell-shocked' is amusing to everyone who knows.

"It was the taking away of the nico-tine after the system had become ac-customed thereto. If anyone wants to prove this for himself, a demonstration is easy. If he is a cigarette victim made by the government, the Y. M. C. Evangelist Dickson Explains Prophecy Pointing Out Seven Periods of Church History, and Proves That We Are Now Living Under Sixth Seal Just Prior to Christ's Second Coming.

"The sixth scal (verses 12-17) becies of the seven churches, and the

side telling of the great Lisbon earth-quake, which took place Nov. 1, 1755 seven trumpets, divides this era into seven periods of time. Thus, the first seven periods of time. Thus, the first seal (Rev. 6:1, 2) deals with the tri-umphs of the Christian church during the first century of the Christian era, during the days of the apostles of Christ. The color of the horse repre-sents the purity of the church in that period as manifested in both its life estroying considerably over a million ives, pointed out the same signs which Jesus spoke of In his great prophecy (Matt, 24) in which He forefeld of His second coming. The moon was turned to the color of blood the evening of the same day, and the stars fell in a phenomenal meteoric shower Nov. 13, 1833. These

"After the days of the apostles divis-ions crept into the church and the things which Faul so vividly pointed out (Acts 20:29 20) (II Thess, 2:7) began to be seen in the church, False doc-trines began to be taught. The truth of God was nervested changed into a lie can all be found mentioned in any good encyclopedia. and the faith of the Christians was cor-rupted. Unholy ambitions were being installed into the minds of the leaders in this generation (Matt. 24:34). "The seventh seal (Rev. 8:1) is opened by the second coming of Christ of the church and they began to seek for positions of power and influence, thus causing strife and turmoil and even bloodshed in the church. Factions when the silence will provail in heaven aused by the departure of all the ngels (Matt. 24:31) with Christ, which act tells us that chapter seven must be aused. arose behind each ambilious bishop and fought out his claims. Thus the horse olfilled very soon. This chapter tells of time very soon. This chapter tens of the scaling of the 144,000 saints during time when the winds of war (Jer. 5.52) and strife are held back by nighty angels. A time of comparative scale when the people of God are called for eternity. The word scal and seen under this seal is red, and a great sword is given its rider. This second (Rev. 6:3, 4) Seal covers the time be-tween 100 A. D. to about 523 A. D.

"A black horse is seen under the third seal (Rev. 6.5, 6) which is just op-posite in color to the white horse, denoting the complete corruption into which the church had fallen just prior to the opening up of the dark age period. Commercial-ism is denoted by the balances ign are used interchangeably in the Rible (Gen. 17:11; Rom. 4:11). Today a sal is found in connection with every law. A law must contain a seal. The seal of God is found in connection with his law (1sa, 8:16, 17) and contains the ism is denoted by the balances and the words which were heard, showing the depths to which the pure tree required features of every seal; amely, the name of the lawnaker, his uthority, or official title, and the ter-itory over which he rules. Leoking over the law of God we find that the church of Christ had fallen. It was dur-ing this period that a complete union of church and state was perfected which resulted in the horrors of the ily part of that document which tains these requisites of the scal is the fourth or Sabbath commandment (Ex. 20:11). The Sabbath is the seal of God (Ex. 31:13; Eze, 20:12). Thus we find that those who receive the scal of God in this last great work of the gospel ersecutions of the saints of God, and in bringing the martyr's death to mil-lions of men and women. The first day of the week, the great festival day of sun-worshipers, Sunday, was exilted to take the place of the Sabbath of Jehovah, the seventh-day.
