tional Honor.

A scientific service
in lubrication

The Standard Oil Company
Board of Lubrication Engineers
study the lubrication needs of each
make of automobile and prescribe
Correct Lubrication.

By exhaustive study and actual tests
these experts have determined the
correct consistency of Zerolene for
your make of automobile. Their ad-
vice and recommendations are made
available for you in the Zerolene Cor-
rect Lubrication Charts. There is a
separate chart for each make of car.

Zerolene is correctly refined
from selected California crude oil. It keeps
its lubricating body at cylinder heat,
holds compression, gives perfect pro-
tection to the moving parts and
decreases wear. It is the product of
the combined resources, experience
and equipment of the Standard Oil
Company.

Get a Correct Lubrication Chart for
your car. At your dealer's or our
nearest station.
