THE MORNING OREGONIAN, TUESDAY, MAY 20, 1919.

Talk with those same men about Ar-menia's political future, and apparently with no sense of inconsistency they de-clare that there are over three million, possibly over four million Armenians in the world, at least two and a half million of whom would be citizeus and million of whom would be citizens and residents of the new Armenian re-public!

Capacity of People for Self-Government Not Yet Proved-Spirit of who are campaigning for a new na-

The answer is simple. Present evi-dence, Dr. James L. Barton, the head of the American committee for relief in the near east, tells me that less than a million Armenians perished in the

the near east, tells me that less than a million Armenians perished in the atrocities. People once thought dead have come out of hiding. Second, there were probably in the world more Ar-menians, who are a very prolific race, than the authorities reported. Third, the movement for independence is largely the work of Armenians in A merica, France, England, Russia, Constantinople and other places where the race has been safe and free and prosperous, although it also truly rep-resents the desire of a majority of the Armenians everywhere. Whether the wealthy and successful Armenians of Constantinople, Tiflis, Cairo, Smyrna and elsewhere, who have relief of their suffering compatriots, would ever move to the new Armenia is more than questionable.

is more than questionable.

Armenians Have Failings.

principle of eriental bargaining when lease is expected.
Quickly I heard the only objection to the one mandatory plan for Turkey that has thus far reached me. It was singularly naive, and revelatory of the sort of spirit that has made Turkey so long a seething cauldron of antipa-thics. Nevertheless, its source may not be lost sight of — Armenians who have suffered, as a people, matchleas hor-rors at the hands of the Turks, and who have throughout all cherished the dream of a nation of their own, free from Turkish influence.
Let me quote the-substance of the leader's remarks:
"If one nation is made mandatory for sil Turkey and the claims of Armenia me made probationary, to be settled finally at the end of five or ten years, don't you see what will happen? If safety and quiet and prosperity come to the whole Ottoman empire, then the Armenians Scattered over it will not

to the whole Ottoman empire, then the Armenians scattered over it will not immigrate to Armenia, and at the end of five years we shall not have suffi-cient population to justify our inde-pendent existence. Indeed, the very un-trial period would deter immigration. We are not seeking the welfare of the and physical support of every friend." While personally convinced that Ar-menia's claims should be recognized, there is no escaping the fact that the foreigners in the east—American, Brit-ish and others do not like the Arme-We are not seeking the welfare of the Turk or other peoples; we want our own nation to be established success-

PROTECTORATE IS NEEDED

Revenge Is Pronounced.

BY WILLIAM T. ELLIS

(Copyright by the New York Herald Com-pany, Published by Arrangement.)

CONSTANTINOPLE, May 18 .- (Special.)-The spirit that has made for disunion, dissatisfaction and disintegra-

tion in the Ottoman empire cropped out at a tea given the Herald and Orego-

nian correspondent at the new Armenian club of Constantinople-for in the old days the Armenians were not per-

mitted to have a club or other organization of their own, except their

church. A group or English-speaking Armenians were discussing with me the whole question of Armenia's and

Turkey's future-and they were guite candid in admitting that the territorial claims of Armenia are entirely too great, much being asked for on the principle of oriental bargaining when

ess is expected

People Have Suffered Long.

People Have Suffered Long. In truth, the atmosphere of that gathering seemed filled with the idea that the worse the fate of the Turk the better pleased they would be. Which is not unnatural, even though it does not make for world peace. Forebodings and suspicion come easily to folk who have been as long under the harrow as the Armenians have been. The loyalty of Armenians to their national aspira-tions is not to be extinguished by the mere removal of physical danger where nere removal of physical danger where hey now reside, One Armenian captain in the British

army expressed the extreme feeling toward Turkey with brutal frankness when he said: "Let the Turks be coolies and laborers, hewers of wood and draw-ers of water for the Armenians! That is the lot into which they will sink. They are not fit to govern themselves or anybody else.

Nowhere else in the world is there such a spirit of bitterness between dif-ferent elements of the population as may be found in the Ottoman empire Each radical group is not only for it-seef, built also against others. Even the smallest would be willing to wreck the swhole structure to make a bonitire to elebrate its own triumph. Nobody talks in terms of good will and comity and neighborliness and common welfare —except the Turks, and they are ani-matied, at any rate in part, by a desired till meeting dangers of the American navy are matied, at any rate in part, by a desired DESTROYERS SUFFER IN STORM mated, at any rate in part, by a desire still meeting dangers of the sea as to preserve at least the outward sem-blance of their nation, even though the real power be taken from them. The Turk is perfectly willing to have a account of the death of two officers and great power come in and clean up the mess he has made of things, but he will fight to extermination against being put under the little people whom once he miled. The provide the transformer of the transformer of the be miled.

REAL TEXT MUST BE SEEN public! One turns to the Statesmen's Year Book of 1911 and learns that there were then somewhat over 1,000,000 Ar-menians in Turkey; the Encyclopedia Britannica is in substantial agreement. If more than a million Armenians have been slain, whence come these men who are compared for a new pa-Dangerous to Peace of World and American Rights and Interests Is Declaration.

> WASHINGTON, May 19. -- Senator odge, republican leader and chairman

LODGE FINDS LEAGUE

STILL UNACCEPTABLE

G. O. P. Leader Says Senate

Suggestions Ignored.

so far as I can judge, and I nave had conversations with many senators, including members of both partles, I am satisfied that a majority of the senate feel very strongly that the league as now presented must receive amendment; that in its present form, without any chapter it is unaccontable amendment: that in its present form, without any change, it is unacceptable and would not be accepted. "To say that the amendments put forward in the senate and those pro-posed and formulated by Mr. Root on the suggestion of the state department have been met is without any founda-tion. Not one of the suggestions of the senate, not one of the amendments prosenate, not one of the amendments pro-posed by Mr. Root has been carried out. Some have been entirely rejected, and

where there is an appearance of their having been adopted examination shows that the new form is distinctly worse than the old and more dangerous to the peace of the world and to American rights and interests.

Text of Treaty Not Received.

"It is impossible now to enter upon detailed analysis because, although we may suppose that the draft of the league sent over in the press dispatches is fairly accurate, we have no knowl-edge of the treaty with Germany or of its relations to the league. The summary which was sent out was not only incomplete, but vague and inaccurate and it is impossible to gather from it what the terms imposed upon Germany

there is no escaping the fact that the foreigners in the east—American, Brit-ish and others do not like the Arme-nians. They freely admit that his fail-ings are those of a people who have been long under subjection to the Turk-ish yoke. His social and political en-sirable qualities. But they express the fear that the Armenians will never successfully govern themselves, much less other people. They lack mutual loyalty and self-subordination and that sort of sagacity which is called "com-mon sense." Europeans in the levant prefer the Turk to the Armenian. Now we shall see. The Turk has been on trial und has been a failure as a government. The Armenian is about to be put on trial, though sadly hand-icapped. He should have the kindly judgment and frieadly co-operation of in many respects really are. "There is no desire anywhere to delay the treaty of peace with Germany one moment beyond the time necessary to inderstand it, but we must have it be-ore us in the official form. As to the eague of nations, the American people must know just what they are to be asked to agree to. By that league they are invited to take the gravest step ever taken by the United States, and no organized clamor, no manufactured pressure of any kind will swerve the senate from its high duty of laying before the American people exactly what the league involves and what it ent and friendly co-operation of means to the United States and to the future peace of the world."

Ill Health and Disease.

Advanced medical authorities assert that auto-intoxication is the founda-tion of most of the ills and diseases to which the human flesh is heir. This condition is nothing more nor less than the slow self-poisoning of the vital organs produced by the excessive mental and physical strain which we are forced to endure, which renders the organs lame and inactive, and permits toxins-actual poisons-to be generated within one's own body.

Usually the trouble starts in the in-testines; sometimes it starts in the stomach, liver or kidneys, but in any case the blame lies with the faulty method of living, and may be traced to nethod of living, and may be traced to over-eating, excessive nervous strain, lack of exercise or other causes. At any rate it is the more important or-gans that suffer the final damage and when they falter or fail in their duties the body fills up with acids and poisons and the victim often vields to their and the victim often yields to their baneful influences. Bright's disease heart trouble, high blood pressure, ca tarrhal affections and other trouble are frequently the result of self-poison troubles or auto-intoxication

A tired, draggy feeling of the body, a sluggish mind and dull memory, intense nervousness, headache, stomach and bowel troubles, poor circulation, im-perfect digestion, constipation and despondency are common symptoms of auto-intoxication; and nine out of every ten of the American people are likely to be so affected.

Tanlac, the powerful reconstructive and systemic tonic, was designed es-pecially to overcome these very troubles. There is not a single portion of the body that is not benefited by the helpful work of this celebrated prepa-ration, which begins its action by stimulating the digestive and assimilative organs, thereby enriching the blood and envigorating the entire system. Com-posed of the most beneficial roots and posed of the most beneficial roots and herbs known to science, it enables the stomach to thoroughly digest the food, thereby permitting the assimilable products to be converted into blood, bone and muscle. It overcomes that great exciting cause of disease weak-ness. It renders the body vigorous and elastic, it keeps the mind clear and energetic, and throws off the symptoms of nervousness and indigestion. It builds up the constitution weakened by disease or mental and physical over-work, quickens convalescence of the invalid and is a sure and unfailing source of comfort to those who are suffering from the effects of nervousness and

overwork. That Tanlac does these very things is proven by the fact that it now has the largest cale of any topic on the American market. Millions have used it with the most astonishing and grati-fying results. Tanlac is sold in Portland by the
