ROGRESSIVES GAIN

Senate Committee Assignments to Be Discussed, So Solid Front May Be Secured.

WASHINGTON, May 26.—Republican contact committee assignments, although approved at a republican conference to day over the opposition of the progressive group, will come up for discussion at a public party conference tomorrow. The call was issued by Senator Lodge at the requiest of progressive senators, who said that, given an opportunity to express publicly their opposition to the finance and apprepriation committees, respectively, they would not carry their opposition to the floor of the senate.

Senator Borah of Idaha said the real carry their opposition to the floor of the senate.

Senator Borah of idano said the pro-gressives would co-operate to prevent democratic control of the senate.

"We have not now, and have never had, any intention of leaving the con-trol of the senate in the hands of the opposition political pasty," said Senator Borah. "We are simply in the position of differing from some of our col-leagues on an important public ques-tion, and desire to consistently urge our views. It is in no sense a personal

EFFORT TO DESTROY PUMPING the sea. PLANT AT BONANZA MADE.

Person Who Set Off Charge Uses Poor Judgment, So Damage Is

Easy to Repair.

KLAMATH FALLS. Or., May 26.—
(Special.)—An attemupt to blow up the irrigation pumping plant near the Lost river bridge at Bonanza near midnight. Saturday was frustrated by the fact that the perpetrator placed the explosive in the frong place, so that the actual damage done was slight. The actual damage done was slight. The roof of the building over the pump and motor was bloyn partially off, the main shoft somewhat sprung and a few minor injuries caused to the motor and pump.

Then it was that we reached the fateful decision to play for safety. We changed our course and began flying diagonally across the main shipping route for about two and a half hours, when no our great relief we sighted a Danish steamer.

The damage can be easily repaired

The person who planned the outrage was clever enough to wear sacks on his feet, so that it would be very difficult to track him. Had the explosive been placed either under the pump or under the motor, the attempt would have resulted far more seriously, but it is believed that the perpertrator grew nervous at the last minute and was in too much of a hurry to do a good job. The pump-ing plant on which the attempt was made was installed last year,

HAWKER TELLS STORY

RISE IS FOUND DIFFICULT

Clogging of Pipe Leads to Fateful Decision to Play for Safety. Tramp Comes to Rescue.

LONDON, May 26.—The Daily Mail to-day prints a dispatch from Thurso. Scotland, giving the simple narrative of Harry G. Hawker regarding the unsuccessful attempt to cross the At-lantic made by himself and Lieutenant-Commander Mackenzie Grieve.

"We had very difficult ground to rise from on the other side," said Hawker. "To rise at all we had to run diagonally across the course. Once we got away we climbed well, but in about ten minutes we passed from a firm, clear weather into New Foundland fog banks. We are well as the course of the c banks. We got well over these, how-ever, and of course at once lost sight of

LONDON, May 26.—An official recep-tion will be given Harry G. Hawker and Lleutenant-Commander Grieve, the daring trans-Atlantic aviators who had been given up as lost, when they arrive in London tomorrow from Scotland. The reception will take place at the Marylebone station, according to plans arranged today.

Big Crowds Are Expected. The police have made extensive arrangements to handle the enormous

crowds which are expected at the sta-tion to welcome the aviators. The re-ception will be brief, as Hawker is expected to go immediately to his home with Mrs. Hawker, who will be at the station. The parents of Lieutenant-Commander Grieve will meet him.

Twelve years ago Mr. Callan was employed on the dock at Arossas, Scot-land, where the Mary docked frequently on her ore and coal carrying vovages, and was a member of the crane crew that relieved her of her cargoes. "She's an old boat," said Mr. Callan yesterday, "and a little one of about 1800 tons, if it is the same Mary I used to know. She used to ply from Maine and Norway to the British Isles, carrying ore and coal cargoes. She carried nothing of the wireless equipment now considered so essential to all vessels."

RAILROAD BUILDER LOCATES IN KLAMATH FALLS.

Summer to See Headquarters Established and Construction Work Hurried Forward.

KLAMATH FALLS, Or., May 28.—
(Special.) — Expressing himself as greatly pleased at the hearty way in which the people of this city had reaffirmed their faith in him and in the future of their own country by their votes at the city election Wednesday, Robert E. Strahorn has arrived here with Mrs. Strahorn, prepared to remain for the summer months, at least. Mr. Strahorn was accompanied by Theodore Bell, F. Loomis and E. A. Proctor of San Francisco and E. G. Goss of Scattle. These men went with him on a trip of inspection over the ilm on a trip of inspection over the

"How can Great Britain ask us to permit the ignorant and superstitious hordes of India, incapable of self-gov-ernment or self-defense, cast a vote equal to that of the United States?"

Future Dangers Seen. The rate of illiteracy among the so-called colored nations in the league, Mr Reed declared, averages about 85 per cent, while in the "joke nation" of Liberia, it was said to be as high as 98 per cent. "I want to see which rock he is standing on," said Senator Hitchcock. "Oh, I stand on a rock solid enough
