

COAST SHRINERS GO ON BIG PILGRIMAGE

Winning of Imperial Council for Portland Chief Aim.

CITY ASKS 1920 SESSION

"Al Kader Special" Will Carry 15 Temples to Indianapolis to Fall for Success.

Bound for Indianapolis and the session of the imperial council, 80 members of Al Kader temple of the Mystic Shrine left Portland yesterday morning by special train. They will travel over the Northern Pacific, the Burlington and the Big Four, the time of arrival at destination being fixed for next Monday morning. The train from Portland was made up of an observation compartment car and four Pullman sleepers.

Of course, no excursion of Shriners would be complete without a baggage car. But this year its most potential assets were a few crates of loganberry juice and strawberries. The juice is to be used in the promotion of good fellowship at Indianapolis, and the berries were sent down by the Shriners of Hood River to add class to the table d'hôte meals that Uncle Sam allows his passengers these days.

Party Notable One.

Potentate W. J. Hoffmann was at the head of the Al Kader band of nobles, and was supported by Representative George W. Stapleton, and William Davis. George L. Baker is already in the east, checking up with some of the "big guns" of the desert on where Portland will get the votes which will send the 1920 session of the imperial council to the Rose City. Al Kader's famous Arab Patrol and band were with them, as were a number of ladies. The train will be run through to Indianapolis as "The Al Kader Special." Yesterday stops were made at Tacoma and Seattle where the number of passengers was swelled to approximately 150. Today it will pull up eastern Washington and Idaho Shriners at Spokane. And tomorrow at Helena the Montana fellows will throw their grips aboard. Saturday travelers stop at Fargo for a great ceremonial, and from there east four other temples will be aboard the train.

Campaign for City On.

The central and big expedition is to "hit the Pote in 'Pote-land' next year. Four years ago the campaign was started.

In 1915 thousands of Shriners were entertained here as they journeyed to or from Seattle, where the imperial council sat that year. Visitors put the idea into the heads of local men. Frequently the visitor would say: "Why don't you ask for the session at Portland?" That was impressed with the hospitality of the city and with her facilities for entertaining a large crowd.

At a following meeting of the Portland temple the suggestion was made by Mr. Hoffmann, and it met a cordial reception. In promoting the plan the same representatives have been kept in the imperial council for four years and as they journeyed east each year they dropped the word that Portland would ask for the session in 1920.

Three months ago a committee was appointed with Judge Stapleton as chairman and Mark Woodruff as secretary. Each of the 53 representatives of the temple, with Stapleton and Woodruff, have put on an aggressive campaign. They have secured the cooperation of the imperial council has been reached by telegrams, letters, circulars and advertising matter showing the summer advantages of Portland and the northwest.

Officials Join in Plea.

Governor Olcott, Mayor Baker, President Corbett of the Chamber of Commerce, the Northwest Tourist association and officials and shrines of Washington, British Columbia, Idaho, Nevada, Montana, Utah and California joined in bringing pressure for the acceptance of the Portland invitation. It is certain that numerous representatives have been in the city for the land cause by reason of the manner in which the campaign appealed to them. Yesterday Potentate Hoffmann carried a letter which asked for the session of 1920 to be held in Portland. He represented 43 of the 48 states, and a vast majority of the votes that will be cast on the question at Indianapolis one week from tomorrow.

The finale of the campaign will be reached when Portland begins shooting page advertisements in the Indianapolis newspapers. Five pages of such matter were carried east. They are paid for by the hotel men of Portland, the Chamber of Commerce, the Northwest Tourist association and Al Kader temple.

New Orleans Is Rival.

New Orleans is Portland's principal competitor. The nobles in the south have made a great campaign, too, but the returns show that they are doomed to lose to Portland unless the "nobles" jump into the fight against Portland.

There is an unwritten law of Shrinerdom that the imperial potentate can send the session wherever he wishes. W. Presland Kendrick of Philadelphia will be in the office and he has promised to keep his hands off the fight.

"If he does Portland wins," said Mark Woodruff, who is gathering up loose ends of the campaign. "Portland Shriners have expended about \$20,000 in the campaign. There has not been a thing left undone. Potentate Hoffmann and I have worked day and night and have had the counsel and advice of dozens of nobles. The plan is solid and every man will be at Indianapolis to make our fight."

JAPANESE ARE FRIENDS

SAN FRANCISCO BUSINESS MEN MAKE TOUR OF NIPPON.

Americans Declare Cordial Attitude of Orientals Impressed Them Tremendously.

TOKIO, May 31.—(Correspondence of the Associated Press.)—The development of mutual cordial relations between business men of Japan and of the United States will be the means of preventing the occurrence of serious misunderstandings between the two countries, in the opinion of Robert Newton Lynch and Wallace W. Alexander, representatives of the San Francisco Chamber of Commerce, who have just completed an extensive tour of Japan. Speaking of the results of the trip, Mr. Lynch said: "We have had an opportunity to see

much of the business men of the most prominent centers of Japan. We were the official guests of the Chambers of Commerce of Nagoya, Kyoto, Kobe and Osaka and conferred with the officers and members thereof. We have arranged for the closest co-operation between these organizations and the Chamber of Commerce of San Francisco.

"These and other representative citizens showed the most cordial and sincere interest in the establishing of cordial relations with the United States and the great necessity of the commercial interests taking the lead in the cooperation and building up a strong commerce so that a complete and final stop shall be put to the malicious, irresponsible and prejudiced policies of jingo newspapers and politicians who constantly seek to magnify trivial differences against the great mutual interests which now dominate the commerce of the Pacific.

"We have been tremendously impressed with the friendly and cordial attitude and the frank discussion of the mutual problems, which illustrates how thoroughly the business men of both countries understand each other and recognize the big opportunities for a speedy, peaceful development of great trade relations. Everyone in the great industrial centers which we have visited is aware of the great expanding market which the United States affords the Japanese manufacturers."

LENINE'S EFFORT FTILE

ALLIED INTERESTS REFUSE TO BE ENTICED.

Promises of Big Concessions From Bolsheviks in Return for Favors Fall of Purpose.

By ARNO DOSCH-FLEUROV. (Copyright by the New York World. Published by arrangement.) PARIS, June 3.—(Special Cable.)—Efforts by Lenin to induce capitalists of the allied governments to force their governments to make terms with him, in the hope of getting big concessions for the capitalists from the bolsheviks, are featured in an interview with an unnamed Russian in the Matin. The Russian accuses capitalist interests among the allies with having delayed an allied offensive against Petrograd, because the capitalists might profit by the delay.

"Certain interests of the allied countries," he said, "are now supporting the bolsheviks in Russia by obtaining gigantic concessions, out of which enormous profits are to be made. Perhaps this explains the influence which has been able suddenly to arrest almost every serious attack against the bolsheviks."

Investigation shows that both the Russian quoted and the Matin are wrong in assuming that the allied governments refused to be enticed. It is known by other correspondents here that allied governments are in fact making various concessions in Russia that are opposed to bolshevism.

MARKETING BODY IS URGED

LEAGUE OF NATIONS LAUDED BY WASHINGTON GRANGE HEAD.

Master Says Fair Prices Will Solve All Production Difficulties. 100 in Attendance.

PORT ANGELES, Wash., June 3.—Recommendation that steps be taken to establish a central marketing organization to direct the work of securing better marketing conditions for the United States, was made by William Bouck, master, at the opening sessions here today of the Washington State Grange. Approximately 100 grangers are in attendance.

Mr. Bouck in his annual address spoke in behalf of the league of nations, among reconstruction problems. He said, one of the greatest from the farmers' standpoint was marketing conditions. Guaranteed a fair profit, he said, the farmer will overcome all production difficulties. He urged national investigation and aid, through the farmers' national council and other state farmers' and consumers' organizations. He believed the time ripe for a national marketing organization.

GRAND MOUND GIVEN STATE

Park Site Near Centralia Deeded to Washington by Owner.

CENTRALIA, Wash., June 3.—(Special.)—Twenty acres of land at Grand Mound, including the famous "mound," was yesterday deeded to the state by John R. James, a pioneer settler of southwest Washington and son of Samuel James, the first man to settle on Grand Mound. The deed is the work of the James estate, numbering approximately 80, will give money for the beautification of the place, which is now a public park.

Samuel James arrived at Grand Mound in 1857 after crossing the plains with an ox team. Smallpox was raging among the Indians at that time and by healing scores of cases Mr. James established a friendship with the natives that continued through the years. It was his wish before he died that the tract be given to the state.

'COFFEE-AND' IS GOING UP

Failure of Brazilian Crop Given as Reason for Price Jump.

SAN FRANCISCO, June 3.—(Special.)—"Coffee-and" is going up in price. Twenty cents for coffee and hot cakes are the latest prices in stores for the oppressed consumer of the national brew. Among the various classes of restaurants in San Francisco there are a few old curio shops where "coffee-and" is still 10 cents, several more where it is dispensed at 12 cents, but in most places it calls for 15 cents. It is said there really is a shortage of coffee, due to the failure of the Brazilian crop. According to the local restaurant men's organization, who no definite action has been taken, a general rise in prices is in prospect on or about the first of July.

Water Application Filing.

SALEM, Or., June 3.—(Special.)—The Klamath drainage district is the first drainage corporation in the state to file with the state engineer an application for water irrigation purposes. Its application for the appropriation of water from the Klamath river was filed today. It proposes to construct an irrigation system for 20,648 acres at an estimated cost of \$205,000.

BRITAIN WOULD EASE TERMS FOR GERMANS

Some Concessions Held Possible and Advisable.

CABINET MEETS IN PARIS

American Proposal for Removal of Food Control Throughout World Is Considered Hazardous.

By JAMES M. TUOHY. (Copyright by the New York World. Published by arrangement.) PARIS, June 3.—(Special Cable.)—At a meeting of the British cabinet, held here yesterday, the British industrial and economic situation and modifications of the German treaty were considered in a session of six hours. A memorandum from the American delegation advising the removal of food control throughout the world also was discussed. This proposition was taken back to London, where it will be examined by the British food experts.

In the opinion of officials the measure is regarded as a hazardous experiment. Investigation will be chiefly directed to ascertaining the probable effect of such action on food prices. Concerning modifications of the treaty, it is understood that the cabinet was fairly unanimous in the view that some concessions are desirable in the interest of the future practicality of the instrument. Silesia still remains the crux, and it seems possible that the British may favor yielding something in this respect as a means of averting economic exhaustion by the total loss of German's economic rights in this region. It is understood that the American delegation has not declared its attitude, but the difficulty which faces the president, to mitigate the situation for Germany while satisfying Poland, is recognized and appreciated.

Vital Decision Pending.

It is said that the big four have not yet actually begun discussion of the allied counter proposals. Different bodies of experts are engaged in preparing reports on the matter. All sides feel that the present week will involve decisions absolutely vital to the entire work of the conference and the future peace of the world.

Norway has declared itself with Switzerland in refusing to join in the blockade of Germany, in the event of a rupture in negotiations. The clause in the Austrian treaty placing religious and political minorities under the protection of the league of nations is regarded by many members of the conference as a possibility of being secured for Ireland a hearing by the league. President Wilson has not yet replied to the Walsh-Dunne letter, but perhaps something may be heard from him along these lines before the conclusion of the conference.

Two Commissions Proposed.

Belgium has proposed the appointment by the conference of two mixed commissions, each to contain Dutch representatives, one to deal with economic matters and the other to dispose of the points already in controversy. Thanks to Lord Milner's knowledge of the subject and his open-minded approach to the examination of the Belgian case, negotiations over German East Africa are in a fair way to settlement. At the outset this affair seemed not only difficult of adjustment but it threatened strain of Anglo-Belgian relations.

League Attack Is Probed

CHICAGO, June 3.—Copies of circulars said to have been issued by the German-American "Burgerbund," or citizens' society, urging the members to protest to their senators and congressmen against the league of nations have been sent to the chief of the bureau of investigation of the department of justice by the local bureau.

Logger Is Paralyzed.

SALEM, Or., June 3.—(Special.)—Henry Lake, a logger of Saginaw, Or., was brought to a local hospital last night with a broken back as a result of a fall in a logging camp. Fellow workmen were compelled to carry him over a rough mountain trail for several miles. His injury caused complete paralysis of his limbs.

OREGON MAY BE SCRAPPED

FATE OF OLD BATTLESHIP NOT YET DETERMINED.

Historic Sea Fighter One of Twelve to Be Put Out of Commission.

State May Get Relic.

WASHINGTON, June 3.—Twelve dreadnaught battleships will be placed out of commission and eventually broken up for junk or used as targets under plans being worked out by the navy department.

Four of the battleships, the Oregon, Indiana, Iowa and Massachusetts, have already been relegated to the scrapheap. The remaining eight are the Kearsarge, Kentucky, Illinois, Alabama, Wisconsin, Maine, Missouri and Ohio. The 12 vessels, built between 1893 and 1901, represent a total expenditure for hulls of \$100,000,000. When placed out of commission they will release for other duty approximately 10,000 enlisted men and nearly 400 officers.

The ships long ago outlived their usefulness as combat units in a fighting fleet. Although they were built they were among the most formidable war vessels afloat.

The question of what to do with so many practically useless battleships after they have been placed out of commission is before the department. The historic Oregon has been offered to the state of Oregon to be used as the state seal for memorial purposes and probably will be accepted.

AD CLUB PLANS MEETING

JOSEPH BURKE OF NEW YORK TO ADDRESS WOMEN.

Feminine Publicity Workers Also Arrange for Entertaining Convention Visitors During Festival.

Joseph Burke, salesman-instructor for a large encyclopedia corporation of New York, will be one of the speakers who will address the business women's conference that will be held Tuesday, June 10, in the Benson hotel, under the direction of the Advertising Women's club of Portland.

JOBS URGED FOR DISABLED

More Applicants Than Positions Reported at Headquarters.

The task of finding positions for soldiers who were partially disabled while serving with the army in France now occupying attention of Captain James O. Conville in charge of the federal employment bureau in liberty temple, who reports this week that there are many more applicants than positions. This is a situation quite different than that which existed a few weeks ago, when more positions than men were on the lists.

WASHINGTON MINERS OUT

Differences Over War Bonus to Be Taken Up With Union Heads.

ELLENBURG, Wash., June 3.—Between 1100 and 1200 coal miners are on strike at the Northwestern Improvement company's mines at Cle Elum and Roslyn, near here. The men walked out when the company refused to continue what it said was a war bonus for pushing cars in the mines.

BRUCE TRIAL NEARS CLOSE

Final Witnesses Include Many Veterans From Overseas.

SEATTLE, June 3.—The defense in the case of James Bruce, charged with criminal anarchy in connection with the February general strike here, concluded its testimony today. Final witnesses were former soldiers, who related war experiences on the front lines and said they joined the Industrial Workers of the World, but were proud of having fought for the United States.

THINK A MINUTE

WHAT is your doctor's first question? Why does he suspect constipation? Because 90% of his patients are suffering from ailments caused directly or indirectly by the action of poisons formed in a sluggish intestinal tract.

These body poisons are absorbed by the blood and carried all over the body until the weakest organ, unable to withstand the poisonous contact, becomes infected and refuses to act properly. Unfortunately it is usually not until then that the doctor is consulted and asked to treat the diseased organ.

The surest way of purifying the blood and preventing the formation of these destructive body poisons is to prevent stagnation of food waste in the intestinal tract—to prevent constipation.

Constipation is not a matter to be taken lightly or neglected. Nor is it either sufficient or safe to take castor oil, pills, salts, mineral waters, etc., in order to "force" bowel action. Such action does not cure constipation, it makes constipation a habit.

Nujol is entirely different from drugs as it does not force or irritate the bowels. Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All druggists insist on Nujol. You may suffer from substitutes.

43 LEFT OUT OF 75

The great sale of high-grade slightly used pianos and player pianos is still on and with greater bargains than ever. Here's a few samples of the great savings for you:

- A genuine Decker Piano in walnut case—a strictly standard make and in guaranteed condition. Value, new, \$500. Sale Price, \$250.00.
- A genuine Kimball, in mahogany case. Cannot be sold from new—hasn't had use enough to break it in. Value, new, \$550.00. Sale Price, \$335.00.
- Look—a standard 88-note Player Piano, in mahogany finish, has been through our shop and plays fine. New price, \$550. Sale Price, \$280.00.

You will also find the following standard makes—in mahogany, walnut and oak cases—Chickering, Ludwig, Lester, Marshall & Wendell, Mendelssohn, Krell, R. S. Howard, Krocht, Hoffman, Jesse French, Sterling, A. B. Chase, Weber, Behring, Shaff Bros., Needham, Lagonda, Ferrand, and many others.

Your own terms, in reason, on any instrument. Liberty bonds accepted at full face value. Out-of-town customers write us about these wonderful values. They are fully guaranteed and carry our one-year exchange agreement, whereby you virtually have a year free trial of any instrument you purchase.
