15 Pounds on Tanlac.

"I have not only gotten complete relief from my suffering, but I have actually gained 15 pounds in weight since I commenced taking this Tanlac," said A. A. Welch, a well-known employe of the Columbia River Shipbuilding Co., and who lives at 427 Eleventh street, Portland, while in the Owl Drug Co.'s store a few days ago.

"For more than two years," he continued, "I have suffered from indigestion and stomach trouble, but since getting up from an attack of the "lu' last January this condition has been very much worse. Up to the time I began taking Tanlac my appetite was very poor and my stomach was in such terrible condition that what little I did est would cause me to suffer like everything afterward. I would have cramping pains in the pit of my stomach that would almost draw me double. Then at other times I would be all bloated up with gas and would have sharp, shooting pains all through my body. My kidneys were out of order, too, and I just had a dull, heavy paint in the small of my back from morning till night and I would sleep very little, for I would have to get up six or eight times during the night. My back would be so sore and stiff every morning that I was hardly able to get out of bed and dress myself, and I finally got so weak and run down that I was hardly able to get about.

"I had read so much about Tanlac and had heard so many people talk about the good it had done them that I decided to give it a trial myself. Well, sir, by the time I had finished my second bottle of Tanlac I was picking up right along. My appetite came back and from that day to this it just looks like I can't get enough to eat. My kidneys seem to be all right now and I am never bothered with pains in my back and I sleep the whole night through without having to get up.
