

CHAMPION ALL BUT KNOCKS OUT HEMPEL

Hundreds of Persons Attend Sunday Workouts.

DEMPSEY GOES 4 ROUNDS

Walter Monahan Receives Bloody Nose, While Soldier Stanton Is Handed Roughly.

TOLEDO, O., June 8.—(Special.)—Hundreds of persons, including women and children, who thronged the training camp today, saw the champion upset one of his sparring partners and all but knock out another.

The champion used 14-ounce gloves, so as to permit him to put more force into his blows. When the work-out was over the champion's partners were bruised and bleeding. Willard was bleeding from the mouth.

Jack Hempel was punched groggy in three rounds. Willard upset him with a right hook early in the first session. Walter Monahan received a bloody nose in two rounds he faced the champion, and the third victim, Soldier Stanton, lasted only ten seconds. He was knocked off his feet from a right-hand blow behind the ear.

Stanton, who boxed two days at Jack Dempsey's camp, made two or three passes at Willard, and the champion let fly with a right hander. Stanton staggered back, stiffened and would have tumbled to the canvas if Willard had not caught him.

Ray Apher, business manager of the champion, returned today from New York. He said he had made tentative arrangements with two heavyweights for sparring partners for Willard, but would not announce their names until they accept terms.

Dempsey resumed his training today after a five-day layoff. He displayed unusual dash and speed. He boxed four rounds, two each with Sergeant Hill Tate and the Jamaica Kid. Both connected with Dempsey frequently.

Willard charged 50 cents admission to his camp today. Dempsey continued to collect 25 cents.

FIRST TRIP TO LEWISTON DUE

Steamer Gramahona Will Leave Wednesday Night.

At 10 o'clock Wednesday night the steamer Gramahona leaves the East Washington-street terminal on her first trip to Lewiston, 388 miles. Captain A. K. Graham, of the Oregon City Transportation company, owner of the vessel, has returned from Lewiston and reports that community is co-operating to the utmost to assist the new line. At first a weekly service will be provided.

Captain Clyde Raabe, for years with the company in the upper Willamette service, and Captain Art Riggs, one of the best-known men in the upper Columbia and Snake rivers, will take the Gramahona to Lewiston and the experiences on the first journey will have much to do in fixing the permanent schedule. The Gramahona has been overhauled, additional keelsons being put in and other changes made. She is to burn coal. The steamer will shift to the terminal Monday, undergo her annual inspection Tuesday and load the last of her cargo Wednesday night. Freight will be received there from tomorrow morning until sailing time.

TACOMA FERRY PROFITABLE

Boat Tapping Olympic Peninsula Creates Good Business.

TACOMA, Wash., June 8.—(Special.)—Tacoma is profiting by having purchased the ferry City of Vancouver, which was renamed the City of Tacoma, and connects Art Riggs, one of the Olympic peninsula with the city. The ferry can handle the business on week days but is run only on Saturdays or holidays, the trade and commerce bureau of the Tacoma commercial club reports after an investigation.

Farmers and dairymen of the rich country tapped by the ferry are using it to get their products to Tacoma and in turn are spending thousands of dollars monthly. The ferry went on the run but a few months ago as a commercial venture by the government soon after it was purchased in Portland. During the war it carried shipyard workers to tidefall plants.

U. S. BOXERS PROTEST FIGHT

Number of A. E. F. Teams Object to Staging Toledo Battle.

PARIS, June 8.—Sixteen members of the American expeditionary force boxing and wrestling teams who are training for the inter-allied games have written an open letter protesting against the proposed Jack Willard-Jack Dempsey fight in Toledo, July 4. The letter says:

"As we trained for our last trip over the top at a wage of only a few francs a month per man, we protest against the proposed fight for which each of the principals will receive thousands of dollars."

It adds that Tex Rickard offered \$1000 each to soldier boxers to fight in the preliminaries to the Willard-Dempsey bout, but that the soldier boxers preferred to remain in France and represent their country in the inter-allied games against the fighting men of the allied armies.

Movements of Vessels.

PORTLAND, June 8.—Arrived at midnight, steamer City of Topeka, from San Francisco via Eureka and Coos Bay. Sailed at 8 A. M., steamer John Paulsen, from Westport for San Francisco.

ASTORIA, June 8.—Sailed at 3 A. M., steamer West Astoria, for trial trip. Sailed at 8 A. M., steamer Aurora, for Coos Bay, Eureka and San Diego. Arrived at midnight, steamer West Astoria, from Coos Bay. Sailed at 11 A. M., steamer John Paulsen, from San Francisco. Arrived at 11:30 A. M., steamer City of Topeka, from San Francisco via Eureka and Coos Bay.

SAN FRANCISCO, June 8.—Sailed at midnight, steamer City of Topeka, for Portland. Arrived at 11:30 A. M., steamer Multnomah, from Portland. Arrived at 11:30 A. M., steamer City of Topeka, from Portland.

Pacific Coast Shipping Notes.

COOS BAY, Or., June 8.—(Special.)—The Daley Freeman, which called here yesterday with six tons of fish, sailed in the evening at 5:15.

forms and new content. It may cease delving into the fields of alien things and return to the field of the spirit.

Primarily am I anxious to see the democratic spirit which prevailed in the trenches preserved in the forms and in the spirit of religious institutions.

I think, too, that we shall have to restate these spiritual truths in manner conformable to the experiences of our new industrial life.

"I don't know how we are going to do it, to express steam and steel iron and coal, factories and railroads so that they shall express the spirit which is in men, which is in themselves."

Even these cannot make their utmost appeal so long as we direct attention to Zion and Jordan away from Law.

"Race, nations and religion have been great divisive factors in the history of our world."

There has been much talk of an appeal to the common rights of all men.

There has been much talk of an appeal to the common rights of all men.

There has been much talk of an appeal to the common rights of all men.

WHITE BRIGHT AND CHEERFUL

A. G. Alger Praises Tanlac—His Own Troubles Are Also Overcome.

"I just can't tell you the amount of good that Tanlac has done for both my wife and myself, because it certainly has helped us every way and I'm only too glad to recommend it to anyone."

"I've been in poor health," continued Mr. Alger. "My wife was in a badly rundown condition, didn't seem to have much appetite and what little she did eat didn't digest well, but would just lie in her stomach and sour and form gas and she suffered a good deal from shortness of breath."

"I had heard Tanlac recommended so highly, so I decided to give it a trial and my wife and I both started taking it together, and my wife certainly looks like a different person now, and I'm feeling only three bottles of the medicine. She's bright and cheerful, her complexion is just like that of a healthy girl and she says she feels fine."

"I had heard Tanlac recommended so highly, so I decided to give it a trial and my wife and I both started taking it together, and my wife certainly looks like a different person now, and I'm feeling only three bottles of the medicine. Let Your Vacation Dreams Come True

You've been dreaming since before the war of a summer in the Canadian Pacific Rockies

And you have never so richly deserved a real holiday. Throughout this glorious vacation land spacious Canadian Pacific Hotels await you—at Banff, Lake Louise, Emerald Lake, Glacier, Siamon, Vancouver and Victoria.

Gay social life or unspoiled campfire amid the wild game preserves of the Canadian National Parks—just as you prefer.

Easy To Reach. E. E. Penn, Gen. Agt., Pass. Dept., Canadian Pacific Railway, 35 Third St., Portland, Oregon.

DAILY METEOROLOGICAL REPORT. TRAVELERS' GUIDE.

Table with columns for Station, Temperature, Wind, and Weather. Includes entries for Astoria, Portland, and other local areas.

SCIENTISTS AT PASADENA

Symposium on Education in a Democracy to Be Discussed.

PASADENA, Cal.—An interesting and significant feature of the meeting of the Pacific Division of the American Association for Advancement of Science to be held at Pasadena, June 19, 20, 21 and 22, will be a symposium on "Scientific Education in a Democracy."

The symposium will be held under seven topics, each presented by a speaker of distinction. Discussing the plans for this, a scientific training program, said:

"The experience of the war has served to bring science into the foreground. Seized upon and exploited by a mediaeval monarchy for the argument of liberty and democracy, it was realized before long that science is after all common property, and flourished best where greatest freedom exists."

It was presently found that our scientific resources only needed to be excelled the vaunted science of Germany where every effort in research was under the surveillance of the state and directed to serve the purposes of a military oligarchy.

"Science has ever been fighting against restraint. The very essence of scientific progress is freedom; freedom of opportunity for the individual mind to grow and expand. The greatest influence in this world today that promises to utterly destroy tyranny and autocracy wherever found is science. Truly the hope and safety of a democracy lies in the encouragement from this every real extension of liberty must come."

The promotion of research and the dissemination of scientific information should then be the chief concern of a democratic government for through these means alone will the people work on their problems and come into their heritage.

The newly discovered process of making glycerine from sugar will be a great help in saving the fats which were hitherto used so extensively. It is also profitable in a financial way, as the manufacture of glycerine by the new method costs about 25 per cent less than by the old process.
