Operation and Maintenance, Construction and Repairmen Are Invited in Coming Walkout.

COLUMBUS, June 9—A national strike of telephone workers is expected to begin on June 16, with workers in all branches of the telephone industry being affected. Negotiations have broken down and the workers are demanding better pay and working conditions.

The strike is expected to be a major blow to the telephone industry, which relies heavily on its workers to keep the system running smoothly. The strike is expected to cause disruptions for millions of people, who will be unable to make phone calls or access other services.

The workers have been working without a contract for several months, and they are fed up with the lack of progress in negotiations. They have been protesting for better pay and working conditions, but the company has been unwilling to budge.

The strike is expected to last for several weeks, and it is feared that it could have a devastating effect on the economy. The company has been trying to negotiate with the workers, but it is clear that a deal is not in sight.

The workers are determined to fight for their rights, and they are prepared to stand their ground. The strike is expected to be a major test of the company's resolve, and it is hoped that a fair settlement can be reached.
