

KOLCHAK BACKED BY ALLIES IN NEW NOTE

Recognition of Omsk Government Seems Granted.

PROMISE TO HELP IS GIVEN

Furnishing of Munitions and Supplies for Campaign Against Bolsheviks Apparently Planned.

PARIS, June 12.—(By the Associated Press.)—The reply sent by the council of four today to the note of Admiral Kolchak, head of the all-Russian government at Omsk, extends to him and his associates in the all-Russian government the support set forth in the original letter of the council to Kolchak. This is interpreted as a meaningful de facto recognition of the Omsk government.

The text of the reply follows: "The allied and associated powers wish to acknowledge the receipt of Admiral Kolchak's reply to their note of May 26. They welcome the terms of that reply, which seem to them to be in substantial agreement with the propositions they had made and to contain satisfactory assurances for the freedom, self-government and peace of the Russian people and their neighbors.

Support Is Assured. "They are, therefore, willing to extend to Admiral Kolchak and his associates the support set forth in their original letters."

It is understood that the support referred to involves the furnishing of munitions and supplies for Admiral Kolchak's campaign.

Admiral Kolchak has announced that he has appointed a commission headed by M. Billarousoff to make a study of constitutional questions preparatory to framing a constitution for submission to the proposed constituent assembly.

HEADQUARTERS WESTERN SIBERIAN ARMY, Akimovsk, near Belbeh, Eastern Russia, May 25.—(By the Associated Press.)—Revolts of the peasantry against bolshevik rule are increasing in frequency with the advance of the Siberian army, according to the latest reports received at headquarters.

Captain Okofet of the white army, who escaped from a prison in Moscow, has reported to the commander here, that a widespread revolt of peasants took place in the Talski district, and that it was suppressed with the greatest cruelty. While he was in prison in Moscow, the captain said, there was an epidemic of glanders there, and the death rate was so high that people stood in line waiting for burial permits for relatives.

Reds Are Depressed. Russians who were prisoners of war in Germany and who have returned to this region declare that the bolsheviks are greatly depressed by desertions from their army, which increased in March and April. One regiment left Samara with 2500 men for Bureusulan and arrived there with 500 men. Most of the bolshevik troops are not permitted to carry arms except at the front. More than 1000 revolvers were said to have been killed at Kinet Cherkaskala. Transportation is in poor condition and 600 men are reported to have been killed in one accident near Moscow.

Strategic centers are held by the bolsheviks with Chinese, Lettish and Magyar troops who are said to be paid as high as 1000 rubles a month.

STOCKHOLM, June 12.—Part of the British troops which recently arrived at Murmansk are participating in operations against Petrograd, according to reports from Archangel. They are now near Petrogradovsk.

LONDON, June 12.—The British war office today issued a denial of the report from Stockholm that British troops are advancing on Petrograd.

ROBERT BARRON HONORED

ALASKA PEAK TO BEAR NAME OF PORTLAND AVIATOR.

Chief of Geodetic Survey Makes Known Intention to Pay Tribute to Flier.

OREGONIAN NEWS BUREAU, Washington, June 12.—The name of Robert Barron of Portland, Or., cadet aviator of the United States army air service, the first American aviator killed at the outbreak of the war, is to be perpetuated as the name of the highest peak on Mansfield peninsula off southeastern Alaska.

This announcement was made today by Colonel E. Lester Jones, chief of the United States coast geodetic survey. This peak, which is of 4000 feet altitude, will be known as Mount Robert Barron. Robert Barron as a cadet aviator was killed near Philadelphia while trying to save fellow aviators from destruction. He was the son of J. T. Barron of Portland.

"The naming of this peak after the first of America's aviation heroes is a tribute not only to the young man who gave his life in an act of extraordinary heroism, but is likewise a tribute to the young man's distinguished father who has done more, perhaps, than any one else for the development of that part of Alaska overlooked by Mount Barron," said Colonel Jones in making the announcement. The peak overlooks Funter bay and the town of Funter.

QUALITY OF ENTRIES EQUAL TO FORMER DISPLAYS.

Professional Exhibit Attracts Much Attention—Many Valuable Prizes Are Awarded.

After one of the most successful exhibits ever held here, the annual rose show, under the auspices of the Portland Rose society, came to a close last night. The beautiful blooms were on display Wednesday and Thursday, afternoon and evening, and during that time thousands of Portland and out-of-town rose fanciers visited the auditorium, where the exhibition was held.

The individual entries this year numbered 215, and of this number has been exceeded in a few instances in past years, it is doubtful if the blooms presented for exhibition were ever of finer quality. An interesting professional display by the Portland Seed company was added yesterday, comprising a selection of individual blooms of some of the newest creations in roseodrom. This exhibit attracted much attention and many of the visitors jotted down names and characteristics of the different new varieties.

Music was furnished yesterday afternoon by Frederick Goodrich and W. T. Boone, who gave selections on the organ. In the evening the big Victory Girls' chorus gave a concert, and shortly after the rose show came to an end.

Handsome silver vases and baskets to the value of several hundred dollars will be distributed by the Rose society to winners in the various classes. Some received their prizes yesterday, but most of the winners will be presented with their trophies today. They are requested to call at the office of President Blasing, 27 Third street, where the distribution of the awards will be completed.
