

BOY SCOUTS' DRIVE STARTS OUT WELL

150 Members of Rotary Club Take Field for Campaign.

REPORTS HEARD THIS NOON

Women's Committee and Portland Chapter of Red Cross Will Render All Possible Assistance.

With 150 members of the Portland Rotary club in the field, the membership drive for the Boy Scouts opened here yesterday.

The report of the success of the drive yesterday will be made this noon at a luncheon of the club.

While no check of the work was made last evening, H. C. Ewing, head of the city membership drive, was confident that excellent results had been accomplished for the first day.

The women's committee, under Mrs. Sarah K. Evans, also started its work yesterday and will have reports to make today.

The effort is being made at this time to secure associate members of the boy scouts, grown-ups who believe in the organization and are willing to back it up.

The goal for the entire United States is 1,000,000 associate members, and Portland's quota is 3,000, while that of the entire state is 5,000. A membership of \$1 a year is charged.

Red Cross Members Helping. While the American Red Cross as an organization is not entering into the Boy Scout campaign, every possible assistance is being provided.

"We have to offer a most enthusiastic endorsement of the Boy Scout idea and our enthusiastic desire to have their work extended and made of even greater benefit to the country than it has heretofore been."

"Our Red Cross records can never be in a more helpful position than they are in today. We have called on them often and never called in vain. Like the little Trojans they are, the scouts have done their part—and done it nobly—behind the lines."

Other Successes Noted. "In two big war drives of the American Red Cross and in the two membership drives of the Boy Scouts, we have ever-present factors. Maybe their work was not the most pleasant, but it was done, and done well."

"The American Red Cross earnestly hopes the Boy Scout campaign will be a success."

EDUCATOR TO LEAVE IDAHO Mrs. Anna Tauchnick Accepts Position in Wisconsin.

LEWISTON, Idaho, June 16.—(Special.)—Mrs. Anna Tauchnick, who was dean of women in Lewiston normal school several years ago, has accepted the position of non-resident dean of women in Beloit college, Wisconsin, and will leave in August with her mother to assume her new duties.

Melvin W. Brannon, former president of the University of Idaho, left this state two years ago to become president of Beloit college.

C. L. Clarke, formerly head of the department of education in Lewiston normal school, will take the headship of the education department in Beloit next fall.

BORDER SERVICE ATTRACTS Young Americans Like to Ride, Shoot and Live in the Open.

MARFA, Tex.—Mexican border service is attractive to young Americans who like to ride, shoot and live in the open. To prove that the life of being "riders of the purple haze" is strong for men, Colonel George T. Langhorne, commanding the Big Bend district of Texas, quotes figures that show that his men had re-enlisted since the recruiting order was issued in an effort to retain border veterans in the cavalry service.

On the outpost at Ruidosa, miles from the nearest habitation, 90 per cent of the M. H. cavalry, re-a large city machine-gun troop showed the highest percentage with 23 re-enlistments. Troop 1 was a close second with 28 re-enlistments. Colonel Langhorne considers the showing of his recruiting campaign all the more remarkable from the fact that the district command has been stationed in the Big Bend district, away from a large city, almost two years. This, he says, explains the eagerness for re-enlistment on the part of the men. The moral is higher and the spirit of regimental loyalty more intense because the men are thrown together more in the wilds, are not distracted from their military duties by the attractions of a large city nearby and come in closer and more personal contact with the officers commanding them.

The Perfect Oil for Cooking and Salads

Why Mazola Saves Money in Cooking and Makes Food Better

ONE of the most important things Mazola does for cooking is to take the place of butter. In frying or shortening it gives the finest results. And, pound for pound, it costs considerably less. Foods cooked with Mazola, or in which Mazola is used, are wholesome, healthful, very easy to digest. Use 1/4 to 1/3 less Mazola for shortening than butter or lard. In frying, use Mazola over and over again to the last drop—it never absorbs odors or flavors. No smoking—no soggy cooking.

LABOR LEVELS GUNS ON PORTLAND LAWYER

Lee Roy Keley Censured in Council Resolution.

UNFAIR METHODS CHARGED

Action in Handling Case for Mrs. A. G. Diberner Spurs Steamfitters to Protest.

Scathing censure for his alleged attempt to collect \$1500 from the widow of A. G. Diberner, a steamfitter, who died in an accident at the Grant Smith-Porter yards, is leveled at Lee Roy E. Keley, Portland attorney, by organized labor of the city.

Keley is reputed to have offered his services, in the guise of a friend, at the time of the death, assuring Mrs. Diberner that he would obtain a full settlement from the industrial accident commission, and it is said that he secured a contract at that time calling for a fee of 40 per cent when the insurance money should be paid.

At the last meeting of the central labor council resolutions were passed which score Keley mercilessly. At the same session, when the attorney appeared and asked the privilege of the floor, he was ordered to retire from the hall, with two or three dissenting Delegates, discussing the motion, upheld Keley in unmistakable terms.

"I believe," read the resolutions, "that any member of the legal fraternity who takes advantage of such a time and tries to collect on an insurance policy which he has not earned, and had been paying for to said commission, is unworthy of being classed as a friend."

The steamfitters' local union, of which Diberner was a member, also introduced resolutions, which were endorsed by the central labor council.

"That this organization wishes to go on record as being opposed to any such tactics on the part of any attorney, particularly the methods used by Lee Roy E. Keley in the matter of his controversy with Mrs. Diberner, and be it further

Resolved, That the said Lee Roy E. Keley has shown himself to be anything but a friend of the laboring class."

Members of organized labor, with the steamfitters and plumbers particularly pledged to the cause, assert that they will leave nothing undone to see that Mrs. Diberner receives the full insurance money which she is entitled to by the industrial accident commission.

PRETTY WIDOW ABDUCTED

Attractive Woman Tells Court She Was Carried Off at Night in Taxi.

NEW YORK.—Testimony as to her acquaintance with John E. Carey, wealthy surgical instrument manufacturer, 17 Livingston place, Manhattan, was given before Magistrate Steers in the Flatbush court, Brooklyn, by Mrs. Helen C. Waterman, an attractive young widow, 213 Sterling street, that brought Mrs. Waterman charges of Carey with burglary and abduction.

The complaint charges that Carey went to Mrs. Waterman's home early one morning and carried her forcibly to his apartment in Manhattan.

Mrs. Waterman said that she met Carey while bathing at a popular and fashionable beach last August. It was a flirtation, she admitted. She invited Carey to her home for dinner, on the Sunday after the meeting, and he accepted, she testified.

Mrs. Waterman said that she had gone to Long Beach with Carey, and admitted that they were in Atlantic City together, but emphatically denied that they stayed at the same hotel. She said that Carey on all his visits to her home "acted like a perfect gentleman," and that she was always "a little lady." She denied with much emphasis that she had ever gone to Carey's apartment, and said that the night she was forcibly taken there was the first time she had ever been to his home.

Mrs. Waterman testified that she was 26 years old and that she was born in Boston. Her husband died on Dec. 18, 1916, at Putnam, Conn. She said she had been living in Brooklyn since last August.

Mrs. Waterman admitted Carey had a key to her home, but declared that he had had it made himself, and that when she found it out she had a chain put on the door to prevent any one from entering unless the chain were removed from the inside.

She is employed as a saleswoman, she said, for a Miss Huges, on West Forty-sixth street, Manhattan. She did not state the nature of the business.

"I returned home from work at 6:30 o'clock, and did not leave the house after that," she testified, in telling of the events on the night of the alleged offense. "I retired about 10:30 o'clock. The first time I saw Carey that night was when he burst open my door, pushing me behind it."

It is alleged Carey entered the house by breaking a window and climbing through.

"I was petrified with fear and stood there," she stated. "He tore out of

the room into the hall and I rushed into the hall and took the burglar chain off the door and ran into the street. I ran along the street toward Norland avenue and met no one. I was confused, but as I remember it, he ran after me and dragged me back in front of the house.

"I was screaming and begging him to let me alone. I did not see the taxicab until he dragged me to it and forced me into it, as I thought he had a revolver. He told me so."

She was asked by Carey's attorney how far Carey dragged her.

"He dragged me eight or nine doors," she replied. "The door of the taxicab was open and he thrust me in despite my pleas to him and the chauffeur."

In answer to another question, she declared:

"I want the court to thoroughly understand I fought him and shrieked at the top of my lungs. I was begging and pleading with Carey, but he told me it would be of no use. I thought it was a revolver he had pressed to my side or I would have called out or screamed when we passed Carey with burglary and abduction."

"I begged the elevator man at his apartment to telephone for help for me, but Carey passed him money. I was forced into his room at the point of the revolver."

She was asked if she made no outcry after she found herself in the apartment.

"No," she replied. "I was terrified and frightened. I felt pincers at my throat in the room, which was in darkness, and I thought I was going to be killed."

Carey's attorney asked her whether it were true that Carey had paid her expenses and given her money.

"Carey never gave me a cent, as God may strike me dead," she declared.

ELECTICIANS IN DEMAND

Attractive Jobs Suitable for Men With Various Disabilities.

WASHINGTON.—A returned soldier, whatever his disability, and whether or not he has had previous experience, will, if he is at all interested in the subject of electricity, find some job that will be suitable for him, so great is the present demand for electrical men, says the federal board for vocational training. It is not surprising that courses in this city, which are courses in the general subject of electricity, 13 are preparing to be electrical engineers.

Disabled men can fill many positions in power plants, such as switchboard operators, sub-station operators, combustion experts, attendants of auxiliary

WOMEN AT WORK.

During the war, millions of women have been at work in vocations into which they have never before been called—in Munition Factories, Chemical Works, Metal Works, Street Railways and as Ambulance Drivers, Barbers and Elevator Girls. Undoubtedly thousands of others have longed to serve in this way, but because of female ailments, which had fastened upon them, were not able to do so. Women in this condition should give Lydia E. Pinkham's Vegetable Compound a trial and find health and strength as thousands of others have so done.—Adv.
