The DUO ART

The Last Word in Pianos

The DUO ART is a new type of pianoforte. It answers to the touch of the pianist's fingers upon its keyboard. In tone and in form it is a piano of the highest modern development.

But, unlike the piano, the Duo Art is not a passive instrument whose voice is lifted only at command of the gifted artist's agile hands. The sensitive Duo Art action, guided by Duo Art Records of the finest interpretations by the world's greatest pianists, reproduces these performances with such perfect mimicry as almost to out rival the artist's recitals in the concert halls. *The Duo Art thus immortalizes the fine art of pianism—makes its rarest and highest examples available in the home.*

Not only is the Duo Art a Reproducing instrument, but it is an instrument of self expression—for with the thousands of Player Rolls one may sit and play anything in the realm of music according to his or her own desire and terpretation.

We cordally invite you to come in and hear this marvelous Player, which is truly the last word in Pianos.
