The

Golden Gate-Columbia Run Is Made in 21 Hours.

## FIGHTER SETS NEW MARK

Warship Built for U. S. With Funds Provided by Philippine Government Now Leads All.

The United States destroyer Rizal, the crack 35-knot fighter recently com-pleted with funds appropriated by the pleted with funds appropriated by the Philippine government, has set a new mark for all classes of ships, steaming from the Golden Gate to the Columbia fiver in 21 hours and from Astoria to Portland in five hours. Commander E. S. Root modestly admitted on ar-rival yesterday that the run was a record and men familiar with passages along the same stretch of coast back him up.

him up. In the days, not long ago, when the Great Northern and Northern Pacific steamed between Flavel and San Francisco, making 23 knots, they were credited with some fast passages. Their scheduled time was about 26 hours, which was decidedly fast time for ships of their class, but the Rizal now leads all, merchantmen and navymen.

### All-Filipino Crew Promised.

All-Filipine Crew Promised. The fact the Rizal's construction cost was shouldered by the Philippine gov-erament and that she is ultimately to carry an all-Filipino crew, save for the executives, has a stracted widespread attention. As yet there are about 25 whites out of 122 persons aboard who are directing the Filipinos in their new duties and they will be joined later by a crew being trained on the Aslatic sta-tion, orders for assembling a full com-pany there having been given in Decem-ber. The Philippine government also ber. The Philippine government also appropriated funds for the submarine E-36, now under construction at San Francisco, and she will be manned by men from the islands. The destroyer is named in honor of Jose Rizal, a Filipine patriot

The Rizal is known numerically as The Risal is known numerically as 174 and as she steamed up the harbor yesterday afternoon to the foot of Jef-ferson street, the big, white numbers on her how stood forth most prominently. Her bow is high, while she is low aft. On deck is a most business-like assori-ment of war implements, four guns of four inches, two three-inch anti-air-eraft guns and four triple-barreled II-inch torpedo tubes being carried. She is of the latest type flush-decked destroyer class. Besides her fighting sequipment she is unusually powerful, equipment she is unusually powerful, having 25,500 horsepower, which is as much as the superdreadnaught Tennes-see, now building, will be fitted with. The destroyer was launched September 21, 1915, at San Francisco.

#### New Ship Handles Well.

Captain Richard Sandstrom of the Willamette and Columbia River Pilots' association, who brought her from As-toria, praises her response to the wheel toria, praises her response to the wheel and says she handles wonderfully well. Lieutenant George E. Gandy, in charge of the navy recruiting office at Fortland, met the destroyer at Astoria and came here as guest of Commander Root, who has with him Lieutenant A. S. Walton, executive officer: Lieutenant P. L. Emrich, engineering officer, Lieutenant F. L. Sturdevant, ordnance offi-cer; Lieutenant J. H. Winston and Lieu-tenant G. R. Keessack.

cer; Lieutenant J. H. Winston and Lieu-tenant G. B. Kessack. The vessel is to remain here until Monday morning.
