TREATY CONTRARY TO NOTE, HUNS ASSERT

Germans Claim Concessions Under Memorandum.

VARIOUS ITEMS SPECIFIED

Letter of Allies Accompanying Altered Peace Text Made Basis of Plea.

PARIS, June 22.—The latest communication between the allied and associated governments and the Germans on the peace treaty consists of a note by the Germans to the allies, under date of June 12, and the answer of the allies, under date of June 21. The German note, which is from Count von Brockdorff-Rantzau, says:

"The examination of the four documents submitted on June 18 to the commissary-general of the delegation brings out the fact that a certain number of concessions are announced in the letter and in the memorandum, which are not found in the text, as changed by hand. Among the most important PARIS, June 23.-The latest com

by hand. Among the most important of these contradictions the German del-

egation has selected the following:

"(I) It is stated on page 7 of the
memorandum that as Germany is admitted to the league of nations she
shall enjoy the benefits resulting from
the stipulations relative to the freedom

the stipulations relative to the freedom of commerce and transit. On the other hand, it is stated on page 42 of the memorandum that for the minimum period of five years unilateral conditions in the matter of commercial relations would be imposed on Germany.

"(2) It is stated on page 11 of the memorandum that France will assume the public debt of Alsace-Lorraine.

"(3) It is stated on page 14 that for the plebiscite in upper Silesia there shall be created a commission independent affect in the text), while according to the new draft of the conditions this commission is to be appointed solely by the allied and associated governments.

"(4) It is stated on page 15 on the conditions this commission is to be appointed solely by the allied and associated governments.

"(4) It is stated on page 15 on the madvised of any probable change in advised of any probable change in madvised of any probable change in madvised of any probable change in

subject of the territory of Meme, that the cession of this territory will take place under the form of a transfer to the allied and associated powers because the status of the Lithuanian territorien is not yet established. According to this provision, Lithuania should be considered as the state to be the state to be

definitive acquirer.

"(5) According to page 17 of the memorandum, the commission created for Heligoland by the allied and associated governments is to decide what installations are to be maintained for the protection of the land.

"(6) On page 21 of the memorandum it is promised that the German rall-ways and mines of Shantung shall not be considered as property of the Ger-man state if the Germans can prove that they are private property."

GREAT FLEET IS PLANNED American Commerce Ships Soon to

Traverse All Seas.

NEW YORK.-American commerce

NEW YORK.—American commerce ships, built by the United States shipping board for war emergency use, are soon to traverse the seas in competition with vessels of other countries and of this country and demonstrate their fitness as suitable cargo carriers.

Many of these ships, with a tonnage aggregating 2,000,000 gross tons, are now in overseas service, following regular trade routes, under the control of the shipping board. Others of an aggregate tonnage of \$23,233 are engaged in overseas food relief work. Edward N. Hurley announces that the greater part of this tonnage will be released from food relief work by July 1.

The desire of the shipping board to balance the fleet and give it elasticity and the highest commercial strength

and the highest commercial strength chiefly affects future construction, the tendency of which, it was stated, is to-ward larger ships, affording accommo-dations for both passengers and freight and with speed and great steaming

ish activity in shipbuilding was fur-nished by the shipping board. The ta-ble shows that 486 steel cargo steam-ships of 2000 gross tons or more are now under construction for America, as against 279 being built in the United Kingdom. The British obviously favor ships of about 11% knots, as more than half their construction is designed for that speed. In the American fleet now that speed. In the American fleet now building 313 vessels have a contract speed of between 10½ and 11½ knots. The largest number of British vessels of one type under construction are 94 of 5100 tons. The largest number of American vessels of a type are 73 of 5808 tons. There are only a few Brit-ish or American ships of more than 6666

tons, five of \$250 tons and two of \$240 tons.

Both the United States and Great Britain are turning from the standard-ized types to the task of balancing their fleein, although ships of the stand-ardized types necessarily will form the backbone of the fleets of both nations.

HUN COUP ROUSES BRITONS

(Continued From Prest Page.) declared today, it would be impossible to prevent the Germans from opening the seacocks of the ships as they did yesterday, because only Germans were aboard their own vessels. Once it was discovered that they had begun to scuttle their ships, every effort was made to save as many as possible by

Opinion of many of the naval experts. lic, is that the plot to scuttle the fleet had long since been accurately mapped out. Some believe it was by secret orders recently given that the dramatic stroke by the German crews was car-

Some Salvage Possible.

Others, however, think that before the vessels went to Scapa Flow for internment, there was complete understanding regarding the scuttling on the eve of signing the peace.

As most of the vessels sank in water 120 feet deep, it is considered possible to salvage some of the capital sifips, but at a great cost, which, however, would not deter the keenness of private enterprise. The belief grows that eventually they will be drawn up to

eventually they will be drawn up to clear the Scapa Flow waters.

Arthur H. Follen, a well-known naval writer, says: "I cannot but admire the spirit of the German seamen in sinking the ships rather than allowing them to pass into the possession of their enemies. It is a mest remarkable fact that throughout the war only one German warship, the submaring C-U-25, was captured by us. It only one German warship, the subma-rine C-U-35, was captured by us. It nian. Phone Main 1870, A 6695.

was always the tradition of the German fleet never to surrender.

"At the battle of the Falkland lalands, when capture or destruction was absolutely certain, the Germans scuttled the Leipzig, Gneisenau and Nuremberg. At Jutland they preferred scuttling the Luizow, although at the time the ship was crowded with wounded and could not have remained afloat long under the circumstances.

"The fighting spirit of the German,

wounded and could not have remained affoat long under the circumstances.
"The fighting spirit of the German, navy was always terrific, and had their submarine commanders maintained anything like a sense of fair play the name of the Hun sailorman would not now be one for execration throughout the world."

"Serves Us Right"-Scott.

Admiral Sir Percy Scott says: "It serves us right for trusting the Huns."
Admiral Sir Cyprian Bridge says: "It looks like a concerted plan directed from Berlin in some way. In the old days after an enemy ship had struck her flag any damage or loss suffered through the action of the enemy seamen on board would be followed by a courtmartial and serious penalty in the event of conviction. The sinking of these ships is a breach of the armistice. therefore, almost tantamount to a new act of war. But, coming as it does at this critical juncture in the negotiations, it means that the Germans intend to deprive the allies of as many warships as possible."

80-CENT EGGS PREDICTED Expert Says Heavy California Storage Points to This Price.

NEW YOK.—The egg statistics of the Produce News finds a large accumulation of eggs in storage and argues that eggs are now being put away in California at th highest prices on record, one result being that the consumer next winter may pay 80 cents a dozen.

"Say the storers put eggs away when the wholesale market price is 48½ cents a dozen," he writes. "A 2-cent storage cost, 1½ cents for interest and I cent for depreciation makes an actual

torage cost, 1-2 cents for interest and i cent for depreciation makes an actual cost of 53 cents a dozen. These eggs will move out at 56 cents if the owner is simply to break even with the barest margin of profit—2 cents on an investment of 53 cents. The jobber will put them out at 63 cents, or, more likely, 64 cents a dozen.

"And that means the storage egg must sell for 71 cents average in order to show the smallest profit, and this price calls for about an 80-cent market for fresh eggs."

TWO AMERICANS CAPTURED

Twenty U. S. Troops Kill Eight and Capture Four of 200 Enemy Soldiers.

VLADIVOSTOK, June 19 .- (By the Associated Press.)—Walter Kellerman of Chicago was killed and C. H. Batchelor of Kansas City and Chester Burt of Antigo, Wis, were captured in a fight between 25 iroops and 200 bolsheviki June 12, 100 miles to the north of Vladivostok.

June 12, 166 miles to the north of Vladivostok.

Burt later was released. A note was given him saying that Batchelor would be freed only upon the release of all bolshevik prisoners. Burt said Batchelor was being well treated.

News of the death in action of the first American in Siberfa was received at headquarters June 13, but, a few hours later communication with American detachments was broken when the bolsheviki attacked the Japanese sector at Nikolsk and Spaskole, where the rails of the railway were loosened and the wires cut.

Kellerman met his death on the skirmish line, while Burt and Batchelor were captured while making a position map.

In addition one American was wounded ed. The bolshevik! lost eight men killed and four taken prisoner.

In addition one American was wounded. The bolshevikf lost eight men killed and four taken prisoner.

In another fight at Ushanka village June 11 four Americans were wounded and one bolshevik was killed and two were wounded and four made prisoner. Transportation is demoralized between Nikolsk and Khabarovsk.

while others prefer a delay of two or three days for the actual maneuver.

The view of the council of four after the meeting today was that everything looked favorable to the signing of the treaty and that it was even possible this function might take place Tuesday. The council today discussed 12 points raised by the German note and sent a reply to the effect that six of these were sufficiently covered in the treaty, and that the other six would be made the subject of a protocol to be added to the treaty.

Preliminary Injunction Granted! Benjamin Plug Cluster Patent No. 759962

The Benjamin Two-Way Plug (or Benjamin No. 92), an American device, manufactured by an American Company, is being infringed upon by a Japanese device, manufactured by a Japanese company.

A preliminary injunction has recently been granted by the United States District Court for the Northern District of California, at San Francisco, in a suit brought by the Benjamin Electric Manufacturing Company against Samuel Ran for infringement of Benjamin Patent No. 759962.

A similar injunction was also recently granted by the United States District Court for the Western District of Washington, at Seattle, against R. M. Burton for infringement of the same patent. The plug clus-ters marketed by Ran and Burton, and enjoined by the courts, were of Japanese manufacture.

The Benjamin Electric Manufacturing Company is the owner of Benjamin Patent No. 759962 and the Benjamin Company and its licensees (Harvey Hubbell, Inc., Bryant Electric Co., Ajax Electric Specialty Co.) are the only ones authorized to make and sell devices embodying the invention of the above patent. Infringers of the patent will be vigorously prosecuted.

The Two-Way Plug, made by the Benjamin Company, is known to the trade and public as Benjamin "92" and Benjamin Two-Way Plug.

In imitation of this, the Japanese device has been marketed under the name "Benjamin 92" or "No. 92."

Be sure you get the genuine Benjamin Two-Way Plug-the "Benjamin 92." The Benjamin Company has a Pacific

Coast House at 590 Howard Street,

San Francisco, and the genuine article

is handled by all electrical distributors and dealers.

In addition to the Benjamin Two-Way Plug, the Benjamin Electric Manufacturing Company has facilities for supplying high grade reflectors, industrial lighting fixtures, wiring devices and other electrical apparatus, enameled ware, castings, stampings and spinnings in steel, all of which are manufactured in America by skilled American workmen, who receive America's standard of just compensation.
