

\$30,000 IS PLEDGED FOR NEW BUILDING

First Christian Church Raises Big Sum Quickly.

COST PLACED AT \$75,000

Rev. Mr. Griffith Extols Religion as Offering Only Salvation of Modern Problems.

Pledges aggregating \$30,000 for the building of the proposed new First Christian church was made yesterday morning, when the matter of construction was presented to the congregation by its pastor, Rev. H. H. Griffith.

A number of the subscriptions made were unusually large and some of them represented considerable sacrifice on the part of the donors. One subscription amounted to \$10,000, three were for \$2,000, another for \$1,000 and several for \$500. Rev. Griffith subscribed a third of his salary for an entire year. The majority of pledges cover 20 month periods.

Building to Cost \$75,000.

Prior to the launching of the campaign by Rev. Griffith it was decided not to start construction until \$40,000 in cash had been deposited with the treasury and pledges amounting to \$75,000 were on hand. The new church will cost \$75,000 exclusive of the ground, as it will be built on the present church site, at Park and Columbia streets. It is hoped that construction will be commenced by April 1.

"The Value of the Church Universal" was the subject of the short sermon delivered by the pastor, who reviewed the history of the church, including its work in missionary, literary, art and science fields.

Church Only Solution.

"The church of today stands for universal brotherhood," declared Rev. Griffith. "The church is the only institution which is able to offer a practical solution for the social and economic problems of the day. The remedy of universal brotherhood is the solution, I believe, to apply to misunderstandings between labor and capital."

"Other modern institutions have attempted to solve social and economic problems with the same remedy, but though they have helped, the church is the only organization which has the standards and ideals to accomplish it. The lodge has the ideal of brotherhood and has done much to propagate it. The school is a great factor in creating greater brotherhood, and the home is an even greater support. All are fine and good, but it is on the church that the great responsibility rests."

HUMAN EXAMPLES HELD BEST

Modern Day Leadership Cannot Longer Command, Says Pastor.

"Modern day leadership cannot longer command; it must compel by what it bestows by example, by the example of its own life," said Rev. E. H. Pence, pastor of the Westminster Presbyterian church yesterday in his sermon on "The Greatest Gift of Human Appreciation."

In a most practical discourse on the topic he continued:

"For sheer and exquisite human appreciation, and thereby raising in us the desire to be great, the greatest of all human gifts is the gift of human appreciation. It is a most practical discourse on the topic he continued:

SPIRITUALIZED LIFE UPHELD

Rev. Mr. Rogers Likens Human Bodies to Watch Cases.

A plea for a more complete realization of the physical and spiritual being is the temple of God in which he perpetually abides, was made yesterday morning by Rev. E. W. Rogers, pastor of the Galveston Presbyterian church.

"It is a wonderful thought that this poor body of mine is the dwelling place of God," said Rev. Mr. Rogers. "How many realize what a privilege has been given us to have God perpetually with us? Because he is always with us we don't have to pray loudly or vainly. When Jesus raised Lazarus he did not cry out to God. He merely talked in a conversational tone of voice. It wasn't necessary for him to speak to God. He spoke to the people, and he wanted the people to realize that it was God, himself, who was raising Lazarus from the dead."

"I often think that our bodies are like watches. A watch case will not let us see the time. Before it can be of use to us it must have the works put in it by the creator. Our bodies are just as empty as the watch case unless we have allowed our creator to put in it the holy spirit. And all we have to do to have the holy spirit fill our beings is to believe in Jesus Christ, who with his life, crucifixion and ascension paid the price for us."

WHAT is sauce for the goose is sauce for the gander.

This is the theme of "As a Man Thinks," this week's feature at the Majestic theater. The programme is completed with the comedy, "Rowdy Ann" and the Pathe weekly.

Leah Baird plays the lead of "As a Man Thinks," which is the story of a beautiful young wife who feels at her own married life after learning the truth of a flirtation her husband had once carried on with a Paris model. Miss Baird's beauty, unlike the girlish charm of a large majority of screen artists, is that of a mature and cultivated woman. Because of her type she is one of the very few motion picture actresses suited to play leading roles in emotional dramas of married life.

In "As a Man Thinks" she plays her role with understanding. With lovely skill she portrays the part of winning a man's love, the part of a woman of a mother whose chief interests are in her child and later of a rebellious wife. Her role calls for wonderful settings, the backgrounds of which are beautiful drawing rooms and calls for rich and smart wearing apparel harmonizing with the handsome surroundings. The picture will run until Saturday.

Screen Gossip.

The first opal to be mined in Austria after the cessation of hostilities has been sent as a gift to Naomi Childers, who is a prominent part in the next Geraldine Farrar production by a friend, who is a correspondent "over there" for a New York newspaper. The opal is a wonderfully large and of brilliant quality.

Mabel Normand has a new admirer. He was exceptionally original in his manner of asking for a photograph of her. He dropped his written request from the airplane which passes daily over her studio, and signed it Ovar T. Meyerhoff. Needless to say, the sprightly

pastor of the Atkinson Memorial Congregational church yesterday morning in his sermon on "The Religion of Authority."

"Such a religion signifies two things. First, the subjugation of self and consequently the conquest of the world. This is the only philosophy upon which religion can stand."

"When we think of the way in which the world has been mastered, forests turned into pastures, mines into fortunes, the sea into a highway, and the air into a flowery pathway, we stand in utter humiliation and self-condemnation before the march and spread of the greatest foe of godliness and righteousness and peace and good-will upon the earth, namely, selfishness. The bone of the world's contention is at this very point."

"Peace pact, and league of nations, is a hopeless task of intellectual greatness, with the heart of man still unbridled. Until a man's selfishness has never been so skillfully answered in the affirmative as the clever way in which the race of men are putting it over now. Give us more wars! Give us one-half of the world; give us more profits; cries the other half, and so goes the toboogan slide of selfishness."

"The saloon is needed for no other purpose than selfishness, immoral amusements for no other purpose than selfish gain."

"The church and the kingdom of God suffer violence at the hands of selfishness, and it seems often ready to take it by force. He must increase and I must decrease. It is a mighty gospel, but a perfecting one. For as found ready to preach it, and fewer to practice it. The average congregation assembles as a host of beggars, each pleading for his own share of the world, instead of as an army of soldiers gathered to receive new power and strength to go out and do battle for their king. We are oppressed with our own selfishness, and with those of the world. We worship a small, commonplace God of strictly limited powers, and such worship leaves the heart cold."

"The need of the church and the call of the world today is for the Christ who spoke with authority, who commanded and condemned evil spirits, and which fled at his presence."

CHRIST'S LOVE FAR REACHING

Pastor Says Best Society Loves the Beautiful and True.

"What sort of a man is Christ's man?" asked Dr. A. A. Morrison, rector of Trinity Episcopal church, in his sermon yesterday morning.

ROGERS SUFFERS 40 LONG YEARS

Was So Rundown He Could Hardly Drag One Foot After the Other—Feels Fine Now.

"During the forty years that I suffered with stomach trouble and rheumatism I never found anything that helped me the way Tanlac has, and I am glad to recommend it to everybody," said H. Rogers of East 824 Crown ave., Spokane, Wash., to a Tanlac representative the other day.

"In all that time," continued Mr. Rogers, "it just looked like the older I got the worse I felt. I didn't have any appetite to speak of and what little I did eat didn't seem to do me any good, but would sour in my stomach and bloat me up terribly and I just got so weak I could hardly get around. Sometimes I'd just give up completely and wouldn't be able to do a bit of work and I suffered a lot with nervousness and at times I'd be so dizzy that when I'd stoop over I'd feel like I was going to fall. I just felt tired all the time, but mostly in the mornings, and many a time I've forced myself to go to work, it just looked like I could hardly drag one foot after the other."

"I had rheumatism mighty bad in my arms and legs and was troubled a lot with shortness of breath. I tried different things to get relief from my trouble but nothing I took seemed to do a bit of good, and then my brother-in-law told me I ought to take Tanlac, and I did, and I just want to tell you I commenced to get results from it before I had finished the first bottle. I've taken five bottles so far and now my stomach is in fine shape; in fact, I haven't had a bit of trouble with my stomach since I started on Tanlac. My appetite is fine now, and I can eat anything I want and what I do eat seems to do me good. That rheumatism is all gone, I'm not troubled any more with nervousness or shortness of breath and my nerves are as steady as a clock. I'm not bothered with any tired feeling and I rest well at night and get up in the morning feeling rested and full of energy for my work, which I can do with ease now. I just feel so good every way that I tell all my friends about Tanlac and how it has helped me."

In vetoing several sections of the banking act this spring the acting-governor dealt rather summarily with administrative matters in that office. Although this is not necessarily an indication of vital criticism on the acting-governor's part, an eventual change in that office would probably not be surprising. The present state examiner, H. H. Moore, is a democrat, but a bank examiner of any persuasion usually gives occasion for opposition likely to be successful when opportunity for a change arrives.

Prior to that he had been a progressive member of the house from Pierce county and the republican party. Mr. Baldwin is a Spokane democrat of prominence. T. E.
