

BOND ISSUE PLANNED BY IRISH REPUBLIC

250,000 Pounds to Be Offered Abroad, Says De Valera.

RESISTANCE IS PROMISED

Drastic Measures Threatened Against British Who Seek to Keep Irishmen From Using Resources.

NEW YORK, June 24.—The Irish republic proposes to issue bonds to the amount of £1,000,000, President Eamon De Valera announced tonight.

"In order to obtain recognition for our own free government and for the Irish republic," Mr. De Valera said, "we shall send at once our accredited representatives to Paris to the peace conference and to the league of nations."

"We shall send also to other countries a number of duly accredited ambassadors and envoys to see that the position of Ireland is understood as it truly is."

"At the present time of general world reconstruction it is most important that the material interests of the country at home be also looked after, and by Irishmen. It will be the duty of our ministry to secure the cooperation and to co-ordinate the activities of the various bodies which have taken voluntarily on themselves the safeguarding and advancement of the interests towards English legislation interfering with these interests we shall act as we think best for the general good."

"To measures such as the English ways and communications bill, designed as regards Ireland to prevent Irishmen from using the natural resources of their own country, we shall offer all the resistance we command as being both injurious and unjust."

The bond issue will be repaid, Mr. De Valera said, six months after the English evacuation of Ireland. He denied emphatically that Russian or German money ever had been used for promoting the cause of Ireland.

DUBLIN, June 24.—(By the Associated Press.)—With reference to an allegation made by Messrs. Walsh and Dunne, representatives of American-Irish societies that the prosecution of Countess Markievicz, Sinn Fein leader, was in retaliation for the offer of having given information to the delegates concerning brutalities against Irish women, an official denial of this charge was issued at Dublin castle today.

The denial says the countess was ordered prosecuted May 25, long before the first statement of the delegates was made.

DOCTOR IS STILL ALIVE

KLAMATH FALLS MAN SHOT BY WOMAN IN GRAVE STATE. Assailant at Liberty on Bail, Is Thought Deranged.

KLAMATH FALLS, Or., June 24.—(Special.)—Dr. G. C. Mitchell, who was shot and perhaps fatally wounded by Mrs. T. J. Nicholas of this city early last evening, was still alive at the Klamath general hospital tonight and his attending physicians said that it will be two or three days before there will be any marked change in his condition.

Mrs. Nicholas, his elderly assailant, is at liberty on bail of \$3000 and under care of a physician. Mrs. Nicholas is said to have shot Dr. Mitchell because he mistreated her pet dog.

No statement has been made by the defendant regarding the shooting, but the most reliable report obtainable is to the effect that Mrs. Nicholas brooded over Dr. Mitchell's chastising her dog until she became demented. Mr. and Mrs. Nicholas being childless, were more than ordinarily attached to their dog. Dr. Mitchell is said to have mistreated the animal for eating eggs at his stable.

Has Thanksgiving Every Day

"Two years ago, after suffering many years with stomach trouble, I took a course of Mayr's Wonderful Remedy and haven't been sick a day since. I can eat anything I want and have no pain at all. Three doctors had advised operation, but your remedy has cured me. Every day is Thanksgiving for me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Druggists everywhere.—Adv.

MEDICINES USED BY MONKS

It is claimed that Monks of ancient days knew of more than three hundred species of medicinal plants used in general for medicines by these religious orders. While centuries have passed, with all the advance made in medical science, many of our most successful remedies are today made from the roots and herbs of the field, like that good, old-fashioned remedy, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been relieving women from some of the worst forms of female ill, and is now considered the standard remedy.—Adv.
