

PARKROSE ELECTION FRAUDULENT, CLAIM

Suit Filed Would Knock Out \$20,000 School Bonds.

25 BALLOTS HELD INVALID

Securities Already Sold and County Officials Are Made Defendants in Case.

Instead of passing with a majority of five votes, the \$20,000 bond issue failed upon May 31, 1919, in Parkrose by school district No. 2 lost by a negative majority of 20, counting taxpayers in a suit filed in the circuit court yesterday, which charges election fraud and throws into question the legality of the bonds which already have been issued.

Supposed members of the Greater Parkrose club to the number of 25 were allowed to vote in this election, though not entitled to a ballot, and one qualified elector was turned down by the election judges in carrying out their conspiracy, allege the complainants.

The action is brought by C. A. Peltier and 22 other taxpayers of Parkrose against school district No. 2; Harlan J. Miller, E. C. Piper and R. A. Bremner, directors; A. G. Oates, clerk; R. R. Speaker, W. H. Meyer and J. Mann Fisher, judges; Opal Bremer, clerk of the election; Keeler Bros. and Fred Glenn, resident agents; the Title & Trust company; Walter H. Evans, district attorney, and John M. Lewis, county treasurer.

Fraud is Alleged. The election in question was called Saturday, May 31, at the Parkrose school building, and was for the purpose of voting or rejecting \$20,000 bonds for the enlargement of school facilities at Parkrose. The announced result of the election was, Yes, 49, No, 54, thus carrying with a majority of five votes.

The plaintiffs assert that the fraud consisted in permitting 25 persons to vote in the election who were not qualified by law, and refusing one who was qualified, making the true result: Yes, 47, No, 56, out of a correct total of 103 votes.

Twenty-five persons listed in the complaint were allowed to vote, it is said, upon their representation that they were members of the Greater Parkrose Club. The plaintiffs maintain that the representations were fraudulent, and that not one of the persons listed was in fact a member of the club.

Bonds Already Sold. The further contention is made that, even if they were members of the Greater Parkrose club, they were not entitled to vote, by that showing alone. This club is incorporated under the laws of the state and though it owns two lots in the Parkrose district, there is no stock in the club sold, only memberships, which do not qualify a person as a school elector, it is held.

Following the election the bonds were prepared and registered on June 1 with County Treasurer Lewis, and sold to Fred Glenn, acting as agent for Keeler Brothers, at par, or \$20,000. Since that time about \$1400 of the money has been spent in the purchase of lots for school purposes, it is asserted, the remainder of the \$20,000 supposedly resting with the county treasurer to the credit of the school district.

The plaintiffs demand a restraining order preventing the defendants from spending any of the money realized from the sale of the school bonds, a decree that the election certificate returned is false and fraudulent and that a new certificate should be issued showing the defeat of the bonds, and also sought to compel the defendants to redeem the bonds at once from funds still in the county treasury and from private sources.

Ralph R. Durnitway and James R. Bain are attorneys for the plaintiffs.

A Shampoo Worth Trying.

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleaned each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of cathechu, which can be obtained from any druggist's, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather, so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Adv.

ALUMNI END CONVENTION

UNIVERSITY MEDICAL MEN MEET WITH DOCTORS.

Many Papers Presented at Joint Session and Various Problems Are Discussed.

Alumni of the University of Oregon medical school closed their three-day session at the Benson hotel with a meeting last night with the Portland City and County Medical Society. Smallpox and other contagious diseases were discussed, largely from the viewpoint of the health officer. Dr. John Abels of the city health office presided.

Clinics were conducted yesterday morning at St. Vincent's hospital by Dr. K. J. Mansfield, Dr. Earl Elise, Dr. J. A. Pettit and Dr. William House in the afternoon. Dr. A. G. Witham presented a paper on angina pectoris, which he declared is a more prevalent disorder of the heart than is generally supposed.

Dr. Frank R. Menne spoke of the relation of the hospital to the physician and the public and advocated giving a bachelor degree to internes. He said the present system gives these students no authority among their training in a chaotic state in its last year. The doctor told of the necessity of making the fifth year a true internship and figured an editorial committee under the plan outlined by him a definite clinical diagnosis and practice would be given, this leading to a division of internes into two classes. The interne would first receive that of bachelor and then one of doctor. This is the custom followed out in Europe and the speaker said it creates more confidence in the interne.

Others on yesterday's programme were Dr. Pettit and Dr. A. G. Bettman, after speaking on surgery of the face, illustrating the lecture with slides. Dr. F. E. Solover had for his subject "Discrepancies in Diagnosis" and Dr. Elise spoke on "Multiple Cystic Disease of the Breast."

At the banquet Tuesday night a service flag was hung containing 217 stars, six of them gold ones. Over 32 per cent of the living graduates since the first class left in 1866 were in the government service during the war.
