## **BUSINESS MAN TYPE** HELD FAULTY IDEAL

Dr. George Rebec, in Address, Pleads for Artistic Life.

AMERICANS SAID WARPED

Speaker Prophesies Change in National Development, With "Heart Interest" to Come.

America, with the remainder of the world, is in the threes of economical revolution upon which the outcome reconstructional democracy depends, according to Dr. George Rebec, speaker at the Women's Ad club luncheon held yesterday noon at the Benson hotel. The present and future economic situation is not a thing to analyze with pleasure, he declared.

or to Dr. Rebec's address Miss Prior to Dr. Rebec's address Miss
Ethel Peterson, member of the club,
gave a talk and in a short business
meeting which followed Miss Amy
Brun was elected chairman of the executive committee. Miss Brun announced the names of Mrs. W. P.
Strandborg and Mrs. Katheryn Coffield
as additional members of the executive
heard.

Dr. Rebec said that too many Americans are inclined to think that because several monarchs have been pulled down from their thrones in Europe that democracy is all but established there, and that because we have a republic as our form of government our country is an example in democracy.

Ballot Held Influenced.

One of the points he made was that while individuals have the right to vote and are safeguarded with the secret ballot, yet in many subtle ways their votes are influenced by economic conditions; that the man or men from whom the voter gets his bread and butter, in a subtle way, has "got" the voter. He traced the development of conditions from the beginning of American history, and pointed out how the criginal system of letting each the development of the portland strike committee will send a delegate.

STRIKERS RESTATE DEMANDS and are safeguarded with the secret man develop his own business under the system of free competition and no restraints, had left the way open for the growth of many complex and difficult problems.

A satisfactory adjustment of eco-

semic conditions must be worked out, he said, before the United States will

he a true democracy.

Dr. Leoce also said that in the earnest effort to work out practical economic standards and to "fire broadsides" of education at our growing children in the schools with the idea of produc-

The American ideal that has been unconsciously built up, he said, is largely of the successful business man type, and as a nation we are lacking in "heart." and in the quality that neurishes artists and geniuses. Philanthrophy, he said, has been substituted for this deficiency, and Christmas baskets have been depended upon to take care of "the fellow who got left behind."

The doctrine of free competition for The docurine of free competition for mil, with business success as the main ideal and inspiration of the great middle class, he said, is not one designed to produce great artists.

Dr. Rebec concluded with the proph-

by Resec concluded with the proph-ecy that we are just now on the eve of a great upheaval and change in our industrial and aconomic systems, which will bring also a psychological evolution. This will finally result, he predicted, in many beneficial things

## BURLESON SLEEPS, IS VIEW (Continued From First Page.)

pany officials, substantially indorses, in its report, the wage schedule and working conditions for which the "hello girls" have gone on strike. The operators of three years in place of schedule dereeded by the electrical seven.

schedule contended for by the op-

Amendment Is Urged.

On the part of the electrical workers, however, said members of the board, the

The board also strongly urged upon Mayor Baker the necessity for so amending franchise provisions, that power to negotiate settlement of strikes and labor disputes may rest with company officials within the state. It advocated a similar status of authority for officials of labor unions within the state, and declared its belief that such an arrangement would prove an invaluable safeguard to the public welfare.

Seattle Strikers Name Delegates, SEATTLE, Wash, July 8.—Striking electrical workers of Seattle today named John D. Quinn, and the strikers that the strikers washed to the strike the strike to convenient would be safeguard to the public welfare.

Return to Work Opposed.

Union officials strongly oppose the suggestion, made by Burieson, that the strikers return to work pending a settlement of the controversy through the medium of the wire control board. San Francisco officials of the unions have advised them of a similar stand, and have asked that a Portland delegate be sent to that city at once, to contest any such trend of policy.

At strike headquarters of the elec-

trical workers there is heated commen upon the statements made by C. W. Burd, president of the local union, before the last session of the conciliation board, wherein the executive is credited with having declared his unalterable opposition to the strike and to

We refer to that contemplated change for health's sake from coffee to

"There's a Reason"

have styled its sponsors as "bolshe-

Strikers Ran C. W. Hurd.

"It is a comic situation," said E. F. Dodson, publicity agent of the strike committee, "when one of this man's ability tries to throw a hammer into the engine just as the train is so near its destination. The strike is practically won, and all that he may say will have little bearing on the issue.

"I want to say that if there's any bolshevist in our union, I know the man. He is trying to place this organization in the spotlight because things didn't go as he wanted them to. He has said that he is the one man fn 10,000 who would dare take such a stand and make such a statement. It took some 'nerve,' all right, but such men are not called unionists. It appears that he may be looking forward to promotion—say, wire chief."

Strike Vote Held Legal.

In reply to the statements made by President Hurd, each of which is spe-cifically denied, Mr. Dodson declares that the strike tote and action were entirely legal, a d as provided for in the constitution and by-laws of the union. It is desiled that any outside influence brought about the strike. President Hurd's contention that the relephone operators were ordered out on strike in order that the walkout of the girls might influence similar action on the part of the electrical workers is also denied.

workers is also denied.
"They had their orders," said Mr.
Dodson, "and they obeyed them. We
had ours, and we didn't obey them
as soon as we should have. That's all
there is in that situation."
President Hurd's statement that not

more than 15 per cent of the 'phone op-erators are compelled to work for a living is also sharply scored by the strike committee, which places the number at nearer to 80 per cent.

Situation Not Changed.

Locally the strike situation to drag out that stock strike phrase, "remains unchanged." Service is admittedly poor, the company is sitting tight, and there are no indications that either party to the dispute is ready to suggest another conference. Both assert that they have said the last word and made the last concession.

The request from union headquarters at San Francisco, asking that delegates from local unions be sent there with-

rom local unions be sent there without delay, may mean that some sort of conference is to be reopened, admitted T. C. Lowry, business agent of the local union. Mr. Lowry has telegraphed to San Francisco, asking if the request for delegates is made by the international officers, a matter which is not clear in the text of the original.

Joint Explanation Is Made by Operators and Workers.

SAN FRANCISCO, July 8.—The joint ommittee of electrical workers and elephone operators directing the strike n the Pacific coast issued today a restatement of their demands. This was rendered necessary, the committee said, because "those in authority in the east appear to be under a misapprehension as to what our demands arc."

The strike committee's statement

ing citizens who will measure up to a practical average, many of the finer phases of character had been lost, including a real, inborn appreciation of the more spiritual phases of development, as in music, art and poetry.

Heart Interest Lacking.

The American ideal that has been unconsciously built up, he said, is largely of the successful business man type, and as a nation we are lacking in "heart," and in the quality that neurishes artists and geniuses. Philanthrophy, he said, has been substituted for this deficiency, and Christmas baskets have been depended upon to

"The telephone company then made "The telephone company then made the following counter proposition: "That the men should receive \$6 a day to and including December 31, 1920, with no concessions as to other con-ditions and that the operators should

ditions and that the operators should receive a maximum salary of \$19 a week after a period of seven years' service in their agreement to terminate on June 15, 1920.

"This counter proposal was not in any way satisfactory to the strikers. Therefore, on June 28, an ultimatum was delivered to the telephone com-

was delivered to the following points pany stating that the following points would have to be met before the coun-ter proposition could receive any conideration at our hands: Retroactive pay from January 1

workers. Spet. a with that offered by the company, to be effective June 16, will be presented to Mayor Baker without recommendation in the report.

It was felt by members of the board that such radical differences existed between the demands of the phone operators and the offer of the company, as to warrant a specific stand on the part of the board. Hence, the board gave an almost complete inforsement to the schedule contended for by the operators.

Albany Girls Try to Persuade Oper-

ators to Unionize.

CORVALLIS, Or., July 8 .- (Special.) differences between them and their employers were not so radical. For this reason the board hesitated to make a recommendation covering the demands of the linemen.

The board also strongly urged upon accompanied by Miss Hammond, union organizer from Portland, in an effort to persuade Corvallis girls to unionize and join the strike. The visitors pa-

ing telephone operators named Miss Elizabeth Gilley, as their delegates to a conference to be held in San Francisco this week on the telephone strike Both delegates were to leave Seattle tonight.
