"THERE is hope, and joy, and laughter and the sheer happiness of living in 'Better Times'" declared Manager Raleigh of the Columbia theater after reviewing "Better Times," the comedy which will open today at the Columbia theater.

The story is one of home-folks—human beings whom we all know in our everyday life with their virtues and faults, their whimsicalities and eccentricities, and in a refreshing relief from the artificial high-life domestic intrigues, vamp stuff and forced situations. Nancy Scroggs, the girl who would be an optimist in spite of everything; Old Ezra Scroggs, the prize pessimist; Mrs. Whittaker who ran everything, including her husband; the sophisticated big-city card-shark; the "Most Suspicious Girl"; and the conglomerate of quaint small-town characters, might have stepped out of James Whitcomb Riley's yarns.

There is a delightful comedy vein throughout the story, and a tender romance which grips the heart with its pathos and sincerity. Zasu Pitts, who portrays "Nancy Scroggs," has a remarkably original individuality which fits the role to perfection. Miss Pitts will be remembered for her unique characterization of the pathetic "Slavey" with Mary Pickford in "The Little Princess."

Screen Gossip. Charles Ray has commenced work on another picture by Julien Josephson, author of most of his successes. The working title of this picture is "A Man's Money."

Kate Douglas Wiggin, famous writer, is author of "Rose of the River," the new picture starring Lila Lee. Miss Lee plays a beautiful character part in the role of a 17-year-old girl whose romance, started in a game of "post-office," ends happily. Will M. Ritchey did the scenario, while Robert Thornby was the director.

"Pedigree Potatoes," a new pictograph, shows the civilization of the rugged spuds on one of the world's greatest potato farms. High in the Colorado mountains two farmers have succeeded in growing potatoes on a tremendous scale—eight pounds to the hill.

Mark M. Dintzer, of Fallsdale, N. J., a member of the board of directors of United Picture Productions corporation, is a candidate for the New Jersey governorship on the single tax ticket. Mr. Dintzer's petition to be placed on the election ticket for November, filed with the secretary of state, contains 1200 signatures.

"The Better Wife," which is presented by Clara Kimball Young and her own company is described as the story of an American girl's romance in England and the continent. "The Better Wife" will be released during this month.

"Give me a part that offers me a fighting chance, then build up the other parts as much as they will stand, get the best actors you can engage to play them, make them give you the best that is in them, and it's up to me to prove that I am the star of the picture. If we haven't something to make us tend ourselves to the utmost, we all go stale." These words are Florence Reed's.

Work will begin next week on the making of the big spectacular drama, "Americanism vs. Bolshevism," the theme of which has been endorsed by senators, governors, labor leaders, et al. The scenario was written by C. Gardner Sullivan, author of "Civilization."

A peculiar coincidence occurred in filming scenes for a Charles Ray picture, which will be released soon. The opening scenes were to be taken in an iron works where the film was being made, commented on the fact that here came together the oldest and the newest enterprises in the world.

The motion picture rights to "A Damsel in Distress," a story by P. G. Wodehouse now running serially in the Saturday Evening Post, have been acquired by the Albert Capellani Productions, Inc. June Capleton and Creighton Hale, who have just completed work in "The Unknown Dancer," will co-star in the new picture.

The ubiquitous servant problem finds its solution in "Welcome Little Stranger," James Montgomery Flagg's newest Paramount-Flagg comedy.

Dorothy Gish has quadrupled her popularity with film fans in recent months. If the volume of her mail is any criterion, in August, 1918, she received 1234 letters from admirers in every part of the country and in March the total was 4518.

Enid Bennett has completed work on "The Way Miss Fortesque" and is taking a two weeks' vacation—that is,

HARVEY WELLS RESIGNS INSURANCE COMMISSIONER TO RE-ENTER BUSINESS.

Office to Be Relinquished When Successor Is Chosen; Conference Held With Governor.

Salem, Or., July 8.—(Special.)—Harvey Wells, state insurance commissioner and fire marshal, today tendered his resignation to Governor Olcott to become effective as soon as the executive can procure his successor. It is expected that the governor will announce his appointment within the next few days. Mr. Wells announced his resignation following a conference with the governor this afternoon. He said nothing of a political nature was connected with his resignation and referred to the fact that only a few weeks ago Governor Olcott had asked him to remain in the insurance department throughout his term of office.

Mr. Wells said he would go to Portland as soon as his successor takes hold of the work, where he will engage in the general insurance business with his father in the Chamber of Commerce building. Mr. Wells was appointed insurance commissioner by the late Governor Withycombe in January, 1914. Previous to that time he was in the insurance business in Portland.

COURT ORDERS NEW TRIAL Sheriff and Deputy at Spokane Win Appeal at Olympia.

Olympia, Wash., July 8.—(Special.)—Sheriff George L. Reid and Deputy J. S. Bradley of Spokane have been granted a new trial by the supreme court on appeal against a verdict for \$4000 given by a jury to the widow Coldeen. Reversal is ordered on exclusion of certain testimony by the trial court. Coldeen was killed presumably by a bullet fired by Deputy Bradley while the latter was pursuing an auto it was alleged Coldeen and a companion had taken in Spokane for a night ride. Deputy Bradley claimed he fired to puncture the tire when Coldeen wouldn't stop. Bradley denied that the bullet he fired could have struck Coldeen, even in grazing. No ruling is made as to a sheriff's liability on his bond in such instances.

PROJECT'S FUNDS ON HAND Work in West Umatilla Must Be Started in Eight Days.

Pendleton, Or., July 8.—(Special.)—Ninety thousand dollars, the first money received to complete a 12,000-foot tunnel construction of the Teel Irrigation project, which is to water 20,000 acres in the west end of Umatilla county, was deposited today with the county treasurer by J. Frank Spinning, a director of the company. The bonds recently were sold for \$90,000 to complete a 12,000-foot tunnel which is the first unit of the work. Most of the machinery is on the ground and a crew will be started from each end of the project. A sawmill with a capacity of 75,000 feet will be constructed to take care of the timber needs. Under the contract, work must be started within eight days.

FINN BEAT ALASKA GOLD Illinois Professor on Size of Salmon Industry.

Seattle, Wash., July 8.—Alaska's fish, according to government statistics, will bring more than the territory's gold deposits, according to Professor Henry Henshaw, of the department of zoology of the University of Illinois, Champaign, Ill., who arrived here today on his way to Alaska on a mission for the U. S. bureau of fisheries. Salmon caught in Alaska waters last year brought \$31,000,000 wholesale at the northern canneries, Professor Ward said.

Centralia, Wash., July 8.—(Special.)—A new high record in Centralia's bank deposits was made June 30, statements published by the three banks yesterday following the call of the state bank examiner showing total deposits of \$2,269,999.81. This is a gain of \$53,891.69 over the total deposits of May 17, the date of the last call.

Y. M. C. A. Man Killed in Plane Fall Prague, July 7.—James Ceary, a secretary of the American Y. M. C. A., was killed and an Italian aviator injured when a machine in which they were flying over the Wysehead bridge fell today. The pilot was doing circus tricks with the airplane and Ceary operating a moving picture apparatus, when the plane fell and was wrecked.

OREGON MAN SAYS RHEUMACHOL GAVE DESIRED RESULTS

Beaverton Rheumatist Declares That He Is More Than Satisfied.

Buy Bottle of Wonder Remedy For Neighbor.

"I want two more bottles of RHEUMACHOL," says William S. Tucker, Beaverton, Oregon.

"THE RESULTS OBTAINED FROM THE BOTTLE I RECEIVED ARE COUPLE OF WEEKS AGO, WERE FAR BEYOND ANYTHING I EXPECTED. However, I think I should take another bottle and also want one for a neighbor."

"I will be glad indeed to let you know how we both get along."

Mr. Tucker's experience with Rheumachol is akin to the experience of other sufferers from rheumatism, gout, lumbago, and like ailments. He, like many thousands of others who have taken Rheumachol, does not hesitate to pass on this wonder remedy to their friends, who may be afflicted with rheumatism.

There is the case of J. J. Burns, Homestead, Oregon, who was told of the wonder remedy by a man who has testified ere this to its value as a curative.

"Mr. Short told me that you had some wonderful medicine for rheumatism," wrote Mr. Burns. "I am very much troubled with rheumatism, and want some of this remedy at once. Please direct me to your druggist here, or near here."

WANTS MORE RHEUMACHOL.

"Send me two more bottles of Rheumachol, or advise me what druggist handles it here," writes Mrs. J. Mammann, 1236 12th street, San Diego, California. "The one bottle I took gave instant relief, and I know a sure cure will come if I take a few more doses."

The patrons named herein all purchased Rheumachol under guarantee. Every sale is made in this manner, the manufacturer standing back of the druggist's guarantee to his patrons. Not a single buyer of Rheumachol has requested a return of money paid for this wonder remedy. Instead, as noted above, every patron who has purchased Rheumachol orders more from his druggist, in order that he or she may pass it on to fellow sufferers.

The merit of Rheumachol is attested by reason of satisfied patrons, and their constant flow of repeat orders to druggists. No rheumatic victim can afford to do without Rheumachol, if he would DESTROY the CAUSE of his rheumatism.

INSANITY TO BE DEFENSE HARRY S. NEW, SLAYER OF FIANCEE, SEES ALIENISTS.

Autopsy on Victim's Body Performed With Physician for Defendant Also Present.

Los Angeles, July 8.—Following an autopsy and inquest over the body of Frieda Lesser, his fiancée, whom he admits he slew at a lonely spot in Topanga canyon, near here, last Friday night, Harry S. New, who claims to be the son of United States Senator Harry S. New of Indiana, was arraigned in justice court late today on a charge of first degree murder. He will be given a preliminary examination next Monday.

Although County Autopsy Surgeon A. P. Wagner failed to include in his report any mention of whether the young woman was on the way to motherhood, Dr. A. O. Sawyer, a physician retained by New's attorney, John Richardson, after making an examination of the body in Dr. Wagner's presence, declared that such was the case.

New says Miss Lesser told him that she was about to become the mother of his child, and that instead of marrying him, as he said she had promised, she was going to have a surgical operation performed. When she told him this, he says, it angered him so he shot her.

In view of Attorney Richardson's announcement yesterday that New's defense in all probability would be temporary insanity, several alienists, representing both the district attorney's

office and New, visited him in his cell in the city jail today.

Hay Harvest Starts Near Kelso. Kelson, Wash., July 8.—(Special.)—With the Fourth of July past Cowlitz county farmers started their haying with a rush today. A heavy shower yesterday made prospects seem dark for the hay-makers, but today the sun shone brightly. The unusually heavy spring rainfall has produced a tremendous growth of hay this season and farmers will cut their heaviest crop in years. Some of the farmers grow a combination of grain and vetch which will fill their silos.

BLUMAUER-FRANK WILL DISTRIBUTE RHEUMACHOL HERE

Drug Jobbers to Handle Rheumatic Remedy From Heart of Rocky Mountains.

Blumauer-Frank Drug Co. of Portland will handle RHEUMACHOL, the Rheumachol Laboratories, in the territory covered by them in catering to the retail druggists. They have been selected as jobbers by Henry M. Machol, president of the Rheumachol Laboratories Company, Leslie J. Wilson, vice-president and sales manager of Rheumachol Laboratories, is making a stay of ten days in Oregon, and is contemplating plans for the intensive advertising of Rheumachol, the specific for rheumatism and kindred ailments, compounded at Idaho Springs, Colorado.

"The story of RHEUMACHOL will be told in The Portland OREGONIAN and leading country weeklies and dailies in Oregon," says Mr. Wilson. "We shall endeavor to draw with the public in a manner that will tend to increase the confidence in RHEUMACHOL. We shall set forth what we believe to be a story of human interest. RHEUMACHOL comes from a mountain haven for those who suffer from rheumatism, gout, lumbago, sciatica, indigestion, and other ailments and maladies of a kind induced by uric or lactic acid in the blood.

"There, in the high, pure atmosphere of 8000 feet, and in the very heart of the Rocky Mountains, is RHEUMACHOL. It is the purest of all. There, where hot and cold mineral springs flow forth from rocky crags, and have as their fount of life, snow and continental divide, we believe we have brought about a perfect blend of Nature and Science."

"Thousands of rheumatic victims journey to Idaho Springs each year, there to partake of what nature offers as a curative. Other thousands find relief and more, according to testimonials which will appear in this space at later dates, by taking RHEUMACHOL, or by purchasing this remedy from dealers who are listed in our advertising.

"Mr. Machol and myself believe we have the one true internal remedy for rheumatism and like ailments. It is indeed proved powerful by attested testimonials of those who have taken it. RHEUMACHOL does not leave any harmful effects upon the system, but, instead, cleanses the kidneys and ejects the poisons that cause rheumatism. IT DESTROYS every vestige of poison, breaks down the CAUSE of rheumatism and leaves in place a purified organism that stimulates future health.

"In the rain belts and in irrigated farm territory RHEUMACHOL is essential. Those who must labor in ditched fields and be wetted, head and shoulders, and inflammatory rheumatism have testified to the value of RHEUMACHOL. Those whom rheumatism visited and afflicted, following influenza, and there have been thousands, who have been cured, after taking RHEUMACHOL, testified to a cure. These testimonials, many from Oregon, Washington and Idaho, will appear later in these advertisements.

"RHEUMACHOL will be sold across the drug store counters under the manufacturer's guarantee. RHEUMACHOL is not a costly remedy. We ask no trial, nor give no samples. We KNOW its value, its merit and its effectiveness. We know the cardinal virtues of RHEUMACHOL, so well that we DEMAND that our dealers sell it under our guarantee. No financial transaction is considered closed until the ultimate consumer is satisfied. Thus do we sell RHEUMACHOL.

"There is no need to suffer when RHEUMACHOL is at hand for \$1.00 a bottle, and sold under GUARANTEE."
