BUTCHERS TO FACE COURT

STATE FOOD COMMISSION CON-DUCTS CAMPAIGN.

Adulterated Sausage, Not Properly Marked, Reported to Be Sold in Many Markets.

A campaign against butchers who are making and selling adulterated sausage has been begun by J. D. Mickle, state dairy and food commissioner. Many butchers have been taking advantage of the deniency that was shown them during the war, when food conservation was necessary; but Mr. Mickle proposes that they live up to the strict definition of the law now.

Several cases have already been tried and today J. Nudelmann and the managers of the Albina Dressed Beef company will answer to complaints in the district court. Mr. Mickle has obtained evidence against seven or eight butchers, and when he is through with them he will take up the cases of several restaurant proprietors who have been putting bread crumbs and other articles in bulk sausage to make it go farther. The butchers are accused of adulterating their sausage with potato flour and failing to label it as such. They are permitted to put in 2 per cent of this ingredient but the fact must be stated in a plainly posted placard. With more than 2 per cent of potato flour it censes to be sausage, according to law. The illegal use of sodium sulphide as a preservative in some of the sausage is also charged. Several cases have already been tried
