

LISTLESS ON EVE OF CELEBRATION

Peace Demonstration Fails to Rouse Enthusiasm.

WAR EFFECTS STILL FELT

Hard Conditions Brought About by Conflict Still Present and Exert Restraining Effect.

BY JAMES M. TUOHY.

LONDON, July 18.—(Special Wireless.)—Listlessness, impeded by condemnation of the celebrations, for all involving a waste of money and the diversion of effort urgently needed in useful purposes, sums up the generally popular attitude toward the peace celebration here tomorrow.

The first essential to a genuine peace demonstration is the conviction that the blessings of peace have been restored. There is no such conviction, nor could there be, seeing that the only difference London notes is the stoppage of warlike operations.

All the other features of war—high prices, shortage of necessities, profiteering on every side—now actually are more acutely felt than ever. The threatening cloud of labor unrest which has ominous shadows at this moment, with the question of a railway strike, followed, possibly, by a general strike, actually hanging in the balance, adds to the gloom, for it is no longer a novelty; it has grown state in the making.

Half-hearted Spirit Noted. Vast crowds will assemble, as they always do in a great city on a general holiday, but there is none of the anticipatory excitement which has preceded other great professional shows.

London spontaneously expressed its thanksgiving for this peaceful peace in armistice night and in its reception of the returning guards. Since then, in common with the rest of the country, it has only been learning how little difference there is in the balance of war and peace. The decorations reveal the half-hearted spirit in which London is entering upon these celebrations. The amount spent on the official decorations is three or four times as much as for former state parades, but the householders have not so many decorations as for former state parades, but the householders have not so many decorations as for former state parades.

Nor does the greater part of the route of the procession lend itself to decorative treatment, for it passes through some of the most unlovely thoroughfares of London's inner suburbs. This is one of the most commendable features of the whole show, for it is a recognition that the denseness of these mean streets makes the greatest sacrifices during the war, and consequently feel their evils most keenly.

Window Seat Prices Slump. A significant slump has taken place in the prices asked for window seats on the route and the outrageous demands originally made of from \$150 to \$250 per window have dwindled to \$45 or \$100 and the seats will be easily obtainable for less tomorrow probably. The military and naval parade necessarily must be stirring and brilliant but has not the same interest as it will be viewed most chequered by many thoughts inimical to real joy.

A cenotaph of majestic and dignified design has been erected in Whitehall for tomorrow's celebration. This empty tomb commemorates, as its simple inscription, written in the stately letters of gold, declares "The Glorious Dead." Watchful sentries with arms reversed will mount guard at its four corners. The hands in the parade stop here today by Rev. David Lee, general manager of the Korean National association, who said the dead and wounded soldiers and sailors of the Korean independent rule vastly exceeded either estimate.

Statement from the Japanese embassy, April 24 gave: Koreans killed, 351; Koreans wounded, 735. The council of churches' statement July 15 said: Killed, 561; wounded, 560; Koreans in prison, 6000. "The actual number of Koreans killed up to the period mentioned in the council of churches' statement is 20,000," Rev. Mr. Lee said, "and the wounded number 20,000. Thirty thousand Koreans are in jail and those released from jail after suffering beatings on three successive days number 31,000."

French Government in Majority. PARIS, July 18.—(By the Associated Press.)—In view of the chamber of deputies this evening, following interpellations on the high cost of living, the government was in the minority by 14 votes.

The issue arose over the order of the day. The government accepted that the Chamber should have implicit confidence in the government, but the chamber adopted by a vote of 227 to 215 a resolution presented by M. Angerand, former minister of mining, which the government had recommended.

"Council" Withdraws Bonds. TACOMA, July 18.—L. J. Jefferson, who with W. R. and J. C. others was recently convicted here of criminal conspiracy in connection with a tag day sale attempted by the Tacoma Branch of the National Automobile council, was today returned to the county jail here when the Seattle branch of the council asked to withdraw \$250 deposited as bond pending appeal for a new trial. A bench warrant was also issued for him, as the Seattle branch of the council, which returned a \$250 deposited as bond for him, it was said.

Suffrage Bill Opposed in Paris. PARIS, July 18.—The electoral committee of the senate decided today to report unfavorably the bill adopted by the chamber of deputies giving the vote to women.

COLLEGE TRAVELERS ARRIVE AT MEDFORD

Trip From Central Oregon, Is Made via Crater Lake.

ROADS FOUND EXCELLENT

University Girls as Waitresses at Mountain Resort Add to Charm of Welcome.

BY ADDISON BENNETT.

MEDFORD, Or., July 18.—(Special.)—President W. J. Kerr and five members of the board of regents of the Oregon Agricultural college arrived here about 4 o'clock this afternoon and spent the time until dark in making the Southern Oregon experiment station near Talent. The party is prepared for an early start for their homes tomorrow morning, except Robert Von der Hellen, who is now at his home near this city.

The party was banqueted at Bend. Their hostesses being the farmers club of Deschutes county, Fred Wallace, director of the Tumalo project, being its president. Covers were laid for 15 and the hosts embraced many of the prominent folk of that county and several of the leading citizens of Bend, including C. H. Hudson, president of the First National bank; Pat Mahaffey, cashier of the Central Oregon bank; County Judge Barnes and other active citizens of that most active town.

Bend is Entertaining. Bend is one of the finest, as well as the newest, of all Oregon cities. A half dozen years ago it was a desolate, climate, horned toads and few, very few, people with visions of a city beautiful and a city prosperous. Today it is a city of 10,000 people, with all the amenities of a city of that size. It is a city of the future, and it is a city of the present.

Wounded Men Are Home. HOBOKEN TO CAMP MERRITT. Injured Veterans of Archangel Campaign Carried to New York on Northern Pacific.

NEW YORK, July 18.—Two hundred and sixty sick and wounded soldiers who arrived here from Brest today on the Northern Pacific were transported from the army pier at Hoboken to Camp Merritt, where they will be treated. Heretofore ambulances have been used.

Casuals Entertained Here. Westerners Enjoy Receptions Along Route to Camp Lewis.

WESTERNERS ENJOY RECEPTIONS ALONG ROUTE TO CAMP LEWIS. "We have been receiving splendid treatment along the route," said one of the party who looked over the rim from the hotel veranda with its Phantom ship and toy island, they stood in rapture, silent and awed.

COREANS SUFFER HEAVILY. Number of Killed Placed at 7000, Wounded at 20,000.

SAN FRANCISCO, July 18.—Seeming sympathy between figures covering Korean casualties given out by the Japanese embassy at Washington and by the federal council of the churches in America were noted here today by Rev. David Lee, general manager of the Korean National association, who said the dead and wounded soldiers and sailors of the Korean independent rule vastly exceeded either estimate.

STRIKES BRING EMBARGO

ATLANTIC COAST FREIGHT TRAFFIC BADLY HAMPERED.

NEW YORK, July 18.—A freight embargo on coastwise traffic was announced today by the coastwise steamship companies, along the order of Walter P. Reuther, secretary of the International Seaman's union, and American Steamship association, as a result of the strike of seamen and engineers along the Atlantic and Gulf coasts.

ATLANTIC COAST FREIGHT TRAFFIC BADLY HAMPERED. General Tiemp of Country's Shipping Is Predicted by Secretary of the Seamen's Union.

remained in bed. He did not get up even for his meals. His illness, however, is understood to be of a very slight character.

LONDON, July 18.—The former German crown princess Cecilie, will visit the island of Wieringen, where the former crown prince is living. It was semi-officially announced today at The Hague, according to a Central News dispatch.

Divorce proceedings were said to have been begun by the former Princess Cecilie in April, according to a Zurich dispatch. There has been nothing to show, however, that papers in the case ever were filed.

Earlier dispatches from Berlin to Zurich reported the former crown prince had begun divorce proceedings, but this also has remained unconfirmed.

As a means of preventing the spread of smallpox in Oregon, the state board of health has just issued an order requiring that all persons presenting evidence of any skin disease which might be suspected of being smallpox must submit to a health examination by the health authorities before being allowed to purchase transportation on any of the railroads out of Portland.

This action has been taken as a result of a smallpox case which was uncovered by County Physician Shoemaker of Douglas county. It was found that a person suffering from smallpox had eluded the health authorities in Portland and had boarded the train for California. At Roseburg Dr. Shoemaker discovered the person and removed him from the train, quarantined the train crew and fumigated the car.

In order to avoid a repetition of such an incident, which exposed the traveling public to the disease, the board of health has issued the order to J. P. O'Brien, head of the Oregon division of the United States railroad administration.

"At the present time, Portland is the distributing center for smallpox for this state, and therefore this order should be immediately set into effect for the trains mentioned," said Dr. Rosenberg, in explaining the new order. "Later it may be necessary to have similar orders issued throughout all the towns in the state."

The board of health also requires that all railroad employees who come in contact with persons infected with smallpox must submit to vaccination. It is said that a number of cases of the disease have already developed among railroad employes.

The railroad administration has announced it will cooperate with the board of health.

NEW YORK, July 18.—A freight embargo on coastwise traffic was announced today by the coastwise steamship companies, along the order of Walter P. Reuther, secretary of the International Seaman's union, and American Steamship association, as a result of the strike of seamen and engineers along the Atlantic and Gulf coasts.

The order for the embargo was forwarded to shipping points by the United States railroad administration.

The marine strikers' demands were discussed for three hours this afternoon at a conference between committees representing the International Seamen's union and American Steamship association, which the officers of a committee informed the labor leaders the terms would be taken under advisement and presented to the full membership of the union leaders.

The embargo has been freshened for several days as a consequence of the rapid increase in the quantities of freight, much of it perishable, at Atlantic and Gulf ports through the tying up of ships by the strikers. G. H. Brown, secretary of the seamen's union, claimed today that the entire shipping of the country would be virtually tied up within two weeks if the struggle continued.

The deorganization of the merchant service through sailors deserting the coast for the harvest fields also was a charge of union leaders. They asserted that seamen were leaving this port in droves for the farms, where they had a better time of it, \$5 and \$6 a day with board and lodging.

The renewal of disturbances today, with an attack on a Powery employe of the Coos county circuit court on the office was recruiting strikebreakers, stirred the police to greater vigilance along the waterfront.

Coos River Forest Fire Controlled. MARSHFIELD, Or., July 18.—(Special.)—Coos river residents in the vicinity of the south Coos river hatchery fought a forest fire for two days before they succeeded in extinguishing it. A number of women lent assistance by carrying food to the fighters, and today it was announced that the danger had passed.
