Many informal affairs are being given this week in honor of Miss Virginia Margaret Mackenzie, who will leave Tuesday for San Francisco on her way to Japan, to do missionary work. Miss Mackenzie is being sent out by the Presbyterian board of foreign missions of the United States, under the women's north Pacific board...

Miss Mackenzie was born in Scotland but removed with her parents to Portland about 11 years ago. She graduated from Lincoln high school and Reed college, and thereafter was assistant in the departments of classics and English at Reed for two years. A year as principal of the Sandy high school further fitted her for her position as a teacher to which she will probably be assigned.

Miss Mackenzie is one of 125 who will sail soon for various stations in distant parts of the world. She attended in June a week's conference for outgoing missionaries at the board building in New York city. After visiting college friends, she returned to Portland to say farewell before leaving for the sea, where of service rendered by the field before a furlough is granted.

She is the sister of Lieutenant Alexander Mackenzie of the 23rd Infantry Highlanders, who, after fighting valiantly on the Arras front, endured 16 months' imprisonment in German camps, and of Lieutenant George F. Mackenzie, who was in service at Camp Lewis, Pike and Sherman.

POLICE SOON TO GO TO SCHOOL IS PAID

Bluecoats Will Be Instructed as to Many Duties.

LAWYERS TO BE MADE PLAIN

Mayor Baker Approves Scheme of Lessons, Such as Are Given in Many Other Big Cities.

Establishment of a police officers' school for both old and new members of the Portland police bureau has been decided upon by Mayor Baker, who yesterday assigned Deputy City Attorney Hindman to the task of collecting information on police school work in other cities.

Portland has never had a police school which had for its object anything but ordinary training for new police officers. In many of the leading cities of this country all police officers are compelled to attend classes at various times of the year in order to be familiar with city ordinances and other matters vital to law enforcement.

Next month approximately 100 officers will be added to the police department, and it will be necessary to give all of these men information concerning duties in handling the public and carrying out the duties of police officers.

Constant amendment of city ordinances has made it virtually impossible for police officers to keep in touch with the laws upon their own initiative. Mayor Baker plans that both new ordinances and amendments to existing ordinances shall be made clear to police officers, both old and new, through the police school.

Mayor Baker's decision to establish a first-class police school comes following investigations carried on by Mr. Hindman, who has reported to Mayor Baker that it is impossible to obtain 100 per cent efficiency under present methods.

Mayor Baker is confident, he said yesterday, that it is impossible for him to be responsible for every act of every police officer, but that with the police school in operation such improvement may be obtained.

Under the general plan decided upon, police officers will attend classes on city time. Law enforcement, interpretation of ordinances, the rights of individuals, first aid and general police duties will be handled in the school by competent authorities.

It will probably be 30 days before Mr. Hindman will have his plans in connection with the school completed and his report made to Mayor Baker.

Women's Activities

CAPTAIN W. J. HINDLEY, former mayor of Spokane and now a speaker on a Chataqua circuit, addressed the Women's Advertising club yesterday at luncheon in the rose room of the Benson hotel. Captain Hindley received his rank as one of the organizers of a regiment in Winnipeg during the war.

Hindley emphasized the fact that women must demand as high salaries as men when they fill men's positions. He said that with the rise in prices should come a rise in salaries for both men and women. He also spoke most decidedly against I. W. W. and bolshevik movements, and blamed the profiteers for the existence of such radical elements. The profiteers should be sentenced along with the I. W. W. and the "red," he said.
