Attitude of Voters on Recently Proposed Issues Held Antagonistic to State Progress.

If a special session of the legislature is called by the governor and there is no assurance that one will be called, a resolution will be introduced to refer to the people the proposal of trans-

to the people the proposal of trans-ferring the state capital from Salem to Portland.

Considerable sentiment has been ex-pressed by some members of the legis-lature against Salem and Marion county. This feeling has been voiced by eastern Oregon men, other than members of the house or senate. The way Marion's county voted in the special election, June 3, on the reconstruction pro-gramme aroused the antagonism of eastern and central Oregon in partic-

Marion county voters took a negative instead of an affirmative position right down the lime. Measures intended to aid returned soldiers met with opposition from Marion county.

Own Roads Favored.

On the other hand, Marion county bonded itself for \$800,000 for hard-surfacing roads within its borders, and may spend some of this money next year. The county voted against the \$5,000,000 road bond issue in 1917, although \$1,000,000 is being spent by the state highway commission on the Pacific highway through that county. So far, the only reason assigned for a special session is to take up the matter of the ratification of the woman's suffrage amendment to the federal constitution. If the legislature convenes, however, its work cannot be limited to that or any other thing, for once in

Six men in two automobiles held up Mills, beating him badly and taking the fluguer, it was stated. Officers from Thompson Falls and Trout Creek fired a number of shots in an effort to stop the alleged robbers, who returned the fire. Two of the men were arrested at Clark's Fork and the other four took to the hills near the Idaho line. They were being sought by a posse.

Representative A. R. Hunter and Senator Walter M. Pierce, both of Union county, also have written letters to Governor Olcott requesting that a special session of the legislature be called to ratify the woman's suffrage amendment. Representative Hunter says: "I am very busy but would gladly waive my per diem and mileage and give two or three days to the cause."
