OF CHIEF interest on the social calendar today is the Arts and Crafts tea to be given at the noon from 4 to 6 o'clock at the studio of Mrs. Lee Hoffman on the Barnes road. An interesting exhibit of patchwork quilts of the colonial period will be on display. They will be exhibited in a talk on the history and evolution of the quilt with many sidelights on our great-grandmothers' days.

Many small parties are made up for the tea hour, since the artistic studio formally closes place to take guests and affords opportunity for a chat with congenial friends, besides aiding a popular cause. The tea is given for the educational work of the society. No special invitations are issued and everyone interested is welcome. Street cars will be waiting at 5 and 6 o'clock on Washington at the half hour.

Many Contractors Too Busy. It will consume all the forenoon today opening bids and the awards will probably not be made before tomorrow morning. Most of the contractors who are following the road construction are "loaded up" on work and this may affect the bidding, with a tendency to tilt prices. But if the commissions are the opinion, the bids are unreasonable the offers will be rejected. Of the work to be let only a part of it can be completed by the end of the year, owing to the season being advanced and the contractors now working having their organization busy. The jobs have been scattered over the geography of the state. They include work on the John Day highway, the Old Oregon Trail, the Oregon coast highway, the Forest Grove-McMinnville highway, the west side Pacific highway, the Pacific highway, the Columbia highway and the Dalles to California highway. All told, there are approximately 114 miles of grading and macadam advertising for and 26 miles of paving. In addition to which bids have been solicited on a number of bridges and culverts.
