A MESSAGE TO AUTOMOBILE BUYERS.

I have just returned from a business trip that took me to practically all the leading cities in the states of Oregon. Washington and Idaho and I found a condition existing in each and every one of these towns identically the same as confronts us right here at home. This condition I speak of pertains to the demand and supply of automobiles both new and used. I talked with at least 150 dealers on this trip and found only three or four who had been promised any deliveries on new care before September or October, and then only a carload with probably another wait of two, three or four months, after that time before any more deliveries could be expected. The used car situation between more serious than the new. I have been making the territory about once a month for fite past 6 or 8 months for the sole purpose of buying used cars, and sach trip I have found them getting scarcer and prices advancing so rapidly that it is practically impossible to get desitable used cars at any price. In several places I visited 4 found used car buyers from all over the coast grabbing any kind of used cars they could get and in several instances paying higher prices for cars than they originally sold for when new. I have heard a lot of talk about the shortage of cars but never realized the seriousness of the situation until this receibtrip, and I want to tell you right here folks, there are a lot more of you who have been contempiating the purchase of a car but never a sea devancing rapidly and will continue to do so for the next 2 or 5 years to come. Now is the right time and the only time to buy that used car. My stock is the largest and best in the original way to be and convenient terms can be had if you do not wish to pay all canh.

Shake that moss off your back and pet pointed towards No. 12 Grand are North. A MESSAGE TO AUTOMOBILE BUYERS Shake that moss off your back and get pointed towards No. 12 Grand ave.
