

SOLONS NOT KEEN FOR EXTRA SESSION

Only One-Third of Members Pledge Attendance.

BUCK PASSED TO GOVERNOR

Many Are Silent as to Whether New Legislation Should Be Submitted After Ratification.

SALEM, Or., Aug. 6.—(Special)—Twenty-four representatives and 21 senators, representing slightly more than one-third the combined strength of both houses of the legislature, have written Governor Orin regarding a special session to ratify the woman's suffrage amendment to the federal constitution.

Of these legislators Representative A. A. Smith of Baker is the only one who has come out openly in opposition to the session. Although with one or two exceptions, the members have agreed to waive mileage and salary and attend, not a few of them have refused to make any pledge when their work would be confined strictly to consideration of the suffrage amendment. In several instances they refer to alleged defects in the proposed highway law and other legislation passed at the last session of the lawmakers and express a desire that these acts be corrected.

Back Passed to Governor. A number of the legislators, after agreeing to waive mileage and salary and confine their work to ratifying the suffrage amendment, conclude by stating that if the governor consents to a proposed session of sufficient importance to issue a call they will attend. It is not believed the letters from these legislators will be considered as a direct request for a special session for the reason they shift responsibility back to the governor.

Senators and representatives writing regarding the special session follow:

How to Lose Your Tan, Freckles or Redness. A day's exposure to afternoon sun on the face, neck or body, or on the beach or exposure in a lake, often brings on a deep tan or vivid crimson or more pronounced skin, which is a crop of freckles. A very necessary skin treatment is mercurochrome, which removes tan, redness or freckles quite easily. It literally peels off the affected skin—just a little at a time, so there's no hurt or injury. As the skin comes off in almost invisible flakes, you see no trace of the treatment is shown. Freckles or a crop of mercurochrome, as you would call it, washes it off. In a week or so you will have clear, transparent and of a most delicate white skin.—Adv.

suffrage amendment to the federal constitution, without compensation, is but to belittle the importance of the question at issue. It is the opinion expressed by M. D. Shanks, senator from Gilliam, Sherman and Wheeler counties, in a letter recd. at the executive offices here today.

"Frankly, I believe that the matter of ratifying the suffrage amendment is of sufficient importance to justify calling of a special session, but I also think that if it is of sufficient importance to justify 90 members of the legislature going to their time and money to go to Salem at their own expense, it is of sufficient importance to justify the expense of the session being borne by the state at large."

Senator F. H. Porter of Linn county writes: "I am in favor of their paying their own way to the capital of Oregon and have been gratified with the results. I believe that suffrage should be adopted nationally. If the special session was for the purpose of correcting errors made in legislation passed at the last session of the lawmakers, I would be in favor of them paying their own way, but since it is a new proposition, I believe the state should defray the costs of the session."

The Women's Mission Council, Republican Study club has added its approval of a special session, and has so informed Governor Orin.
