AUSTRALIANS MAKE RECORD

WIS., IS PORTLAND VISITOR .. BY WILLIAM T. ELLIS. Miss Irma A. Trester Tours Pacific

(Copyright by the New York Hersid Com-pany. All rights reserved.) EGYPT.—The most important of all the discoveries of the last five years in Egypt and the entire near east has been—Australia! Out here in the oldest Luncheon Held at Benson.

An American soldier's child, who had lived in Germany since his sixth birthday, was on his way back to Texas, knowing not one word of English. There were also the usual warbelength of the control of the co

giants from the unknown land beneath the Southern Cross. Vagueity, the world has beard that the Anzacs—for when I write of Australians, I would include always their kindred New Zealand comrades—fought nobly at Gallipoli and in Palestine and in Egypt; when the full story appears it will be a thilling revelation.

Lieutenant-Colonel Walter Whitcomb was a speaker at the weekly luncheon of the club at the Benson hotel, after having served overseas in France, Belgium, Germany and even including a short period in Africa. He was warmly welcomed by fellow members.

Will P. Green, organization secretary of the vigilance committee of the associated advertising clubs of the world, entertained with an address replete with information for the business men. J. A. Currey, manager of the Trucson Steel company, talked on "Business and Hobbies." William J. Lyons, manager of the American Surety company, spoke on "Suretyship," and Jacques Willis, secretary of the National Tank & Pipe company, entertained with a short talk. Hero Tales From Historic Soil, Point for point, it will outmatch the classic tales. What was Marathon compared with the ride of a wounded Australian, with one leg and one arm off, on horseback, across 40 miles of terrible desert? All the wounded in one Palestine hattle got to medical aid only after this incredible experience.

The public has heard whispers of how the Arabs of the Shereefian or Hejaz

the Arabs of the Shereefian or Hejaz forces captured Damascus; but it does not knew that the Australian light horse troopers had the city surrounded, waiting for the Arabs to come up, because ordered to do so.

In the first battle of Gaza—one of the mysterious disasters of the war about which still further explaining will have to be done—the British troops were ordered to retire after the city had been surrounded and the victory had been practically won. A considerable force of the Australians retired right straight through the city, stopping within the walls for a time!

That is typical of these "wild Australians," They prefer the audacious deed. Nobody has to urge them into action; but they are the very demons to hold Money That Formerely Went Over
