

THRACE DEADLOCKS
PEACE CONFERENCE

American Mission Proposes
Creation of "Wilsonia."

GREECE OPPOSES PLAN

Premier Venizelos Reported in Ap-
peal to Wilson to Settle
Territorial Dispute.

BY LINCOLN EYRE.

(Copyright by the New York World. Pub-
lished by arrangement.)
PARIS, Aug. 15.—(Special Cable.)—A
complete deadlock set in at the peace
conference regarding Thrace. After
months of discussion the American
peace mission is attempting to solve
the delicate problem by proposing the
division of Thrace between Bulgaria
and Greece, while one strip would re-
main independent under the protection
of the league of nations.

It has been suggested that this strip
should be called "Wilsonia," if the Ameri-
can plans work out. So far Greece is
opposed to the division of Thrace.

The United States mission's plan is
that the territory of Thrace from the
Greek frontier to the east to Xanthi
(Turkey in Europe) and from the
Aegean sea on the south to the Bulgarian
frontier should be shared by Bulgaria
and Greece, the former re-
ceiving the northern portion, the latter
the southern. The remaining two-
thirds of Thrace would make up in-
dependent "Wilsonia."

Country Is Defined.
This new country's boundaries would
follow the course of the Maritza and
Ergene rivers to Lule-Burgas (a town
in Turkey) then turning off to the
northwest as far as the Bulgarian
frontier for its eastern line and on the
west would have the division line
mentioned above.

Of the remainder of Thrace south
of the Ergene river, east of the Maritza
and south of Lule-Burgas, the Midian
line would be under the protection of
the power having the mandate over
Constantinople.

Greece's objections to the division of
this region are based on ethnic, econ-
omic, geographical and historical rea-
sons. In furthering these objections
Greece points out that under this plan,
the Greek portion of Thrace, which
would be cut off from the rest of the
country and would have no outlet on
the Aegean.

Premier Venizelos, in his counter
proposition puts forward other plans which
would give satisfaction to Bulgaria by
allowing her independent access to the
sea. His memorandum also points out
that in Thrace are 229,000 Greeks to
700 Bulgars and 426,000 Turks. Premier
Venizelos states that the majority of
the Turks want Thrace to be attached
to Greece.

Another proposition contained in the
report of Premier Venizelos is that if
Thrace is attached to Greece she would
make Bude-Agratch (Turkey in Europe,
ten miles northwest of the mouth of
the Maritza, and the terminus of a
branch of the Belgrade-Constantinople
railway) a free port under the super-
vision of the league of nations, and
connect it to Bulgaria by an interna-
tionalized railroad. Bulgaria would
also have an outlet on the Aegean free
from full control of Greece.

In reply to the Greek premier the
United States delegation points out
that taking away from Greece the two
parts of Thrace which she got after the
war of 1912 would be dangerous and
possibly would lead to further Balkan
wars.

Allies Support Greece.
The other allied delegations, France,
Great Britain and Italy, support Greece
morally.

It was learned that Premier Veni-
zelos has appealed to President Wilson
to solve the question of Thrace and
that he sent a detailed report on the
matter to the president. It would ap-
pear that Venizelos decided to ask Mr.
Wilson to use his influence when ad-
vices reached Paris to the effect that
congress bitterly criticized America's
policy in appearing to support Bul-
garia's claim to Thrace.

This highly important question is
holding up the completion of the peace
treaty with Bulgaria as well as that
with Turkey.

POLK AND VENIZELOS CONFER
Effort to Give Bulgaria Port Causes
Embarrassment.

PARIS, Aug. 15.—(By the Associated
Press.)—Frank L. Polk, head of the
American peace delegation, had a long
conference today with Premier Veni-
zelos on the Thracian question. They dis-
cussed various plans to adjust the situ-
ation by the conference and ended with
the question apparently no nearer a
settlement.

The effort to provide Bulgaria with
an outlet to the Aegean Sea by means
of an internationalized railroad to De-
deagatch does not seem to be meeting
with success. American delegates be-
lieve it is impossible to internationalize
the railroad without granting surround-
ing territory to Bulgaria.

The supreme council of the peace
conference in studying various plans
suggested for a division of Thrace in
such a manner as to be acceptable to
Greece and Bulgaria as well as England
and France, which are vitally inter-
ested in the disposition to be made of
European Turkey.

Uncertainty as to what country will
receive the mandate of Constantinople
and surrounding territory complicates
the situation.

A dozen different plans for the di-
vision and disposition of Thrace have
been considered during the last week,
but the one most likely to be accepted,
although oppositional, some extending
from the Bulgarian border to De-
deagatch on the Aegean Sea. Western
Thrace would go to Greece and the
east would also be given a strip eastward
from De-deagatch extending from the
Aegean to the Black Sea, including the
port of Midia. The territory immedi-
ately about Constantinople would go to
the country receiving the mandate
there. This internationalized zone would
be under the administration of the
league of nations.

TIDELANDS CASE IS HEARD

Industrial Evidence Introduced in
Tacoma Development Action.

TACOMA, Wash., Aug. 15.—(Special.)
—Industrial progress of the Pacific
coast was emphasized by J. M. Ashton,
Buyer Hopkins and other witnesses in
the Tacoma court today in their testi-
mony relative to the value of tidelands
owned by Mr. Ashton, which the city
is trying to condemn for its projected
\$2,500,000 port development.

Mr. Hopkins, Pacific coast manager

for the foundation company, said that
inquiries had come from the French
government last week relative to the
building of nine colliers at the founda-
tion yard here. Scott Z. Henderson,
counsel for Mr. Ashton, said that a
\$1,000,000 steel plant for Tacoma was
not an idle dream, and also that Tacom-
a is being considered as the Ameri-
can terminal for the Grand Trunk Pa-
cific Steamship company, and that Sec-
retary of War Baker is considering
plans for the construction of a 50-acre
base for the quartermaster depart-
ment of the army. Mr. Henderson said
he intended to prove that the site is
worth \$1,500,000.

LONDON, Aug. 15.—(Special.)—The
Daily Telegraph correspondent in Cop-
penhagen writes that Danes who have
just returned from Russia say Lenin's
power is waning. He has not been in
Moscow for a month, they report,
and the rulers of Russia just now are
the extreme reds and real anarchists.

The most powerful man in Moscow or
in Russia is said to be a Letish painter,
named Peter, who became well known
in London in connection with the
Sydney-street affair. The returning
Danes also report that Trotsky is no
longer powerful and is not in Moscow.
It is said he is with the army. Further
frightful massacres are expected in
Moscow.

NEW YORK, Aug. 15.—New York
City faced today the possibility of a
railroad strike more far-reaching than
the recent walkout in Brooklyn.
The threat of a strike to become ef-
fective Sunday morning unless a wage
increase of 50 per cent is granted, in-
stead of the 10 per cent announced
Wednesday, was made by the motormen
employed on the subway and elevat-
ed lines of the Interborough Rapid
Transit company, who are members of
the employes' brotherhood fostered by
the company.

Big Cranberry Crop Promised.

ABERDEEN, Wash., Aug. 14.—(Spe-

crop this season shows promise of be-

will be in their third and fourth years
and produce larger crops. An effective
spray to prevent blight has been found
and will tend to make the crop larger.
