

STATE HEALTH BOARD IS GIRDING FOR FRAY

Increased Authority Conferred Will Be Exercised.

RIGOROUS RULES ADOPTED

Regulations Deal With Hospitals and Other Institutions and Aim to Bar Communicable Diseases.

Under authority granted to it by an act of the last legislature the Oregon state board of health, at a meeting yesterday in this city, adopted rules and regulations governing the control of any and all communicable diseases.

At the conclusion of its session yesterday the board announced that these rules and regulations will be printed and filed within the next few days in the office of the secretary of state at Salem.

Water Tests Provided For. The water supplies of the state are placed under the direct control of the state board of health, the regulations affecting sanitation. To the end that these supplies shall remain uncontaminated, the regulations, as adopted by the board, provide that in every city, town, village or camp where there are more than five families or 50 persons, the water shall be examined at least once a month by the laboratory of the board of health.

Camps to Be Kept Clean. With reference to the sanitation of labor and industrial camps, the regulations establish strict control over the disposal of sewage and refuse and provide for the isolation of sick workmen in order that they may be protected from infection.

PAVING CONTRACTS RUSHED

Highway Between Eugene and Junction City Surfaced Mile a Week.

EUGENE, Or., Aug. 27.—(Special.)—The two paving contracts on the Pacific highway in Lane county are being rushed, according to Hollis W. Libby, former county surveyor of Lane, now having supervision over construction work in this county.

The Clark & Henery Construction company, which has the contract to pave the highway between Eugene and Junction City, has two miles finished, says Mr. Libby, and is laying the pavement at the rate of a mile a week.

While this work is being carried on, all through motor and team traffic is being routed by way of the local road through Irving, but farmers who live along the highway between Eugene and Junction City are allowed to use it.

TWO COAL MINES OPENED

Medford Business Men Find New Fuel Satisfactory.

MEDFORD, Or., Aug. 27.—(Special.)—With firewood selling at from \$9 to \$10 a cord, two coal mines have been opened in the Rocky Mountain area, now a district and are now selling coal to selling coal to Medford householders for \$10 per ton. A thousand tons have been sold and contracts for during the year, and practically all the large office buildings, hotels and postoffices use the local coal exclusively.

It is believed the popularity of the new fuel will soon force local wood dealers to put down their prices or restrict their output.

SOLDIER'S "NAP" LONG ONE

Oregon Boy Recently Discharged Has Sleeping Sickness. RANDON, Or., Aug. 27.—(Special.)—Fred W. Kooz, a returned soldier, son of Henry Kooz of Bullards, is at a local hospital suffering from "sleeping sickness." While working in the field at the C. D. Jarman farm at Bullards Monday afternoon Kooz became sleepy and walked to the woods near by and stretched out for a nap. Jarman thought Kooz had gone home, but when he learned the following morning that the young man had not been home a search was instituted. Kooz was found Tuesday and brought to Randon. He suffered a severe attack of influenza while in the army. He was discharged about three months ago.

NEW EXHIBIT IS ASSURED

PLANS FOR FARM DISPLAYS AT SALEM PROGRESSING.

SALEM, Or., Aug. 27.—(Special.)—Plans for securing a new agricultural and horticultural exhibit in the Oregon building are maturing rapidly under the direction of Mrs. Winnie Braden, state exhibit agent, who passed a day in Salem recently conferring with A. H. Lea, secretary of the fair board, and other officials.

Mrs. Braden is slated over the support accorded by O. B. Center, R. G. Hialop and W. L. Powers of the Oregon Agricultural college, and splendid exhibits of agricultural products, soils and honey plants, wool and dairy feeds are being prepared. Exhibits of sheep and threshed grains also are being assembled by D. E. Stephens and Robert Withcombe, of the More and Union experiment stations and every county agricultural agent in the state is said to be co-operating in the work.

Representative exhibits have been promised from practically every county in the state, and at the close of the fair Mrs. Braden will select the best of the exhibits for display in the Oregon center. County courts of Clatsop, Umatilla, Crook, Jackson, Multnomah, Coos and Sherman are evincing keen interest in their displays. Large fruit exhibits are being prepared by the Hood River Apple Growers' association and the Eugene and Medford Fruit Growers' associations.

Youth Indicted for Forgery. ALBANY, Or., Aug. 27.—(Special.)—Henry Cole, an 18-year-old boy of Coburg, has been indicted by the Linn

county grand jury on a charge of forgery. The young man came to Albany and spent two evenings with Walter Tyler, an Albany young man who had formerly lived in Coburg. Cole admits he took a check on the Albany State bank from Tyler's room, signed the latter's name to it and cashed it.

LINN COUNTY DOES PAVING

Highway Between Albany and Jefferson Progressing Rapidly. ALBANY, Or., Aug. 27.—(Special.)—The paving of the hard surface on the Pacific highway between Albany and Jefferson, which has been delayed by various causes, is now under way. The plan is to complete the paving of this section of the highway this fall, except on newly made grades which have not settled sufficiently. In these places the work will be finished next year. Work is proceeding on laying out and grading the highway from Albany southward to Tangent. It had been planned to pave this section this summer also, but because of the excessive cost of both labor and material and scarcity of labor this work will not be accomplished. The work will go ahead, however, of getting this portion

HAZARD ORDERED REMOVED

Dangerous Schoolhouse in Bend Not to Be Condemned. SALEM, Or., Aug. 27.—(Special.)—The central school building at Bend will not be condemned by State Fire Marshal Barber, although a report received from G. W. Stokes, special investigator for the department, indicates that the structure is in a

Real Wonder-Worker For Wrinkled Faces

Those who have tried all sorts of so-called "wrinkle-removers" in a vain effort to lose those unwelcome traces of age, illness or worry, can scarcely find words to express their delight with the wonderful saxolite formula, once they have given it a trial. The success of this method is due to its marvelous effectiveness—upon the deepest lines and crowfeet, as well as upon the very fine ones—but also to its surprising quick action and its entire harmlessness. Its simplicity and its inexpensiveness are other commendable features, for one need only dissolve an ounce of powdered saxolite in a half pint which hasel, and bathe the face in this solution. At once a remarkable transformation is beheld.

It is not only the effect on wrinkles and creases that is so noticeable, but facial contour is remarkably improved, and the face looks much younger. One should be sure to ask the druggist for the powdered saxolite. The lotion, being so refreshing, is very grateful to tired, weary faces. —Adv.
