GRAIN AND PROVISION PRICES WEAK AT CHICAGO.

Possibility of Strikes and Agitation Against High Cost of Living Lead to Selling.

CHICAGO, Aug 27.—Grain and provisions prices were week inday, hearish sentiment finding a basis in widespread industrial and sectionic unreat, with strikes locating as a not remote peasibility and agitation and action against the high cost of living a present reality. Corn led the grains in the decline, its downward course being stopped and railies attacted when oversude conditions appeared. Broadly spaking however, the average for the day was lower, with hearish entiment predominating. Comi-closed weak, be to le net leaver, with September at \$1.783, to \$1.70 and becamber \$1.103, to \$1.503, Out closed easy, with a net decline of hic to see any provisions inhibed with a decline of \$5 cents for pork, \$5 cents for lard and \$6 vents for ribs. September shorts were in evidence on the buying side and the nearby delivery, aftr. leading in the earty decline, also took the lead in the valles. Cop reports were penerally (averable and strivals were moderate, with a fair castern demand.

Sentiment in the odts market was less hearish than in term, but the market continued generally lower.

Provisions were scalar and decidedly-lower and there was a sharp decline in tive her prices.
