STATE GUARANTY OF INTEREST IS SOUGHT

Important Irrigation Bond Question Raised.

DECISION TODAY EXPECTED

Securities Commission to Meet at Capital to Consider Legality of Backing Big Issues.

SALEM, Or., Sept. 1.—(Special.)—
Decision as to whether the state legally
can guarantee interest on approximately \$1,350,000 in bonds certified for the
development of the Warm Springs irrigation project in Malheur county probably will be made tomorrow at a meetably will be made tomorrow at a meet-ing of Attorny-General Brown, Will H. Bennett, state superintendent of banks and Percy Cupper, state engineer, who returned here today after inspecting several irrigation plans and projects now under construction and contem-plated in central Oregon. Decision as to the legality of the state guarantee-ing bonds for the Warm Springs project also will apply to other irrigation dis-tricts in which a similar question is

dent of banks and state engineer constitute what is known as the state irrigation securities commission, created

fork of the Malheur river, and work on the remainder of the project is pro-gressing satisfactorily. Bonds in the sum of \$1,350,000 have been certified for this project, but the interest guarantee is awaiting action of the com-

Inspection also was made of the Silver creek irrigation project in Harney county. This district comprises 17,000 acres and a survey for adjudica-tion of the waters of the stream is under way. Certification of bonds for the development of this project has not yet been requested, but formal ap-plication probably will be made within the next few weeks.

Development Work Pushed.

The Ochoco irrigation district, also inspected by the commission, contains 22,000 acres, and is located in Crook county. A hydraulic fill dam 125 feet high is under construction and work already has progressed a distance of 78 feet. The water distribution system for riest ine water distribution system for this project has been practically com-pleted. Of the total contemplated bond issue of \$1,250,000 for this project se-curities in the sum of \$150,000 have been certified. State guarantee of in-terest on these bonds also is sought by the district.

There has been some question as to the validity of the act authorizing the state to guarantee interest on irrigation project bonds, but the commission believes this obstacle can be removed and the law made operative.

The commissioners made most of the trip by automobile and are high in their praise of the development work now in progress throughout the cen-tral part of the state.

LARGE LANDHOLDERS HIT

Benefit of War Veterans.

OMAHA, Sept. 1.-Lysle Abbott, rep-Canadian lands, has gone to Victoria, B. C., to protest against what is said to be virtual confiscation of their

this appraisement they may appeal. Many Omahans bought Canadian land eight or nine years ago, before the land settlement law was passed.

FRENCH TROOPS CONTROL

Rioting in Ludwigshafen, Palatinate Ends; Two Killed.

COBLENZ, Aug. 30 .- (By the Asso mplete control of the situation Ludwigshafen, where an attempt to establish an independent republic is the Palatinate appears to have comto a head yesterday. According to German newspapers, a number of ad-herents of Dr. Hass of Landau attacked the postoffice at Ludwigshafen and overpowered the optsoffice officials. Two persons were reported killed The followers of Dr. Haas are meking to make the Palatinate independen from Prussia. They are also accused of desiring to sever the Palatinate en-tirely from Germany.

AUTO HITS POLE; 2 HURT

Silverton Men Are Victims of Accident in Salem.

SALEM, Or., Sept. 1 .- (Special.)-Harry Annudson and Harry Diggerness, both of Silverton, are in Willamette sanitarium suffering from injuries sus-tained late last night, when an autoin which they were crashed into a telephone pole and over turned. Diggerness had not regained consciousness today. Annudson is suffering from a sprained ankle and body

The acident occured when Annudson, Diggerness and Jack Wyatt attempted to pass an automobile driven by Wesley Smith of Falls City.

Lane County Producers Advised to Hold Until October at Least.

EUGENE, Or., Sept. 1 .- (Special.)-Producers who are still holding their wool can look for a better price in October, says N. S. Robb, county agricultural agent. Buyers have promised to come to this county again during impurities—cleansed of the catarrhal that month, says Mr. Robb, and pay poisons which it is now a prey to be-

better prices.

Mr. Robb, who has just returned from a visit in the east, says the market in that section has been steadily creep-

PINS ISSUED Y. M. C. A. MEN War Workers Plan Permanent Na-

tion-Wide Organization. Service pins and certificates are 19,000 men and women who served the association at home or overseas during the war. These is also the prospect that these workers will form a permanent, nation-wide organization whose ratification will take place at the annual convention of the international committee in October.

The pins are of two designs, that for workers who have served overseas bearing a narrow, gold colored bar.

bearing a narrow, gold colored bar. The certificates, which are signed by William Sloane, chalrman of the Na-tional War Work Council, and Dr. John R. Mott, general secretary, the re-cipient's name and the period of his or her service. The names are subor her service. The names are submitted to a committee at the natonal headquarters in New York and there passed upon. Three months' employment by the "Y" in any capacity, or a total of 800 hours' work for the organization are necessary qualifications for a certificate.

The plan for the formation of the war workers' veteran association is finding wide approval and applications

JOB PRINTERS RETIGEN

ACTION ON EMPLOYERS' COM-PROMISE NOT DISCUSSED.

Negotiations Over Wages and Hours Are at Standstill With Strike Threatened in Near Future.

Negotiations between the union men of the allied printing trades and the commercial printing concerns in Port-land had progressed no further last night. The two factions were still ap-parently as far from an agreement as ever. A strike of the union men is threatened in the near future if an agreement is not reached.

stitute what is known as the state irrigation securities commission, created under an act of the last legislature.

Several Projects Inspected.

Members of the commission first visited the Warm Springs project, which includes approximately 46,000 Acres of land subject to irrigation. A concrete dam 100 feet in length is under construction across the middle fork of the Malheur river, and work on the remainder of the project is protected.

Agreement is not reached.

The position of the union at present is unknown, as the officials refuse to divuige any information as to the session Sunday afternoon, when the latest offer by the employers was considered. The offer was for a wage of \$41.60 for a 48-hour week. The union men had been asking a dollar an hour and a seven-hour day, but offered to change this to a dollar an hour for a 44-hour week. If desired.

Officials of the union at present is not reached.

Officials of the employers' organization had heard no word from the union up to last night, as to whether the men had accepted or rejected their compromise offer. In view of lack of any information as to the stand the printers are taking. F. W. Chausse, president of the employers' association, last night said that the employers had outlined no definite programme.

HOOD SCHOOLS ARE OPEN

Pupils of "High" Will Again Assist in Apple Crop Harvest.

HOOD RIVER, Sept. 1.—(Special.)— Hood River schools opened today with a record attendance. Advances will be made this year in agriculture and manual training. While pupils of the high school the

past two years have been granted a re-cess of about two weeks to help with apple harvest, the practice will be discontinued this year, school will begin earlier in the morning and the stu-dents will be released at noon, thus making it possible for them to render material aid in picking apples.

EVEN JAILBIRDS SEE FLEET

Prisoners Taken to Roof of Jail to

PORTLAND, Sept. 1.—Maximum tempe returned soldiers.

Land settlement districts have been created under a law adopted three years ago, and Nebraska owners have been notified their lands are appraised at \$5 an acre. If they refuse to accept this appraisement they may are a law adopted three this appraisement they may are a law adopted three than the lands are appraised at \$5 an acre. Seattle rubber company, were delivered

Do You Know Your Own Business?

If you own shares in a business do you want a Government employe to tell your executives how to run your business?

If you are a loyal employe, do you want a political appointee to have the power to injure your concern by hampering its operations or by interfering with its efficiency?

Perhaps you have noticed the effect of Government control on the railroads, telegraph, and telephone.

Bills have been introduced to license and regulate the packing industryperhaps your business will be next.

You would probably dislike to have this happen to your business even more than you would dislike to have your daily supply of meat interfered with.

To Discard Freckles, Tan, Pimples, Blotches

The use of creams containing animal rease sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercolized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle—gradually, gently, so there is no detention indoors and no inconvenience. The discarded complexion naturally is replaced by a clear, smooth, healthy one—full of life and expression. It's the sensible way to get rid of a freckled, tanned, overred, blotchy and pimpled skin. Just procure an ounce of mercolized wax at any druggist's and apply nightly like cold cream, erasing in the morning with soap and water. It takes a week or so to complete the transformation. You run no risk of acquiring superflu-

of curiling your hair? It's simply grand! Gives you the most beautiful, natural-looking curls and waves-makes the hair soft, luffy and glossy-and nothing harmful of bothersome about it. The curls will last the longest time-in spite of heat, wind or dampness. You won't have to be continually fixing and fussing with your hair. It's foolish

Telephone Rates Are the Prices Which the Public Is Asked to Pay for Telephone Service

To be just and reasonable, telephone rates or prices must cover the costs of rendering the service and leave a profit that will attract to the telephone industry a continuing supply of capital which is constantly required for extension and improvements.

If rates yield more or less than such amount they are not just. If they yield more they are excessive and unreasonable. If they yield less they are unreasonable and are against public interest because they result in a deteriorated service and capital is no longer attracted, but

directed to other industries that are more profitable and possibly the products of many such industries are of less importance to the public.

The present rates we believe to be just and reasonable. They were approved by the Postmaster-General and are effective by Act of Congress.

These rates are now being reviewed by the Public Service Commission of Oregon, which body assumes jurisdiction since the Government turned back the telephone properties to private owner-
