

SECRETARY OF WAR'S STORY CALLED 'BUNK'

Baker Heckled at Hearing of House Committee.

DATA ASKED ON SIBERIA

Fuller of Massachusetts Insists He Cannot Get Reason Why U. S. Troops Are in Russia.

WASHINGTON, Sept. 15.—When Secretary Baker told the house military committee today that the only reason for putting American troops into Siberia was to guard the trans-Siberian railroad, Representative Fuller, republican of Massachusetts, told Mr. Baker his reason was "bunk."

"Why shouldn't we know the real reasons?" demanded Mr. Fuller. "I have listened to your romantic story about Russian and Siberian conditions but I don't get an answer."

"Unfortunately that is not my fault," Secretary Baker replied. "I have not returned of the American Siberian force, Mr. Baker explained, is largely a matter of policy. Their presence, he said, was to guard the trans-Siberian railroad and support the remnants of the Czecho-Slovak forces. Battles fought there by entente forces, he explained, have been defensive."

PEACE SIGNERS SOUGHT

AFTER THAT, CONFERENCE MAY ADJOURN UNTIL NEXT SPRING.

Task of Drawing Up Turkish Treaty Then Would Be Left to New Delegations.

BY WILLIAM COOK.
(Copyright by the New York World, Published by Arrangement.)

PARIS, Sept. 15.—(Special Cable).—Rumors are current in Paris that the peace conference will adjourn soon until the beginning of next year or until next spring. There are strong reasons to suppose that there will be no adjournment until the Bulgarian and Hungarian treaties have been disposed of and until Galician matters have been straightened out.

The Bulgarian treaty was to have been handed to the enemy delegates yesterday but objections were presented by Roumania and Greece who said that under the treaty they will not receive enough economically and territorially, while Bulgaria, they point out, will get too much territory. The Hungarian treaty is practically completed.

The only worry of the peace conference is to find a Hungarian government to deal with. After this the conference may adjourn and leave the task of drawing up the Turkish treaty to new delegations. Premier Lloyd George arrived in Paris tonight and immediately engaged in a long conference with Frank Lipok, tomorrow Lloyd George will see Premier Clemenceau. It is considered extremely unlikely that Lloyd George will sit as head of the British delegation again.

The thorny Teschen problem has been solved at last. President Paderewski left for Poland Saturday to prepare for a plebiscite in the Cola region as was ordered by the supreme council.

MEMORIAL SHAFT OPPOSED

ROOSEVELT AMERICANIZATION PLAN OFFERED INSTEAD.

Chester H. Rowell, in Speech at San Francisco, Wants Campaign on Insane Radicalism.

SAN FRANCISCO, Sept. 15.—Plans for the California campaign in the national Americanization movement to perpetuate the memory of Theodore Roosevelt were discussed here today, when prominent Californians, without regard to political alignment, met in conference. Chester H. Rowell, publisher of the Fresno Republican, and John Francis Neylan, publisher of the San Francisco Call-Post, were among the speakers.

The delegates received a pleasant surprise when Lieutenant-Colonel Theodore Roosevelt dropped in on the conference unannounced. Mr. Rowell had just started speaking when Colonel Roosevelt entered the hall. He was invited to address the delegates, but asked to be excused on the ground that he was to speak tonight at the American legion meeting.

GERMAN CLAUSES VOIDED

CLEMENCEAU'S NOTE DEMANDS CHANGES IN CONSTITUTION.

Articles in Contradiction of Treaty Must Be Eliminated; Time to Sign Agreement Limited.

BASLE, Sept. 15.—(By the Associated Press).—A dispatch from Berlin says the text of the note of September 11 written by Premier Clemenceau to the German government concerning clauses in the German constitution objected to by the entente, has been published in the German capital.

M. Clemenceau's note, which was in reply to the German government's defense of the articles protested against, called the German reply an "ingenious artifice" which would enable, for instance, the German constitution to declare that an army of several million men should be maintained by recruiting, and that when the allied and associated powers drew attention to such stipulation, as being contrary to the peace treaty, the German government could reply that the constitution provided a sufficient guarantee in article 175, stipulating that nothing in the

HIS MUSCLES TIED IN KNOTS

That Is the Way McCoy Says His Rheumatism Made Him Feel.

"Tanlac put me back on the job again and I'm ten pounds heavier than I was when I started taking it," said E. McCoy, a well-known plasterer, living at 206 Sixth avenue South, Seattle. "Stomach trouble and rheumatism had kept after me for six years until I had to quit my work entirely," he continued. "From the back of my neck down into my arms and shoulders the pains would strike me and it seemed that all my muscles were tied in knots. I could hardly lift my hand to my head and instead of getting relief I got worse all the time. In my right hip the rheumatism settled and I got so I couldn't move without being in such pain that big beads of sweat would form on my forehead. I would take a catch in my neck and for days I wouldn't be able to turn my head, and whenever I had to look to one side or the other, I would have to turn my whole body. My stomach was in a terrible shape. After evening meals it would sour and form gas which crowded up into my throat and choked me until I couldn't get a deep breath and my heart would skip and flutter until I was afraid I had heart trouble. I was dizzy all the time and my head would swim until I couldn't walk along the street without holding on to something. I was half-starved because I couldn't eat anything to build me up and was going down hill all the time."

"I actually believe Tanlac has saved my life, for I couldn't have kept up much longer like I was. I saw Tanlac advertised in the papers and started taking it and commenced to improve before I had finished the first bottle. I have taken eight bottles so far and am back on my job feeling fine. I can do more work in a day now than I have been able to for years and am just like a new man. My meals are a pleasure to me for I can just eat anything I want—and I sure want enough, for my appetite has come back in full force. The fluttering spells with my heart have disappeared, gas does not form in my stomach and I haven't a pain left. I can almost run up a ladder when I am at work, for my arms and legs are as good as new since the rheumatism has gone. I can swing my arms in a circle like a school boy at play and never feel a catch or a tinge of pain, and am just simply a well man, so its no wonder I praise Tanlac, for it's the only medicine that ever helped me." Tanlac is sold in Portland by the Owl Drug store.—Adv.

peace treaty should be affected by the constitution.

The note proceeds to point out that article 112 of the constitution says no Germans shall be delivered up to a foreign tribunal, although the peace treaty expressly provides that certain persons, accused of the violation of the laws of war, shall be delivered for trial by a foreign tribunal.

The note ends with the copy of a diplomatic document which the German plenipotentiaries must sign in the presence of representatives of the allied and associated powers and which the German legislative authorities must ratify within a fortnight after the treaty of peace is in force.

The undersigned, duly empowered to act in the name of the German government, recognizes and declares that all prescriptions of the German constitution which are in contradiction to the Versailles treaty, are not valid, notably the admission of Austrian representatives can take place only if conformable with the treaty, the league of nations gives assent to a modification of Austria's international situation."

SHEEPMEN LOSE \$45,000

Appropriation Said to Have Been Turned Back to General Fund.

BOISE, Idaho, Sept. 15.—(Special).—Approximately \$45,000 of state funds for sheep inspection was transferred by the former state board of examiners to the general fund and therefore was made available for the inspection work, according to a statement made this morning by Hugh Sproat, president of the Idaho Wool Growers' association, at a meeting of sheepmen of the state with Roy L. Black, attorney-general, and Miles Cannon, agricultural commissioner, at the statehouse.

Mr. Sproat said the sheepmen would make every effort to recover the money, holding that, as it was appropriated by the legislature for a special purpose, it could not have been legally turned into the general fund.

ALTITUDE MARK APPROVED

Aero Club Substantiates 30,300-Foot Record Set by Rohlf.

NEW YORK, Sept. 15.—The Aero Club of America announced today it had officially approved the altitude record made by Roland Rohlf, July 30 at Roosevelt field, Mineola. The height reached was 30,300 feet, which established a new American record for altitude. The official French record of 29,937 feet made by Jean Casale May 28.

Rohlf made another altitude flight at Mineola yesterday and reached a height of 34,000 feet, but this figure has not been verified officially.

SUSPECT VIEWS CORPSE

L. C. PALMER, UNDER ARREST TAKEN TO MORGUE.

California Man, Involved in Murder of Minister's Widow, Reported Seen Near Woman's Home.

CHICAGO, Sept. 15.—L. C. Palmer, who claims Los Angeles as his home and is said to have claimed to be wealthy, under police escort was confronted today in a morgue with the body of Mrs. Louisa Brown, 66 years old, widow of a Methodist minister, who was beaten and strangled to death in her suburban home last week. He was arrested Saturday as a suspect and the police, although admitting there was only circumstantial evidence involving Palmer, expressed satisfaction with their efforts to clear up the case.

Mrs. Palmer Sunday denied that her husband had been a motion picture actor in Los Angeles but said he had been a chemical engineer for several California oil enterprises. She reiterated that he was a relative of the late Potter Palmer, millionaire merchant of Chicago, which the family has denied.

They Stand Up for 30,000 Miles in the Most Withering Tasks

Road building is hard on truck tires.

Particularly does this apply to the tires—which must operate on the teeth of new laid crushed rock, and on which they must claw for traction.

Yet even in this heroic service two Goodrich 40x10-inch Truck Tires have each more than quadrupled the adjustment mileage on a truck of Willett & Camp, wholesale dealers in wood, concrete, gravel and crushed rock at Spokane.

The Odometer credits each with 30,000 miles.

Willett & Camp declare that this is by far the best tire service they have ever obtained—and they have tried all reliable makes.

You, too, will note a marked improvement in tire service once you use Goodrich De Luxe Tires—TRY THEM!
