

WAR ON BOLSHEVKI MUST BE EARNEST

Allied Forces Outnumbered and Imperiled.

NEWS IS SUPPRESSED

Major-General Ironside Tells of Failure of Offensive Begun in June in Northern Russia.

ARCHANGEL.—(Correspondence of the Associated Press.)—The British-Russian offensive in Northern Russia, which was intended this summer to connect with Admiral Kolchak's Siberian Army and establish Archangel as a base through which allied supplies might be handled for all anti-Bolshevik armies in the field, has met with unexpectedly strong resistance on the Dvina river at the same time that Admiral Kolchak's armies have been driven backward into Siberia.

Throughout the long winter, when the allies and Russians on the Archangel front were fighting a hard-pressed, defensive battle against superior forces, the allied command was waiting the arrival of summer to take the offensive.

WHY AGAIN AT ISSUE

Government Assails Oberstadt's Title as Purchaser. Count Oscar Bopp von Oberstadt, whose fight against the government regarding his \$1,000,000 dowry in the case of the Peter Schoenhofen brewery made him a prominent figure in the alien enemy cases of the war period, returned yesterday to the limelight of the federal courts.

COLLEGE DRIVE LAUNCHED

Indiana High School Graduates Urged to Continue Work. INDIANAPOLIS.—A state-wide campaign to urge high school graduates of 1919 to enter colleges or universities has begun under the direction of the state board of education, O. H. Williams, former state high school inspector, and Professor W. E. Book, head of the department of psychology at Indiana university.

HAT BUYING BIG EVENT

Poor New York Girls Make Most of Menger Incomes. NEW YORK.—The purchases of a new hat is an epochal event in the life of an east side girl. It is the keynote—the crown piece—of her season's outfit; a queen never displays more attention to the choosing of her diadem. Its worries and anguish are only eclipsed when she buys her trousseau. She lavishes extreme care

and deep thought on the selection of her hat, and her critical intensiveness sometimes extends over many days and weeks.

First, there are subconscious suggestions and whispered hints of the forthcoming occurrence, followed by surreptitious contrasts of her friends' hats, made with inner criticisms. Gradually her vague longings crystallize and she confides her desire to her most intimate friend.

YEAR IN STORAGE ENOUGH

Father of Federal Pure Food Laws Gives His Ideas. WORKINGTON.—One year is long enough for food to be kept in cold storage, according to Dr. Harvey W. Wiley, father of the federal pure food laws. Dr. Wiley appeared before the house agricultural committee, which is holding hearings on cold storage bills introduced in the house with presidential recommendations to check the high cost of living.

AN ANTIDOTE FOR BOLSHEVISM

New York Commercial. Teachers in the high schools are at work on monographs to be used in connection with the teaching of civics next fall. The new syllabus for this subject has been entitled "The Government of the City of New York, With State and Federal Relationships." As there are no textbooks, the monographs are to take their place. Water supply, health, food, clothing, regulation of buildings, protection of the city and property, recreation, communication and transportation, city planning, civic beauty and similar topics are to be studied. In fact, everything relating to civic life will be taken up. The assumption is that the state is training young citizens in the responsibilities and duties of citizenship.

should not be put in cold storage at all. The only reason for doing so, he said, was to increase the price. Dr. Wiley asserted that cold storage invariably added to the cost of food, but was necessary if the consumer desired a balanced diet during the year.

"Shad, other varieties of fish, and oysters," said Dr. Wiley, "should not be stored for months because of their rapid deterioration and efforts of many dealers to pass off stored articles for the fresh product during the season of these foods.

"Butter should not be kept longer than ten months, and likewise all stored should be on the market by June of the year in which it is stored. June is better as soon as it is milled. Sweet corn loses half of its sugar within 25 hours after it is pulled from the stalk, the sugar in that time having been turned into starch. Meats in general should not be kept longer than four or five months." Dr. Wiley strongly advocated the more extensive use of powdered milk in place of fresh milk.

We have had 'have not come from American citizens, but are of foreign production. They are propagated in countries where the rights of citizenship were suppressed, where laws were oppressive and where the oppressed had no recourse; where education was discouraged and ignorance prevailed. The bolshevik war on 'intellectuals.' Yet ever since the world began intelligence has triumphed over ignorance.

In six or seven years these high school children will be voters—of both sexes. They will understand that in this country wrongs are righted not by bullets but by ballots. Yet even before that they will have carried into their homes the influence of what they have learned regarding American institutions and methods.

The Kaiser counted upon the immense German-American population to keep this country out of the war. He forgot about the second generation, educated in American schools and brought up under a free government. Many of them took up arms. It is true, but on the opposite side of the fighting line. The perch of the American eagle is really the flagpole of the little red schoolhouse.

\$4,000,000 PLANT PLANNED

Berkeley Man Proposes Big Investment in California. SAN FRANCISCO.—An application for a permit to appropriate 400 cubic feet per second of the waters of Bucks and Drizzly creeks, tributaries of the north fork of the Feather river, in Plumas county, as filed with the state water-commission, reveals a plan for a \$4,000,000 hydro-electric plant. E.

A. Walters of Berkeley is the applicant. The diversion works are to consist of a masonry dam ten feet high, 9 feet long on top and 20 feet long on the bottom and a can ten miles in length. The amount of water to be stored is 50,000 acre feet. The storage dam is to be 140 feet high, 300 feet long on top and 60 feet long at the base.

London's water consumption a day is not less than 249,000,000 gallons, and an expert estimates that at least 4,000,000 gallons a day are absolutely wasted.

BLISS NATIVE HERB TABLETS

Have you noticed the rugged, healthy complexion of our soldiers and sailors? This condition is due to outdoor life, plenty of exercise, regular habits and wholesome food.

Your responsibilities may not permit you to work, live and play outdoors. You may have to grind away at a machine, a desk, or other employment, until your condition becomes stale. Indigestion, constipation, headache and general debility follow. Your liver and kidneys fail to act properly, and your blood becomes poor and sluggish. Don't be a health-slacker. Take Bliss Native Herb Tablets. They will relieve constipation, remove indigestion, help prevent rheumatism and make you fit. Look for trade mark. Our money-back guarantee on every box. Two sizes, 50c and \$1.00. Sold by leading druggists and local agents everywhere. Made by Alliance C. Bliss Co., Washington, D. C.

Don't Miss This. Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic, for constipation, biliousness, headache, and sluggish bowels. Sold everywhere.—Adv.

SUFFERED WITH RHEUMATISM CATARRH AND STOMACH TROUBLE

"I think Number 40 For the Blood as a blood purifier has no equal. When I began to take Number 40 I was in very poor health, as I had Rheumatism, Catarrh, Stomach Trouble, Lead Poisoning and an Itch that I had tried almost every known remedy to relieve, I have taken six bottles of 'Number 40' and am on a fast road to recovery. I owe my life to it, as I used to weigh 127 pounds and now weigh 148, my usual weight. I could write more, but this should be enough to convince the most skeptical, and you are at liberty to use this letter any way you desire."

The ingredients in "Number 40 For the Blood" are set down in the U. S. Dispensary and other reliable medical books as follows: "Employed in diseases of the glandular system, in blood poison, constipation, stomach and liver troubles, chronic rheumatism, catarrh, sore, ulcers, skin eruptions, neuralgia and lead poisoning. Under its tonic, stimulant, purgative and laxative properties, it has cured thousands of nervous swellings that have withstood all other treatment disappear as if by magic."

Prepared by J. C. Mendenhall, Evansville, Ind., 40 years a druggist. Sold by Luce-Davis Drug Co., Third and Yamhill.—Adv.
