

EPISCOPALIANS KEEP PRESIDENT'S PRAYER

Change in Services Defeated After Stirring Appeals.

EX-AMBASSADOR IS HEARD

Proposed Concordat for Closer Unity of All Denominations Saved From Rejection?

DETROIT, Mich., Oct. 16.—The petition of divine guidance for the president of the United States will not be omitted from the morning service of the Protestant Episcopal church as the result of an appeal made in the house of deputies in the triennial general convention today by Thomas Nelson Page, ex-ambassador to Italy, and Major Charles M. Clement of Harrisburg, Pa.

The proposed concordat by which it is hoped to bring about closer unity of denominations for spiritual welfare of the world was saved to consideration in the convention by an appeal in the house of bishops, by Bishop Charles H. Brent, western New York, formerly chaplain-general of the American expeditionary forces.

These were two outstanding features in the deliberations of the most important general church convention held since the war on what delegates characterize its "biggest" day.

Heated Debate Is Held. There was heated debate in the house of deputies on the recommendation of the revision commission that the prayer book should be retransposed as to permit shortening of the morning service by omission of the prayer for the president when the litany is said, of communion services follows immediately.

Ex-Ambassador Page, who represents the European branch of the church in the convention, declared "this is not a moment to be dispensed with the prayers of the people for the president. You may strike from your prayer books the prayer for the president, but you cannot prevent the American people from praying for him."

Major Clement sprang from his seat and thrilled the convention with his declaration: "Although I do not agree with the president and have no sympathy for him except in his illness, I believe the nation, apart from all politics, desires that his life be prolonged."

Bishop's Appeal Dramatic. Bishop Brent's appeal for the concordat was dramatic. As proposed it provided that ministers of the congregational communion may be ordained priests of the Episcopal church without severing affiliation with their own church. Other denominations, it is stated, are showing a decided interest in the plan. His appeal, presented reference of the question to the Lambeth conference, a convention of the Anglican bishops of the world, which is without power to legislate. Reference to the Lambeth conference was proposed in a resolution by Bishop Charles M. Anderson of Chicago.

Missionaries To Be Elected. "Other churches are appealing to us for unity," said Bishop Brent. "If we sidestep they will think we are afraid to face the question fairly. This is a concrete proposition for church unity."

The house of bishops announced that the election of missionary bishops will be held Saturday morning. It was also announced that Haiti will be made a separate missionary district.

The resignation of Bishop G. Mott Williams of Marquette, Mich., was accepted because of his ill health. Coadjutor Leroy Harris becomes bishop. Because of the impression that has become current that it is the object of the Episcopal church in its Americanization work to convert the Jew and others to the Episcopal faith, a resolution was adopted by the house of deputies stating that it is not the purpose of the convention to "disparage or criticize the notable work of American patriotism displayed by great numbers of our fellow citizens of foreign birth or parentage who profess other religious faiths," agreeing that religious liberty "is the only secure basis upon which free American institutions can be perpetuated."

Resignation Is Accepted. The house of bishops accepted the resignation of Bishop Frederick J. Kingsman of Delaware.

Bishop Kingsman's request that he be formally deposed, however, was refused. Bishop Kingsman had made the charge that "those theological thinkers who have gone unrebuked by ecclesiastical authorities in the church, in presenting his resignation, several months ago, he stated that he could not agree with some of the teachings and methods of the Episcopal church."

NEW YORK, Oct. 16.—Appeal to Presbyterians for an expression of opinion on the question of extending women equal rights with men in all the functions of the church was issued today by the federal board of official relations of women in the church, created by the last general assembly of the Presbyterian church. The committee's report will be submitted to the next general assembly.

CINCINNATI, Oct. 16.—In pleading for purification of sources of public thought, the Rev. Frederick W. Burnham, Cincinnati president of the American Christian Missionary society, told the delegates attending the international convention of Disciples of Christ today that much that is given out as substantial editorial judgment is propaganda. So-called "church papers," Dr. Burnham said, are the worst offenders. The president also declared that organized religion, like organized government, does not live reform in the direction of liberty. The church is neglecting the masses of the immigrant, Indians and negroes, according to the speaker, and must change its tactics or fail.

STRIKE FEVER IS DYING

GERMAN WORKINGMEN FAST RETURNING TO SENSES.

Reaction Against Radicalism Declared to Be Settling In Among Hitherto Misguided Masses.

(Copyright by the New York World. Published by the Associated Press.) BERLIN, Oct. 15.—(Special Cable.)—German workingmen are fast returning to their senses and are working harder today than at any time since the outbreak of the revolution. The strike fever appears to be dying down and a reaction against radicalism is being felt among the hitherto misguided working masses. At

the same time a general rapid return to the piecework system is taking place. Increasingly optimistic reports come from all industries in all parts of Germany and indicate that workingmen are speeding up wherever plenty of work is available. In general, the speeding-up process is greatest in those industries which have plenty of raw material and orders, particularly for export and which are not seriously handicapped by the coal shortage. Germany's glass industry, working overtime for export and is probably beating the normal peace time production. Similarly the porcelain, optical and musical instrument and toy industries are speeding up to the normal pace, being forced to it by heavy export orders and the piecework system. German workingmen generally are putting on top speed in the leather, currier, textile and other industries as fast as piece work is being introduced. The indications are that piece work will be restored in full soon wherever it was in vogue before the revolution introduced a premium on loafing by the compulsory flat wage scale. German workingmen are not speeding up from the patriotic motive of hastening Germany's rehabilitation and helping reconstruction. The speeding up is a natural reaction from revolutionary demoralization and is due, in the first place, to the inherited industry of the German people, aided by improving food conditions and encouraged by the incentive of the piece work system.

RATIFICATION DUE SOON

FORMAL EXCHANGE HELD UP UNTIL NEXT WEEK.

Austrian National Assembly Meets to Consider Treaty; Uruguay Approves Document.

PARIS, Oct. 16.—The exchange of German peace treaty ratifications, putting the convention into effect is expected to take place early next week, according to semi-official French sources today. It is explained that the delay in formal exchange of ratifications was caused by the amount of mechanical work necessary in preparing the documents.

VIENNA, Oct. 15.—(By the Associated Press.)—Austria's national assembly met today for consideration of the peace treaty framed by the peace conference at Paris and signed at St. Germain September 19 last. The treaty was referred to a special committee. It is probable that the ratification committee will make its report by the end of the week, which is expected that the ratification committee will take place. Dr. Otto Bauer, minister of socialization, announced his retirement from the government. He will take the leadership of the opposition.

Today's session was presided over by Dr. Karl Seitz, president of the republic.

MONTEVIDEO, Oct. 15.—The Uruguayan house of representatives today voted approval of the treaty of peace between the allied and associated nations.

WASHINGTON, Oct. 16.—Officials in Washington today to have no information as to the reasons for postponing the exchange at Paris of ratification of the treaty of Versailles by Great Britain, France, Italy and Germany, which would bring the treaty into immediate force.

There was an suggestion that ratification had been postponed because the league of nations would have to assemble within 15 days after the treaty went into effect, but state department officials would not express an opinion on this point.

The league covenant provides that the league council shall consist of representatives of the five great powers, the United States, Great Britain, France, Italy and Japan—and of Belgium, Brazil, Greece and Spain. Only three of these nations have ratified the treaty.

While professing to have no official information on the subject, officials said they assumed that if the treaty were put into force with only three of the allied and associated powers completing ratification, it would proceed with the organization of the league.

"FRATS" BAN DRESS SUITS

Washington College Chapters Decide to Abolish Formals.

WASHINGTON STATE COLLEGE, Pullman, Oct. 16.—(Special.)—An inter-fraternity meeting Monday night it was decided that all fraternity formals will be abolished this year. Interfraternity chapters will rotate their social dates on condition that no dress suits be worn to any of the functions.

AUTO SMASH BRINGS SUIT

39 Days' Loss of Machine Is Now Valued at \$585.

Fabrics that are absolutely unsurpassed in woolen worth, pattern and color. Hersh, Wickwire Clothes are cut and stitched individually by hand and, accordingly they fit better and wear longer than any other clothes within many, many dollars of the prices we ask. Will you investigate and let us prove our right to your patronage? Winthrop Hammond Co. Correct Apparel for Men 127 Sixth St. Between Washington and Alder Streets

the defendant drove at a high degree of speed from a crossroad into the main highway, and a head-on collision occurred. The plaintiff's car was badly damaged and she (itemizes her claim for damages as follows: Towing car to Astoria and repairs, \$270.48; personal expenses, \$15.23; plaintiff's loss of time, \$10; loss of automobile for 33 days, \$55; permanent injury to car, \$250.

Canada to Set Clock Back. MONTREAL, Oct. 16.—The Canadian railway war board announced today that Canadian railway time will be moved back an hour at 2 o'clock Sunday morning, October 26, to conform to the winter time standard of United States railroads.

Workman Dies in Gravel Slide. KELSEO, Wash., Oct. 16.—(Special.)—Joseph Wansteyn, a workman at the gravel pit near Martin's Bluff, where gravel for the Pacific highway is being quarried, was caught in a slide Sunday and crushed to death. He was 32 years of age. He was a native of Germany, and his only surviving relative is a sister who lives in Kalama this afternoon. The funeral was held at Kalama this afternoon.

Mrs. Zane to Sponsor Ship. VALLEJO, Cal., Oct. 16.—Officials of the navy-yard at Mare Island were notified today that Mrs. Randolph Zane, daughter of Governor William D. Stephens and widow of the late Major Zane of the marine corps, has been selected to sponsor the super-dreadnaught California, which will be launched here in November.

Moro Man Gets County Post. SALEM, Or., Oct. 16.—(Special.)—W. C. Bryant of Moro today was appointed attorney for Sherman county for the state land board, succeeding J. M. Pary, who has resigned after 20 years' continuous service. Mr. Pary is removing from Sherman county. Mr. Bryant is a member of the board of regents of the state normal school at Monmouth and is a graduate of the institution. He is a member of the law firm of Bright & Bryant of The Dalles and Moro.

The Path to Health For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose. Women in All Countries Depend Upon Lydia E. Pinkham's Vegetable Compound
