MRS. MARTIN GAINS TWENTY POUNDS

After an X-Ray Examination Was Told Nothing Could Help Her—In Perfect Health Now.

"My wife has gained twenty pounds since she commenced taking Taniaic and is enjoying better health than she has had for over eight years," said F. E. Martin, a well-known employe of the United Ship Yards, and who lives at 8419 Twenty-fourth street South, Seattle, Washington.

"Yes, sir, Taniaic did the work for her all right," continued Mr. Martin, "and it is the only medicine that has done her any good since her trouble first started. My wife had a bad attack of stomach trouble and every time she ate anything she would have the worst sort of cramping spells. Then gas would form and get up into her chest and cause her heart to palpitate something awful, and sometimes this was so bad she could hardly get a good breath. She was very nervous, too, and would lie awake night after night and not sleep a wink. She also suffered from headaches and finally she couldn't go to her work and she just gradually got weaker and weaker."

"This was the condition she was in when a friend of her name to see her one day and told her about Taniaic. Well, sir, I went out and got a bottle of Taniaic and she commenced taking it, and to my surprise she began to pick up right away. She has taken six bottles of Taniaic and she has a fine appetite and eats just anything she wants and she never suffers from it afterwards. In fact her stomach seems to be in perfect condition again. These awful headaches have left her, too, and her nerves are no longer so sensitive. She sleeps like a child every night. It is wonderful the way she has gained in weight and strength since she started on Taniaic. She is now as plump as a baby and she just gradually got weaker and weaker."
