

LABOR CONFERENCE TO ADMIT ENEMIES

Arrival of German and Austrian Members Awaited.

ONE NEGATIVE VOTE CAST

Motions to Admit Mexico and Finland Deferred; Dutch Proposal to Change Resolution Lost.

WASHINGTON, Oct. 30.—With only the French capital delegate opposing the action, the international labor conference today decided to admit representatives of Germany and Austria, immediately upon their arrival here, to full membership in the world labor organization.

Louis Guerin, who cast the only negative vote, holding up to view the desolation wrought by the German military machine in the invaded regions of his country, declared that a distinction must be made between "barbarian" nations that regard treaty as a "scrap of paper" and allied peoples who had fought for the cause of freedom.

Labor Delegates Opposed. Sharp opposition to this view was expressed by Leon Jouhaux, French labor delegate, who said that Germany must be admitted in the "new regime."

Motion to Change Lost. An effort was made by Dr. W. H. Nolen, Dutch government delegate, to strike out of the resolution of admission words stating that the action was taken "in accordance with the decisions of the allied and associated powers."

Mr. Wright, since he came here a year ago, has stimulated interest in stock raising and other forms of diversified farming. It was mainly through his efforts and those of Gordon G. Brown, horticulturist of the Hood River experiment station, that the county fair materialized successfully last September.
